Season Of High Adventure:

Season of High Adventure S. Bernard Thomas, 2024-06-07 In 1928 Edgar Snow 1905 1972 set out to see the world hoping to make his mark as a travel adventure writer Shanghai was to be a mere stopover but Snow stayed on in China for thirteen more years The idealistic young Midwesterner became a journalist and ultimately developed close friendships with China's emerging revolutionary leaders His 1938 classic *Red Star over China* strongly influenced American views of the Chinese Communists and is still in print nearly sixty years later This biography breaks fresh ground with its unique and extensive use of Snow's diaries of over forty years These writings convey Snow's private hopes and fears his moods and motivations Thomas skillfully links them with Snow's public writings and deeds By recreating the milieu in which Snow worked in China Thomas provides a clearer understanding of both the man and his times Snow came to China devoid of any political agenda or sinological background He returned home a politically astute China hand and famed journalist author His writing had taken on the nature of political action which resulted in troubled soul searching that Snow usually confined to his diary Thomas's portrait of Ed Snow reveals a man caught up in an important historical moment a man who profoundly influenced and was influenced by the events that swirled around him This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997 *Three Revolutions* Simon Hall, 2025-07-01 A salve for our current reactionary times ANDREW HARTMAN The gripping untold story of how six epic journeys launched the three communist revolutions that changed world history forever From the streets of Petrograd during the heady autumn of 1917 to Mao's stunning victory in October 1949 and Fidel's triumphant arrival in Havana in January 1959 the history of the twentieth century was transformed in dramatic and profound ways by the Russian Chinese and Cuban revolutions In *Three Revolutions* the stories of these epoch defining events are told together for the first time At the heart of each revolution was an epic journey Lenin's 1917 return to Russia from exile in Switzerland Mao's Long March of 1934-35 covering some 6 000 miles across China and Fidel Castro's return to Cuba in 1956 following his exile in Mexico Told in tandem with these are the corresponding journeys of three extraordinary journalists John Reed Edgar Snow and Herbert L Matthews whose electric testimony from the frontlines of each revolution would make a decisive contribution to how these revolutions were understood in the wider world Here in Simon Hall's masterful retelling these six remarkable journeys are brought vividly to life Featuring a stellar cast extraordinary drama and an epic sweep *Three Revolutions* raises fundamental questions about the nature of political power the limits of idealism and the role of the journalist questions that remain of utmost urgency today **The Adventure travel guide for Angola**, 2025-09-25 **Maoism** Julia Lovell, 2019-09-03 WINNER OF THE 2019 CUNDILL HISTORY PRIZE SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE

Revelatory and instructive a beautifully written and accessible book The Times For decades the West has dismissed Maoism as an outdated historical and political phenomenon Since the 1980s China seems to have abandoned the utopian turmoil of Mao's revolution in favour of authoritarian capitalism But Mao and his ideas remain central to the People's Republic and the legitimacy of its Communist government With disagreements and conflicts between China and the West on the rise the need to understand the political legacy of Mao is urgent and growing The power and appeal of Maoism have extended far beyond China Maoism was a crucial motor of the Cold War it shaped the course of the Vietnam War and the international youth rebellions that conflict triggered and brought to power the murderous Khmer Rouge in Cambodia it aided and sometimes handed victory to anti colonial resistance movements in Africa it inspired terrorism in Germany and Italy and wars and insurgencies in Peru India and Nepal some of which are still with us today more than forty years after the death of Mao In this new history Julia Lovell re evaluates Maoism as both a Chinese and an international force linking its evolution in China with its global legacy It is a story that takes us from the tea plantations of north India to the sierras of the Andes from Paris's fifth arrondissement to the fields of Tanzania from the rice paddies of Cambodia to the terraces of Brixton Starting with the birth of Mao's revolution in northwest China in the 1930s and concluding with its violent afterlives in South Asia and resurgence in the People's Republic today this is a landmark history of global Maoism

