sheets and activities      **Cultural Constructions of Identity** Luis Urrieta Jr., George W. Noblit, 2018-03-09 Education research has seen a phenomenal growth in studies that explore the multiple fluid and changing complexities of culture and identity work. The nuanced, contradictory, and process-oriented nature of identity and identification has meant that the studies in education are largely and appropriately qualitative and ethnographic. However, because qualitative studies are marked by their focus on the particular, it has been difficult to discern exactly what these studies contribute to identity theory collectively. In *Cultural Constructions of Identity*, a set of meta-ethnographic syntheses of qualitative studies addressing identity become the vehicle to speak across single studies to address cultural identity theory. Meta-Ethnography, first developed by Noblit and Hare in 1988, incorporates a translation theory of interpretation so that the unique aspects of studies are preserved to the degree possible while also revealing the analogies between these studies. While the studies in this book examine the various intersections of race and ethnicity with respect to gender, age, class, and sexuality, *Cultural Constructions of Identity* turns its primary focus on what these studies reveal about identity and identification theory itself.      **Contesting the Middle Ages** John Aberth, 2018-10-03 *Contesting the Middle Ages* is a thorough exploration of recent arguments surrounding nine hotly debated topics: the decline and fall of Rome, the Viking invasions, the Crusades, the persecution of minorities, sexuality in the Middle Ages, women within medieval society, intellectual and environmental history, the Black Death, and lastly, the waning of the Middle Ages. The historiography of the Middle Ages, a term in itself controversial amongst medieval historians, has been continuously debated and rewritten for centuries. In each chapter, John Aberth sets out key historiographical debates in an engaging and informative way, encouraging students to consider the process of writing about history and prompting them to ask questions even of already thoroughly debated subjects such as why the Roman Empire fell or what significance the Black Death had both in the late Middle Ages and beyond. Sparking discussion and inspiring examination of the past and its ongoing significance in modern life, *Contesting the Middle Ages* is essential reading for students of medieval history and historiography.      *Native Americans of New England* Christoph Strobel, 2020-03-26 This book provides the first comprehensive region-wide, long-term, and accessible study of Native Americans in New England. This work is a comprehensive and region-wide synthesis of the history of the indigenous peoples of the northeastern corner of what is now the United States: New England, which includes the states of Massachusetts, Connecticut, Rhode Island, Maine, New Hampshire, and Vermont. *Native Americans of New England* takes a view of the history of indigenous peoples of the region, reconstructing this past from the earliest available archeological evidence to the present. It examines how historic processes shaped and reshaped the lives of Native peoples and uses case studies, historic sketches, and biographies to tell these stories. While this volume is aware of the impact that colonization, ethnic cleansing, dispossession, and racism had on the lives of indigenous peoples in New England, it also focuses on Native American resistance, adaptation, and survival under often harsh and unfavorable circumstances. *Native Americans of New England* is structured into six chapters that examine the continuous

presence of indigenous peoples in the region The book emphasizes Native Americans efforts to preserve the integrity and viability of their dynamic and self directed societies and cultures in New England Georgia Test Prep, Grade 4

Harcourt,2008-09-15

From random security checks at airports to the use of risk assessment in sentencing actuarial methods are being used more than ever to determine whom law enforcement officials target and punish And with the exception of racial profiling on our highways and streets most people favor these methods because they believe they re a more cost effective way to fight crime In Against Prediction Bernard E Harcourt challenges this growing reliance on actuarial methods These prediction tools he demonstrates may in fact increase the overall amount of crime in society depending on the relative responsiveness of the profiled populations to heightened security They may also aggravate the difficulties that minorities already have obtaining work education and a better quality of life thus perpetuating the pattern of criminal behavior Ultimately Harcourt shows how the perceived success of actuarial methods has begun to distort our very conception of just punishment and to obscure alternate visions of social order In place of the actuarial he proposes instead a turn to randomization in punishment and policing The presumption Harcourt concludes should be against prediction All My Relations: Understanding the Experiences of Native Americans with Disabilities

Hilary Weaver,Francis K. Yuen,2018-04-19 Native Americans suffer disproportionately from many social and health disparities High rates of poverty exposure to environmental toxins and various forms of violence all increase the risk of health problems including disabilities yet there is very little published scholarship concerning Native American experiences with disabilities In collecting contributions on various aspects of disability in Native American populations in one volume this book seeks to redress this lack of attention Writing about regions of the United States Canada and Australia and spanning a diverse range of settings from remote rural areas to reservations to college campuses the authors are attentive to the impact of specific environments on their inhabitants Taking into account both physical and social environment and recognizing the importance of cultural context this book is a good starting point for anyone interested in developing a better understanding

of the experience of Native peoples living with disabilities This book was originally published as a special issue of the Journal of Social Work in Disability Rehabilitation
