Sea Of Green:

Growgirl Heather Donahue, 2012-12-31 A wry and entertaining memoir about growing up growing pot and life after your career goes up in smoke At age thirty four Heather Donahue s life went to pot Literally After starring in The Blair Witch Project the tiny indie film turned blockbuster that Roger Ebert named one of the ten Most Influential Movies of the Century she became a household name But the afterglow of the movie faded her acting career stalled Determined to start a new life she left most remnants of the old one in the desert meditated on things for a few days then followed her brand new boyfriend to her brand new life growing pot Growgirl is Heather s year living on a pot farm in Nuggettown California among The Community a collection of growers their pot wives and the reason for it all The Girls They help one another build grow rooms tend to their crops and provide a glimpse into this rarely seen world Though her relationship hits rocky territory Heather s new life brings unexpected solace and she s surprised to finally find normalcy in the least likely of places **Discourses of**

Ideology and Identity Chris Featherman, 2015-03-24 In this monograph Chris Featherman adopts a discourse analytical approach to explore the ways in which social movement ideologies and identities are discursively constructed in new and old media In the context of his argument Featherman also considers current debates surrounding the role that technologies play in democracy building and global activist networks He engages these critical issues through a case study of the 2009 Iranian presidential election protests looking at both US legacy media coverage of the protests as well as activists use of social media Through qualitative analysis of a corpus of activists Twitter tweets and Flickr uploads Featherman argues that activists social media discourses and protesters symbolic and tactical borrowing of global English contribute to micronarratives of globalization while also calling into question master narratives about Iran commonly found in mainstream Western media accounts This volume makes a timely contribution to discussions regarding the relationship between cyber rhetoric and democracy and provides new directions for researchers engaging with the influence of new media on globalized vernaculars of English *Cannabis* Ernest Small, 2016-10-14 Cannabis sativa is best known as the source of marijuana the world s most widely consumed illicit recreational drug However the plant is also extremely useful as a source of stem fiber edible seed oil and medicinal compounds all of which are undergoing extremely promising research technological applications and business investment Indeed despite its capacity for harm as a recreational drug cannabis has phenomenal potential for providing new products to benefit society and for generating extensive employment and huge profits Misguided policies until recently have prevented legitimate research on the beneficial properties of cannabis but there is now an explosion of societal scientific and political support to reappraise and remove some of the barriers to usage Unfortunately there is also a corresponding dearth of objective analysis Towards redressing the limitation of information Cannabis A Complete Guide is a comprehensive reference summarizing botanical business chemical ecological genetic historical horticultural legal and medical considerations that are critical for the wise advancement and management of cannabis in its various forms This book

documents both the risks and benefits of what is indisputably one of the world's most important species. The conflicting claims for medicinal virtues and toxicological vices are examined based mainly on the most recent authoritative scientific reviews. The attempt is made consistently to reflect majority scientific opinion although many aspects of cannabis are controversial. Aside from the relevance to specialists, the general public should find the presentation attractive because of the huge interest today in marijuana. Unfortunately, society has become so specialized and compartmentalized that most people have limited appreciation of the importance of science to their lives except when a topic like marijuana becomes sensationalized. This review of cannabis can serve as a vehicle for public education in the realm of science and technology. Indeed, towards the goal of disseminating the important information in this book to a wide audience, the presentation is user-friendly, concise, and well illustrated in the hope that non-specialists will find the topics both informative and entertaining.

Chequamegon National Forest (N.F.), Land and Resource(s) Management Plan (LRMP), 1986 *The Time at Darwin's Reef* Ivan Brady, 2003-01-21. *The Time at Darwin's Reef* is primarily a book of storytelling through mixed genres: verse, prose, and painting. Brady's work is designed to draw out key dimensions of the poetics of anthropology and history embedded in creative writing in the mix and on the margins of verse and prose, painting and writing fiction, and fact to revisit the sometimes academically resistant idea that there is more than one way to say and therefore to see things. This is a poetic exploration of themes encountered in the academy's attempts to explicate reality, including travel through various cultures, times, and circumstances. The goal of this unique book is both analytic and aesthetic. It is also humanistic, a commentary on the human condition of being and not being in a cross-cultural world. It will be of immediate interest to poets and writers who wish to explore anthropological poetics to ethnographers and teachers of ethnographic method and to instructors and students in creative and experimental writing.

Medical Marijuana Sam Jmaes, Clinical cannabis is one of the most developed and flexible plants in the whole Plant Kingdom. Pot has a male plant and a female plant extremely uncommon in organic science. Most plants have both genders in a similar plant. Since there are two genders clinical marijuana can be reproduced the posterity assuming the scorch acteristics of both mom and dad. In over 5 000 years of human clinical use this reproducing has prompted a practically uncountable more than 30 000 at any rate varieties in the clinical marijuana plant. Todd's objective was and is to distinguish which strains varieties best treat which sicknesses. This is the magazine Henry edited and yet the federal government refuses to acknowledge him as a writer. The image on the cover is the shadow of a medical marijuana with a near solar eclipse behind. For instance some clinical cannabis is known for profound real unwinding. These strains are useful for individuals with muscle fits incessant substantial pressure and agony. Other clinical cannabis be that as it may produces the simply mental reactions of sharpness lucidity and inventiveness. These strains may be best for sickness sadness and agony. Truly help with discomfort shows up on the two records as help with discomfort is one of the numerous health advantages of marijuana that show up in pretty much every strain aside from certain hemp strains in which all restorative worth has been reproduced out. Clinical pot has the novel capacity to sift through torment either passionate or physical however permit delight and the feeling of touch to come through. This was deductively affirmed in October 1997 by a report from the Society for Neu roscience. If you don't mind see the Medical Marijuana Magazine Online www.marijuanamagazine.com for additional subtleties on this report and other clinical employments of pot. Todd had altered a magazine called HempLife in Holland. He had would have liked to begin a United States version yet I convinced him to compose a book first. **Dr. Indoors and the Budimals** Bram

Paradoxes of Green Gareth Doherty,2017-02-07 This highly innovative book is a multidisciplinary study of green and its significance from multiple perspectives aesthetic architectural environmental political and social It is centered on the Kingdom of Bahrain the smallest and greenest of the Arab states in the Persian Gulf where green has a long and deep history appearing cooling productive and prosperous and a radical contrast to the hot hostile desert As is the case with cities around the world green is often celebrated as a counter to gray urban environments yet green has not always been good for cities To have the color green manifested in arid environments is often in direct conflict with green from an environmental point of view this paradox is at the heart of the book Given the resources required to maintain green in arid areas including cities the provision of green often bears significant environmental costs In arid environments such as Bahrain this contradiction becomes extreme and even unsustainable Based on long term ethnographic fieldwork Gareth Doherty explores the landscapes of Bahrain where green represents a plethora of implicit human values and lives in dialectical tension with other culturally and environmentally significant colors and hues The book s six chapters focus on Blue Red Date palm Green Grass Green Beige and White Implicit in his book is the argument that concepts of color and object are mutually defining and thus a discussion about green becomes a discussion about the creation of space and place
