School of Law, 1996 The American legal system today is the most significant in the world yet until the publication of *Fundamentals of American Law* there has been no book that provides both the basic rules on the theoretical understanding necessary to comprehend This book is not simply the work of a single author but a collection of especially written essays each by an expert in the field all of whom are on the faculty of New York University School of Law which is recognized as one of the elite law schools in America

and which offers this book as an element of its unique Global Law School Programme The book is written specifically for foreign lawyers and law students who have a need to deal with American Law generally but are not seeking to become specialists in any one area For them it is vital to understand the basic principles of a wide range of American legal fields so they can act as informed intermediaries between their public or private clients and their American counterparts The book not only provides the reader with a solid foundation in American law but will also serve as a basic reference book for the fundamentals even as some of the details change over the years Although initially conceived to fill a void for foreign lawyers the book is also ideally suited for others who have a significant need to understand the basic principles of American Law and to interact with American lawyers For this reason it will be an ideal course text for students of business accountancy political science or public administration where the enquiring student will constantly find intersections with the law The book is more than a compendium of legal principles Each chapter explains not only what the law is but why it is that way It sets forth the policy considerations in institutional factors that produce a particular law so the reader can make an independent judgement about its wisdom and perhaps its adaptability to other cultures *The Fourth Amendment at a Rock Concert* Jerome O. Corporations Are People Too Kent Greenfield, 2018-01-01 Why we're better off treating corporations as people under the law and making them behave like citizens Are corporations people The U S Supreme Court launched a heated debate when it ruled in *Citizens United* that corporations can claim the same free speech rights as humans Should they be able to claim rights of free speech religious conscience and due process Kent Greenfield provides an answer Sometimes With an analysis sure to challenge the assumptions of both progressives and conservatives Greenfield explores corporations' claims to constitutional rights and the foundational conflicts about their obligations in society and concludes that a blanket opposition to corporate personhood is misguided since it is consistent with both the purpose of corporations and the Constitution itself that corporations can claim rights at least some of the time The problem with *Citizens United* is not that corporations have a right to speak but for whom they speak The solution is not to end corporate personhood but to require corporations to act more like citizens Intelligence and the Law, 1985 Advanced Introduction to US Civil Liberties Susan N. Herman, 2023-01-20 This insightful *Advanced Introduction* provides a kaleidoscopic overview of key US civil liberties including freedom of speech press assembly and religion limitations on search and seizure due process in criminal proceedings autonomy rights rights of equality and democratic participation Naval Law Review, 2009 *Crime File Study Guide*, **Data Protection in EU and US Criminal Cooperation** Els de Busser, 2009 The research in this doctoral thesis examines the protection of personal data in two relationships between judicial and law enforcement authorities of the

EU Member States including Europol and Eurojust on the one hand and the US on the other hand The book provides answers to the central question as to whether the EU complies with her own standards of data protection in these internal relations as well as in the transatlantic cooperation in criminal matters The new framework decision on data protection in criminal matters that entered into force in early 2009 is a significant element in this study alongside the agreement concluded between the EU and the US on the mutual assistance in criminal matters of which the entry into force is equally planned for 2009 The book also reflects on the policy proposals of the EU on justice and home affairs for the period of 2010 2014
