Sanctions and the Search for Security David Cortright, George A. Lopez, Linda Gerber, International Peace Academy, 2002 Cortright and Lopez both of the Kroc Institute for International Peace Studies U of Notre Dame follow up on their earlier work *The Sanctions Decade* by examining some of the UN changes in sanctions design since 1999 and suggesting that still further changes need to be carried out Noting that it has now become evident that the full scale strangulation of a national economy fails to produce political compliance Recent sanctions against the Taliban in Afghanistan and the Taylor government in Liberia are seen as a laudable refinement but a move from seeing sanctions as solely a punishment towards seeing them as also a form of persuasion is recommended Annotation copyrighted by Book News Inc Portland OR **Transnational Crime and Global Security** Philip L. America's Search for Security Sean Kay, 2014-07-22 This book details the ways in which America's ascendancy to global superpower status was the result of its dueling foreign policy philosophies and forces an historically expansive idealism balanced with an equally constant realist restraint In America's Search for Security Sean Kay surveys major historical trends in American foreign policy and provides a new context for thinking about America's rise to power from the founding period through the end of the Cold War It details the post Cold War rise of idealist foreign policy goals and the costs of abandoning realist roots analyzing in depth the wars in Iraq and Afghanistan as examples of what disappointing if not disastrous outcomes can befall America abroad when foreign policy objectives are muddled unclear and fail to remain grounded in what historically has made America an unquestionable world power This book also focuses on America's recent pivot to Asia and efforts to restore a realist balance abroad and at home in the second Obama administration concluding with a look at what the future of American power will look like in a rapidly evolving world in need of newer more modernized and adaptable forms of leadership Tracing the tension between idealism and realism Kay provides a detailed explanation of the rise of a post Cold War idealist consensus in Washington D C and shows how that culminated in a return to realism in both the 2013 debates over intervention in Syria and the 2014 crisis with Russia

Euro-Mediterranean Security: A Search for Partnership Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU's approach towards security in the Mediterranean After examining the EU's interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and cooperative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy

This book covers Suspect Searching issues for law enforcement officer The goal for officers to understand and be able to perform proper techniques of searching a subject and escorting him to a designated area A search is a careful systematic examination of the suspect's person at the scene of a crime or immediately after apprehension Body searching is a vague subject It is very difficult to perform in a proper and effective way In body searching there is close contact between the officer and suspect Being in such close contact sometimes creates a critical situation Everyone placed under arrest must be

searched There should be no exceptions to this rule Failure to conduct a proper search could cost an officer s or civilians life Generally there is no legal distinction between searching and handcuffing a man or a woman Gender should not be an inhibiting factor in the application of proper techniques However these techniques should be tempered with the individual officer s good judgment Police officers should not confuse the object of the search with the application of the search technique A cooperative suspect should not lull the police officer into a false sense of security The suspect s attitude is no guarantee that they will not attempt to escape when such an opportunity presents itself Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement **International**
