Sen Lemass Life And Times Series:

Preventing the Future Tom Garvin, 2004-08-24 Between the years of the mid thirties through to 1960 independent Ireland suffered from economic stagnation and also went through a period of intense cultural and psychological repression While external circumstances account for much of the stagnation especially the depression of the thirties and the Second World War Preventing the Future argues that the situation was aggravated by internal circumstances The key domestic factor was the failure to extend higher and technical education and training to larger sections of the population This derived from political stalemates in a small country which derived in turn from the power of the Catholic Church the strength of the small farm community the ideological wish to preserve an older society and later gerontocratic tendencies in the political elites and in society as a whole While economic growth did accelerate after 1960 the political stand off over mass education resulted in large numbers of young people being denied preparation for life in the modern world and arguably denied Ireland a sufficient supply of trained labour and educated citizens Ireland's Celtic Tiger of the nineties was in great part driven by a new and highly educated and technically trained workforce The political stalemates of the forties and fifties delayed the initial incomplete take off until the sixties and resulted in the Tiger arriving nearly a generation later than it might have

Jack Lynch, A Biography Dermot Keogh, 2009-09-04 Jack Lynch is one of the most important and perhaps most underrated Irish political leaders of the twentieth century A sportsman who won six All Ireland medals in a row with Cork he was also a civil servant and a barrister before being elected to Dail Eireann in 1948 During his thirty one years as a parliamentarian he held the ministries of Education Industry and Commerce and Finance before succeeding Seán Lemass as Taoiseach in 1966 Lynch held office during the critical years of the late 1960s and early 1970s when Northern Ireland disintegrated and civil unrest swept through Belfast Derry and other towns This precipitated one of the worst crises in the history of the Irish state Jack Lynch upheld the parliamentary democratic tradition at great personal and political cost even to the point of fracturing the unity of his government and his party If you want to know what happened during those terrible years read this book

A Farewell to Arms? Michael Cox, Adrian Guelke, Fiona Stephen, 2006-04-18 This comprehensive and original study is the first to explain in detail how the Good Friday Agreement ran into trouble why we are still some way from a final settlement but why a return to war is most unlikely even in an age where global terror now threatens world order more seriously than at any time in the past This new edition of an established authoritative text will be essential reading for students researchers and academics of Irish politics conflict and peace studies and international relations

Big Fellow, Long Fellow. A Joint Biography of Collins and De Valera T. Ryle Dwyer, 2006-09-12 Michael Collins and Eamon de Valera were the two most charismatic leaders of the Irish revolution This joint biography looks first at their very different upbringings and early careers Both fought in the 1916 Easter Rising although it is almost certain they did not meet during that tumultuous week Their first encounter came when Collins had been released from jail after the rising but de Valera was

still inside Collins was one of those who wanted to run a Sinn Féin candidate in the Longford by-election of 1917 De Valera and other leaders opposed this initiative but the Collins group went ahead anyway and the candidate won narrowly The incident typified the relationship between the two men they were vastly different in temperament and style But it was precisely in their differences and contradictions that their fascination lay De Valera the political pragmatist hoped to secure independence through political agitation whereas the ambitious Collins with his restless temperament and boundless energy was an impassioned patriot who believed in terror and assassination T Ryle Dwyer examines the years 1917-22 through the twists and turns of their careers In an epilogue he considers the legacy of Collins on de Valera's political life The Field Day Anthology of Irish Writing Seamus Deane, Andrew Carpenter, Angela Bourke, Jonathan Williams, 1991 *Fortnight*, 2006

