## **New Dark Age:**

New Dark Age James Bridle, 2018-07-17 New Dark Age is among the most unsettling and illuminating books I've read about the Internet which is to say that it is among the most unsettling and illuminating books I've read about contemporary life New Yorker As the world around us increases in technological complexity our understanding of it diminishes Underlying this trend is a single idea the belief that our existence is understandable through computation and more data is enough to help us build a better world In reality we are lost in a sea of information increasingly divided by fundamentalism simplistic narratives conspiracy theories and post factual politics Meanwhile those in power use our lack of understanding to further their own interests Despite the apparent accessibility of information we're living in a new Dark Age From rogue financial systems to shopping algorithms from artificial intelligence to state secrecy we no longer understand how our world is governed or presented to us The media is filled with unverifiable speculation much of it generated by anonymous software while companies dominate their employees through surveillance and the threat of automation In his brilliant new work leading artist and writer James Bridle surveys the history of art technology and information systems and reveals the dark clouds that gather over our dreams of the digital sublime

**Science Fiction and the New Dark Age** Harold L. Berger, 1976 **Humanism: In Command or in Crisis?** Michael A. Schuler, 2023-08-31 According to bestselling historian Yuval Noah Harari today's average American has their foot in three ideological camps nationalism free market capitalism and humanism The first two might seem obvious but the third It's entirely possible that most who qualify for that label would be hard pressed to explain its meaning much less use it self descriptively This book is designed to serve two important purposes First to provide an accessible resource for anyone curious about the humanist tradition and the arguments advanced by leading contemporary proponents Second to address what the author believes is a critical question for our time the era of the Anthropocene Is humanism's seemingly benign package of values at least partially responsible for some of the world's most pressing problems To answer the last question Schuler draws from an eclectic collection of commentators including life scientists spiritual writers public intellectuals technologists novelists and even poets In the end this wide ranging survey will help the reader determine whether humanism makes sense for them

**My Father's World** John D. Wineland, Mark Ziese, James Riley Estep, 2011-04-11 My Father's World is a memorial volume celebrating the life of Dr Reuben G Bullard and it focuses on the archaeology and history of the Mediterranean world The essays in this volume are all written by former students of Dr Bullard and the diverse range of topics highlights his broad interests in geology archaeology and biblical studies Bullard was a long time Professor of Geology and Archaeology at Cincinnati Christian University He pioneered the field of Archaeological Geology in the 1960s at Tell Gezer **Black History** Jason Drysdale, 2022-05-11 A positive and inspirational book on black history it dives deep into the inspirational knowledge of black history and it is a must read for those who care about the culture and its significant contributions to society **Chromatic Algorithms** Carolyn L.

Kane,2014-08-13 These days we take for granted that our computer screens and even our phones will show us images in vibrant full color Digital color is a fundamental part of how we use our devices but we never give a thought to how it is produced or how it came about Chromatic Algorithms reveals the fascinating history behind digital color tracing it from the work of a few brilliant computer scientists and experimentally minded artists in the late 1960s and early 70s through to its appearance in commercial software in the early 1990s Mixing philosophy of technology aesthetics and media analysis Carolyn Kane shows how revolutionary the earliest computer generated colors were built with the massive postwar number crunching machines these first examples of computer art were so fantastic that artists and computer scientists regarded them as psychedelic even revolutionary harbingers of a better future for humans and machines But Kane shows the explosive growth of personal computing and its accompanying need for off the shelf software led to standardization and the gradual closing of the experimental field in which computer artists had thrived Even so the gap between the bright bold presence of color onscreen and the increasing abstraction of its underlying code continues to lure artists and designers from a wide range of fields and Kane draws on their work to pose fascinating questions about the relationships among art code science and media in the twenty first century House of Darkness House of Light Andrea Perron,2014-08-11 Roger and Carolyn Perron purchased the home of their dreams and eventual nightmares in December of 1970 The Arnold Estate located just beyond the village of Harrisville Rhode Island seemed the idyllic setting in which to raise a family The couple unwittingly moved their five young daughters into the ancient and mysterious farmhouse Secrets were kept and then revealed within a space shared by mortal and immortal alike Time suddenly became irrelevant fractured by spirits making their presence known then dispersing into the ether The house is a portal to the past and a passage to the future This is a sacred story of spiritual enlightenment told some thirty years hence The family is now somewhat less reticent to divulge a closely guarded experience Their odyssey is chronicled by the eldest sibling and is an unabridged account of a supernatural excursion Ed and Lorraine Warren investigated this haunting in a futile attempt to intervene on their behalf They consider the Perron family saga to be one of the most compelling and significant of a famously ghost storied career as paranormal researchers During a seance gone horribly wrong they unleashed an unholy hostess the spirit called Bathsheba a God forsaken soul Perceiving herself to be the mistress of the house she did not appreciate the competition Carolyn had long been under siege overt threats issued in the form of fire a mother's greatest fear It transformed the woman in unimaginable ways After nearly a decade the family left a once beloved home behind though it will never leave them as each remains haunted by a memory This tale is an inspiring testament to the resilience of the human spirit on a pathway of discovery an eternal journey for the living and the dead **Tavistock Institute** Daniel Estulin,2015-09-14 The real story behind the Tavistock Institute and its network from an intriguing best selling author The Tavistock Institute in Sussex England describes itself as a nonprofit charity that applies social science to contemporary issues and problems But this book posits that it is the world's center for

