### **Seasoned Psychotherapist Triumph Over Adversity:**

*The Seasoned Psychotherapist* Carl Goldberg, 1992 What do experienced psychotherapists have to say about how the developmental issues of mid life and beyond have affected their lives and practices What advice can they give to younger therapists about the perils of psychotherapy In this the first study of how the developmental issues of mid life and beyond affect the lives and practices of psychotherapists 64 highly experienced practitioners address these questions and many more Speaking candidly of their own satisfactions as well as their disillusionments they reveal the challenges of practicing psychotherapy in a fast paced increasingly complex world Dr Goldberg draws upon his own three decades of experience as a psychotherapist and new theories of adult development to distill the wisdom of these therapists reports In analyzing the results from questionnaires completed by over fifty senior therapists and interviews with twelve master practitioners he identifies the salient themes for psychotherapists in mid life and beyond From this empirical base he develops an existential dialectical theory of human development Most of the seasoned psychotherapists interviewed by Dr Goldberg felt that they had triumphed over adversity at some point in their lives Having come through the dark wood to the top of the mountain they offer essential guidance to other therapists on how to keep one's practice vital and to deal with the various perils of psychotherapy