Irish Nation Building Emmet Oliver, 2025-03-14 This book examines the early decades of economic nation building in Ireland It draws on a large amount of previously unstudied archival material to construct a novel contribution to Irish business and economic history that focuses on government relations business power and wider dynamics of power in a decolonising context The book adopts a different approach to the early decades of Irish independence decentering the typical focus on party political developments Church state relations and Anglo Irish relations Instead the book explores the role of Irish businesses and services and their engagement with the governing elites of the time More than just offering a general survey of Irish businesses in the early years of independence the chapters of this book illuminate and analyse the commanding heights of the economy the Marxist term for the core distribution channels of capital and labour In particular the book focuses on four key strategic sectors banking insurance shipping and rail to analyse the tensions between the new Irish nationalist political elite and embedded business interests from the pre independence era how these led to the transformation of the Irish economic model by the late 1950s and its gradual integration into a newly globalising world economy This book will be essential reading for students and researchers of economic and business history and Irish history and independence broadly

Moving Histories Jennifer Redmond, 2018-11-30 Moving Histories explores the story of Irish female emigrants in Britain from their working lives to their personal relationships Using a wide range of sources including some previously unavailable this book offers a new appraisal of an important but often forgotten group of Irish migrants

Ireland's 1916 Rising Mark McCarthy, 2016-05-06 In light of its upcoming centenary in 2016 the time seems ripe to ask why how and in what ways has memory of Ireland's 1916 Rising persisted over the decades In pursuing answers to these questions which are not only of historical concern but of contemporary political and cultural importance this book breaks new ground by offering a wide ranging exploration of the making and remembrance of the story of 1916 in modern times It

draws together the interlocking dimensions of history making commemoration and heritage to reveal the Rising's undeniable influence upon modern Ireland's evolution both instantaneous and long term In addition to furnishing a history of the tumultuous events of Easter 1916 which rattled the British Empire's foundations and enthused independence movements elsewhere Ireland's 1916 Rising mainly concentrates on illuminating the evolving relationship between the Irish past and present In doing so it unearths the far reaching political impacts and deep seated cultural legacies of the actions taken by the rebels as evidenced by the most pivotal episodes in the Rising's commemoration and the myriad varieties of heritage associated with its memory This volume also presents a wider perspective on the ways in which conceptualisations of heritage culture and identity in Westernised societies are shaped by continuities and changes in politics society and economy In a topical conclusion the book examines the legacy of Queen Elizabeth II's visit to the Garden of Remembrance in 2011 and looks to the Rising's 100th anniversary by identifying the common ground that can be found in pluralist and reconciliatory approaches to remembrance

Twentieth-Century Ireland (New Gill History of Ireland 6) Dermot Keogh, 2005-09-27 Professor Dermot Keogh's Twentieth Century Ireland the sixth and final book in the New Gill History of Ireland series is a wide ranging informative and hugely engaging study of the long twentieth century surveying politics administrative history social and religious history culture and censorship politics literature and art It focuses on the consolidation of the new Irish state over the course of the twentieth century Professor Keogh highlights the long tragedy of emigration its effect on the Irish psyche and on the under performance of the Irish economy He emphasises the lost opportunities for reform of the 1960s and early 70s Membership of the EU had a diminished impact due to short term and sectionally motivated political thinking and an antiquated government structure Professor Keogh looks at how the despair of the 1950s revisited the country in the 1980s as almost an entire generation felt compelled to emigrate very often as undocumented workers in the United States Professor Keogh also argues that the violence in Northern Ireland from the late 1960s was an Anglo Irish failure which was turned around only when Britain acknowledged the role of the Irish government in its resolution He extends his analysis of the twentieth century to include a wide ranging survey of the most contentious events financial corruption child sexual abuse scandals in the Catholic Church between 1994 and 2005

The Cambridge Social History of Modern Ireland Eugenio F. Biagini, Mary E. Daly, 2017-04-27 Covering three centuries of unprecedented demographic and economic changes, this textbook is an authoritative and comprehensive view of the shaping of Irish society at home and abroad from the famine of 1740 to the present day. The first major work on the history of modern Ireland to adopt a social history perspective, it focuses on the experiences and agency of Irish men, women and children, Catholics and Protestants and in the North, South and the diaspora. An international team of leading scholars survey key changes in population, the economy, occupations, property ownership, class and migration and also consider the interaction of the individual and the state through welfare, education, crime and policing.