mass brainwashing and social engineering activities It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet and in the process change the paradigm of modern society In this eye opening work both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered With connections to U S research institutes think tanks and the drug industry the Tavistock has a large reach and Tavistock Institute attempts to show that the conspiracy is real who is behind it what its final long term objectives are and how we the people can stop them Alternative Governance in the Northern Triangle and Implications for U.S. Foreign Policy Douglas Farah, Carl Meacham, 2015-10-06 This study examines different forms of alternative governance in the absence of a strong state presence in the Northern Triangle of Central America along part of the Guatemala Honduras border a region notorious for its soaring homicide rates corruption violence and emigration to the United States The purpose of the study is to shed light on the complex and interwoven issues that drive the current crisis of governance in the region and spill over with increasing frequency into strategic issues for the United States The Duel John Lukacs, 2001-03-11 This is a day by day account of the eighty day struggle in 1940 between Hitler poised on the edge of absolute victory and Churchill threatened by imminent invasion and defeat on the eve of the second World War A masterful book masterful in its portrayal of its protagonists masterful in its overall understanding of the death struggle in which they engaged masterful above all in its vivid suspenseful chronicling of the most momentous eighty days in the history of this century Geoffrey Ward This is a marvelous book John Lukacs has lucid unsentimental insight into the mind and character of both Churchill and Hitler Conor Cruise O'Brien A wonderful story wonderfully told George F Will It is salutary to be reminded in this powerful study how close Hitler came to winning in 1940 An impressive study written with elegance and panache Peter Stansky New York Times A master of narrative history on a par with Barbara Tuchman and Garrett Mattingly Kirkus Reviews Attention and its Crisis in Digital Society Enrico Campo, 2022-05-08 In the context of debates surrounding the effects of new technologies on our mental faculties particularly the attention span this volume addresses the notion of a deterioration of attention and the related ideas of cognitive overload an inability to concentrate and attention deficit disorder Through a new conceptualization of attention based not on individualistic or universalistic approaches but centered instead on the cultural and social variability of cognitive processes and the multiplicity of forces and environments that encourage stimulate and inhibit certain cognitive mechanisms the author rejects the idea of a degradation or crisis of attention and proposes an alternative vision of the problem of attention in contemporary societies Placing cultural conventions social norms and ecological environments at the forefront of our understanding of individual and collective attention Attention and its Crisis in Digital Society will appeal to scholars of sociology psychology and philosophy with interests in social theory cognitive processes and the criticisms often levelled at digital society and new technologies **Setting Your Course** Dr. Greg Bourgond, 2014-03 God is very clear about His purposes for you If you want to live a meaningful life it must be aligned

with His purposes You have a unique purpose to fulfill a committed passion to embrace a role to perform unique methodologies a personal toolkit to employ and an ultimate contribution to make In *Setting Your Course* author Dr Greg Bourgond seeks to help you set your course find focus for your life engage in God's journey for you and finish your journey well He employs a three part process to influence you to live all out for Christ the compass map and guide The compass explains the importance of orienting your life in accordance with established biblical compass points The map defines the trajectory you are to follow based on how God has wired you The guide stresses the importance of being mentored and mentoring others *Setting Your Course* helps you formulate a deliberate strategy for determining your purpose assists you in aligning your life according to God's plan encourages you to become a proactive partner in fulfilling God's purposes and redemptive activity and exhorts you to leave a worthwhile legacy in the lives of others *Earth's Next Fifty Years* Lyndon LaRouche, 2017-01-30 Where do they get the money China and India are going to the Moon and Mars Modern railroads are cutting across the empty expanses of Eurasia and Africa Poor countries are doing amazing things while the rich countries of Europe and North America are in constant crisis or struggling America used to have the world's leading space program a leading research program to develop the power source of the stars thermonuclear fusion power What happened to steel and auto family farms What is different abroad The difference abroad is not to be found in anything to do with money More and more governments have decided that Lyndon LaRouche was right all along Wealth does not derive from money but from the application of the human mind and body with the assistance of Hamiltonian credit to the physical building of a better future In America where these concepts were developed they have been suppressed in favor of the magic of markets The concepts in the studies comprising this book originally published around the turn of the 21st century are now alive and growing among governing circles responsible for 80% of the world's population Isn't it time that governing policy in America too should implement the ideas in this book and join hands with those nations who would love to work together with America to create a bright future for all Read this book *Self and Society* William Irwin Thompson, 2017-01-11 A series of essays on the evolution of culture dealing with topics including the city and consciousness evolution of the afterlife literary and mathematical archetypes machine consciousness and the implications of 9/11 and the invasion of Iraq The enlarged new edition contains extra essays and brings the author's comments on current affairs up to date with coverage of the election of Barak Obama as US President *The Triumph and Tragedy of the Intellectuals* Harry Redner, 2016-09-30 This fourth installment of Harry Redner's tetralogy on the history of civilization argues that intellectuals have a brilliant past a dubious present and possibly no future He contends that the philosophers of the seventeenth century laid the ground for the intellectuals of the eighteenth century the Age of Enlightenment They in turn promoted a fundamental transformation of human consciousness they literally intellectualized the world The outcome was the disenchantment of the world in all its cultural dimensions in art religion ethics politics and philosophy In this fascinating study Redner demonstrates how