Going to the Countryside Yu Zhang, 2020-03-03 Since the beginning of the twentieth century modern Chinese intellectuals reformers revolutionaries leftist journalists and idealistic youth had often crossed the increasing gap between the city and the countryside which made the act of going to the countryside a distinctively modern experience and a continuous practice in China Such a spatial crossing eventually culminated in the socialist state program of down to the villages movements during the 1960s and 1970s What then was the special significance of going to the countryside before that era Going to the Countryside deals with the cultural representations and practices of this practice between 1915 and 1965 focusing on individual homecoming rural reconstruction revolutionary journeys to Yan'an the revolutionary going down to the people as well as going to the frontiers and rural hometowns for socialist construction As part of the larger discourses of enlightenment revolution and socialist industrialization going to the countryside entailed new ways of looking at the world and ordinary people brought about new experiences of space and time initiated new means of human communication and interaction generated new forms of cultural production revealed a fundamental epistemic shift in modern China and ultimately created a new aesthetic social and political landscape As a critical response to the urban turn in the past few decades this book brings the rural back to the central concern of Chinese cultural studies and aims to bridge the city and the countryside as two types of important geographical entities which have often remained as disparate scholarly subjects of inquiry in the current state of China

studies Chinese modernity has been characterized by a dual process that created problems from the vast gap between the city and the countryside but simultaneously initiated constant efforts to cope with the gap personally collectively and institutionally The process of crossing two distinct geographical spaces was often presented as continuous explorations of various ways of establishing the connectivity interaction and relationship of these two imagined geographical entities Going to the Countryside argues that this new body of cultural productions did not merely turn the rural into a constantly changing representational space most importantly the rural has been constructed as a distinct modern experiential and aesthetic realm characterized by revolutionary changes in human conceptions and sentiments Reports and Documents United States. ISIS in the Trump era Special chapters also examine how propagandists shaped American perceptions of two revolutions of international significance the Russian Revolution and the Chinese Revolution Each chapter analyzes its subject through the lens of the messengers messages and communications technology media to reveal the effects on public opinion and the trajectory and conduct of the conflict The chapters collectively provide an overview of the history of American strategic communications on wars and revolutions that will interest scholars students and communications strategists **Scouting**

Levine,2013-10-29 Originally published in a different version in 2007 in Russian by Molodaia Gvardiia as Mao Tzedun Title page verso *How the "Red Star"* Rose Ishikawa Yoshihiro,2022-01-30 The fact that Snow did not sneak into red China to gather information constituting the basis of his Red Start over China all alone is in many instances misunderstood even by scholars Mao Zedong s biography has been the subject of an international mountain of commentary in China and elsewhere Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow s 1905 1972 account in Red Star over China for the route Mao traveled from early childhood through his youth How the Red Star Rose introduces the image of Mao and the biographical information made known to the world through the publication of Red Star and with its publication the circumstances which they fundamentally undermined Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being He desires to help readers to reconsider the historicity of the generation of not only Mao s

image but of that of historical materials With a title that evokes Gao Hua s seminal study of Mao Zedong s rise in the Chinese Communist Party Ishikawa Yoshihiro asks two critical questions What did the world know of Mao before the publication of Edgar Snow s Red Star over China How did Red Star change that understanding With the meticulous research careful documentation and fair minded judgment that characterizes all of Ishikawa s work he shows how little even Moscow and the Communist International knew about Mao before 1936 This study is full of unexpected insights into the origins of early visual images of Mao the background to Snow s historic trip to northern Shaanxi and the evolution of the classic study that he left In a world where balanced judgment of the rise of Mao is increasingly difficult to find Ishikawa s scholarship stands out as a rare model of judicious balance Joseph W Esherick Emeritus Professor Hwei chih and Julia Hsiu Chair in Chinese Studies University of California San Diego This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area It is in addition a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter Ishikawa captures a moment of a past gearing up in anticipation of a future that never came This book is a must read for all with an interest in Mao journalism and the history of books Wen hsin Yeh Richard H and Laurie C Morrison Chair Professor in History University of California Berkeley Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow s famous biography in 1936 and then how Snow s images of Mao were translated and transmuted into Chinese Russian and Japanese Joshua Fogel s careful translation brings this impeccable example of Japanese sinology to the English reading public Timothy Cheek Professor and Louis Cha Chair in Chinese Research University of British Columbia

Accidental Holy Land Joseph W. Esherick,2022-02-22 Yan an is China s revolutionary holy land the heart of Mao Zedong s Communist movement from 1937 to 1947 Based on thirty years of archival and documentary research and numerous field trips to the region Joseph W Esherick s book examines the origins of the Communist revolution in Northwest China from the political social and demographic changes of the Qing dynasty 1644 1911 to the intellectual ferment of the early Republic the guerrilla movement of the 1930s and the replacement of the local revolutionary leadership after Mao and the Center arrived in 1935 In Accidental Holy Land Esherick compels us to consider the Chinese Revolution not as some inevitable peasant response to poverty and oppression but as the contingent product of local national and international events in a constantly changing milieu
