Freese, 1997-01-01 Since 1901 over 5 600 pitchers have toed the rubber in baseball s major leagues Of them only 369 have won 20 or more games in a single season Only 168 of those to win 20 games have been able to repeat the feat further illustrating how difficult it is to reach that plateau Season by season this reference work documents major league 20 game winners from 1901 through the 1996 season including the Federal League 1914 1915 A brief synopsis of each pitcher s season is provided along with his complete pitching statistics Some of the pitchers who won 20 games were all time greats but interestingly many were journeymen who had one great season The work also shows the changes in the game from the deadball era when pitching dominated to the present when the lively ball has made the 20 game winner even rarer than before **The Giant Encyclopedia of Circle Time and Group Activities for Children 3 to 6** Kathy Charner, 1996 Contains more than six hundred circle time and group activities designed by teachers to use with children three to six years old each including a suggested age a list of materials and step by step directions and features lists of related books songs and poems *The McEvoy Magazine for School and Home* Thomas Jefferson McEvoy, 1911

Peterson,2007-10-19 Four hundred twenty five books are reviewed in this superb collection A Second Look Native Americans  
in Childrens Books gives a thorough examination of the books as a guide for parents teachers librarians and administrators  
interested in books for children Anyone involved in selecting books will find this guide useful in working through the maze of  
available materials Andie Peterson one of the few women to be awarded an Eagle Feather has provided a meaningful criteria  
to help in judging books She outlines ways for objectively studying books to draw conclusions as to the suitability for the  
reader She writes candidly about books filled with stereotypes hurtful images and damaging text and illustrations She writes  
eloquent glowing reviews of the books that are real treasures She writes On a daily basis children must face the hidden  
curriculum that lets them know where they fit in whether they can achieve their goals whether they even dare to dream An  
overwhelming part of that hidden curriculum begins with books that are more narrative and illustrations they are books that  
carry a message of politics and values Andie advises that in selecting Native American books the non Native child must be  
considered also She counsels that hurtful books set in motion attitudes of prejudice that persist for years She states that she  
has reviewed books with older copyrights because they are still on the shelves in libraries and available via the Internet She  
says reading the older books helps to understand how adults have formed ideas about Native people She says After all if its in  
a book in the library people believe it to be true Its time to disturb the peace and end the ritual of damage A Second Look
