They examine the rapidly growing body of scientific evidence supporting the continuity of consciousness including near death experiences after death communication reincarnation and neurosensory information received in altered states They explain how the persistence of consciousness beyond the demise of the body means that in essence we are not mortal we continue to exist even when our physical existence has come to an end This correlates precisely with cutting edge physics which posits that things in our plane of time and space are not intrinsically real but are manifestations of a hidden dimension where they exist in the form of superstrings information fields and energy matrices With proof that consciousness is basic to the cosmos and immortal in its deeper nonmanifest realm Laszlo and Peake reveal the purpose of consciousness is to manifest in living beings in order to continuously evolve      *Paperbound Books in Print* ,1992      *Paperbound Books in Print* 1995 Reed Reference Publishing,R5ference Reed,1995-12      **Bowker's Complete Video Directory 1996** R R Bowker Publishing,1996      **The Amazing World of Kreskin** Kreskin,1973      **Not Necessarily the New Age** Robert Basil,1988-10 No Marketing Blurb
