My First Bicycle Was A Jc Higgins:

My First Bicycle Was a J. C. Higgins Bill Ray, 2003-11 A comedy about a 9 year old boy who is disappointed and concerned about his social status in his grammar school and community because he receives a J C Higgins bicycle instead of a Schwinn To make his point he compares his J C Higgins to America's laughable version of an automobile The Edsel He talks about kids so desperate to not be associated with either the Edsel or the Higgins that they invented Edsel Escape Diving This was a precision move designed by kids so that when the parents slowed the family Edsel in order to pull into the school yard the kids would leap from the car while it was still in motion The purpose for that little maneuver was to put as much distance as possible between themselves and the joke that Detroit played on an unsuspecting public **His Eyes Were on the**

I Can Hold My Own Edward A. Nowatzki, 2013-03-27 I Can Hold My Own is a true story about what it was like growing up in New York City in the 1940s through the eyes a first generation American the son of Polish immigrants As one might expect the lifestyle and day to day activities of a youngster growing up in an urban environment were a lot different from those of a similarly aged youngster growing up on a farm in the Midwest Added to the demographic differences in Dr Nowatzki's case there were also differences from being a first generation American caught in transition between the culture of his parents native Poland and that of twentieth century America Dr Nowatzki describes his experiences in a way that illustrates these differences from many perspectives ranging from his attending a Catholic parochial school and playing sports on the playgrounds of New York to his awareness of historical events such as World War II The story comes from a period in American history when life was relatively simple and the culture was family oriented and deeply rooted in traditional American values based on loyalty to God and country Unlike today there were no distractions from television the Internet computer games and social networks so youngsters had to provide their own means for leisure time activities Some of those activities are described from Dr Nowatzki's perspective as a participant I Can Hold My Own will be of interest to anyone growing up in the United States at that time whether on a farm or in a large city like New York The story will also be of interest to any first generation American faced with a similar transition between two different cultures

The Journey C. Graham Tyner, 2018-11-29 It might be hard to believe but there was a time before TVs computers iPhones and iPads You may think that at worst this sounds unbelievable and that at best it seems boring so what did kids do to occupy their time In *The Journey* author Graham Tyner shares what it was like growing up in the forties and fifties and across nine thousand miles in America a time when the nation's spirits were high and when kids went outside to play As a tribute to his children and grandchildren Tyner offers a family history before providing a window into what a wonderful time it was to be a kid in our glorious country when he was growing up He also chronicles his adventures across America where he moved eleven times and traveled a combined nine thousand miles while attending ten different schools With so many gadgets and distractions it is all too easy to lose the importance of these simple but remarkable times Yet this period was a wonderful time to be a kid and even today its lessons can offer the next generation a model for the future
