**Seascapes: Shaped by the Sea** Mike Brown, Barbara Humberstone, 2016-04-01 Despite the fact that the sea covers 70 per cent of the Earth's surface and is integral to the workings of the world it has been largely neglected or perceived as marginal in modern consciousness This edited collection disrupts notions of the sea as other as foreign and featureless through specific situated accounts which highlight the centrality of the sea for the individuals concerned Bringing together academics who combine scholarly expertise with lived experiences on in and with the sea it examines humans relationships with the sea Through the use of auto ethnographic accounting the contributors reflect on how the sea has shaped their sense of identity belonging and connection They examine what it is to be engaged with the sea and narrate their lived sentient corporeal experiences The sea is a cultural seascape just as it is physical reality The sea shapes us and we in turn attempt to shape it as we construct various versions of it that reflect our on going and mutable relationship with it The use of embodied accounts as a way of conveying lived experiences and the integration of relevant

theoretical frames for understanding the broader cultural implications provide new opportunities to understand seascapes

**Waves of Knowing** Karin Amimoto Ingersoll, 2016-10-13 In *Waves of Knowing* Karin Amimoto Ingersoll marks a critical turn away from land based geographies to center the ocean as place Developing the concept of seascape epistemology she articulates an indigenous Hawaiian way of knowing founded on a sensorial intellectual and embodied literacy of the ocean As the source from which K naka Maoli Native Hawaiians draw their essence and identity the sea is foundational to Kanaka epistemology and ontology Analyzing oral histories chants artwork poetry and her experience as a surfer Ingersoll shows how this connection to the sea has been crucial to resisting two centuries of colonialism militarism and tourism In today s neocolonial context where continued occupation and surf tourism marginalize indigenous Hawaiians seascape epistemology as expressed by traditional cultural practices such as surfing fishing and navigating provides the tools for generating an alternative indigenous politics and ethics In relocating Hawaiian identity back to the waves currents winds and clouds Ingersoll presents a theoretical alternative to land centric viewpoints that still dominate studies of place making and indigenous epistemology

*Scylla* Marianne Govers Hopman, 2013-01-03 What s in a name Using the example of a famous monster from Greek myth this book challenges the dominant view that a mythical symbol denotes a single clear cut figure and proposes instead to define the name Scylla as a combination of three concepts sea dog and woman whose articulation changes over time While archaic and classical Greek versions usually emphasize the metaphorical coherence of Scylla s components the name is increasingly treated as a well defined but also paradoxical construct from the late fourth century BCE onward Proceeding through detailed analyses of Greek and Roman texts and images Professor Hopman shows how the same name can variously express anxieties about the sea dogs aggressive women and shy maidens thus offering an empirical response to the semiotic puzzle raised by non referential proper names

**Seascape Stories** Lucas Powell,AI,2025-02-26 Seascape Stories explores humanity s long standing fascination with the ocean examining its pervasive role in mythology literature and art By delving into the cultural history of seascapes the book reveals how the sea has served as both a source of creation and a force of destruction shaping narratives from ancient times to the present day For instance maritime literature often reflects a nation s identity and colonial ambitions while environmental awareness has led to evolving depictions of the ocean in contemporary works The book progresses by first examining founding myths and creation narratives then analyzing maritime literature from the age of exploration and finally investigating portrayals of seascapes in response to growing environmental concerns This approach offers a critical lens for understanding shifting cultural values and anxieties Through an interdisciplinary approach Seascape Stories synthesizes literary criticism historical analysis and environmental perspectives to offer a multifaceted understanding of the sea s enduring influence particularly within the Western literary tradition