secularization took the sting out of both the dread and promise of an afterlife and intellectuals learned to die without the hope of immortality popularized by philosophy and religion Ultimately they produced the ideologies that generated the totalitarian regimes of the twentieth century which subsequently exterminated these intellectuals through mass murder on a scale never before experienced The book traces the sources of this fatal entanglement and goes on to examine the contemporary condition of intellectuals in America and the world Wherein lies the future of the intellectuals Redner suggest that in the present state of globalization dominated by technocrats experts and professionals their fate remains uncertain

**Global Futures** Ronaldo Munck, 2025-02-27 Global Futures Key Concepts for Social Transformation provokes us to rethink some of the key words and concepts which define the current global order Prompted by crises around the world it seeks to re energise our desire for a better future The book takes seven key concepts from the new global studies and considers how they are used and whether they are adequate for addressing the twenty first century s increasingly complex global order The topics covered include widely used concepts such as development modernity history and politics as well as more unusual themes such as desire complexity and alternative futures The core message of this book is that we need to grasp the complex and contradictory reality behind these important concepts in order to foster a new way of thinking seeing and acting for a future fit for human purpose Written by Ronaldo Munck a key social theorist and social activist with a Latin American and European background this book will be perfect for students and researchers of sociology politics international relations and global development

**Cottons: The Secret of the Wind** Jim Pascoe, 2018-07-10 In Cottons rabbits and foxes inhabit a world where magic technology and art are used as weapons of war Written by Jim Pascoe with bold illustrations from Heidi Arnhold To her neighbors in the Vale of Industry Bridgebelle is an ordinary rabbit All day long she toils at the carrot factory After a hard day she returns home to care for her ailing auntie And whenever she s out she s watchful of the murderous foxes who prey on her kind But Bridgebelle is not ordinary she s a rabbit with talents beyond her own understanding Using cha the mysterious fuel that powers her world she can change everyday objects into thokchas magical transforming works of art Bridgebelle makes thokchas because they re beautiful But there are those in her world who want to harness her powers and turn her art into a weapon

Jane Jacobs is still here Roberto Rocco, 2023-06-06 On the occasion of Jane Jacobs 100 anniversary the chair of Spatial Planning and Strategy of the Delft University of Technology together with the OTB Research Institute for the Built Environment and the Rotterdam Erasmus University College organised a two day conference on Jane Jacob s legacy at TU Delft on 24 25 May 2016 This event was complemented one year later by a Jane Jacobs Year closing event We wished to celebrate the life and accomplishments of one of the most important urban thinkers of our time someone who has influenced generations of designers and planners and others concerned with the built environment the great Jane Jacobs This volume contains a number of papers presented at the celebratory conference held at TU Delft in May 2016 with six tracks coordinated by guest scholars Track 1 Jane Jacobs ethics and the just city Track 2 Jane

Jacobs and Street Spaces Streets as public places Track 3 Jane Jacobs and the dynamics of neighbourhoods Track 4 Jane Jacobs and the Reshaping old urban fabrics in Chinese cities Track 5 Jane Jacobs and organised complexity Track 6 Jane Jacobs and safety in public space      **Dislocation: Awkward Spatial Transitions** Philip Cooke, 2021-05-18 Today the world is in the most serious turmoil it has experienced for many centuries These multiple crises arise from the fundamental mistreatment by capitalist competition of the carrying capacity of the planet Even before coronavirus evidently morbid symptoms of over development led many spatial planners to write of the threat of a new Dark Age Many advocated a return to policy decentralisation as the Covid 19 crisis demonstrated once again the failure of global controller mindsets to manage complex systems successfully Dislocation Awkward Spatial Transitions is a critical exploration of where spatial development processes and rules have gone wrong across many economies The chapters lay out which mindsets have been responsible for this and gives pointers to new practices that aim to ameliorate the effects of past failings In the first nine chapters a mapping of key elements of the prevailing omni crisis are summarised These range from an exegesis of the Anthropocene the rise of populism the transition to neoliberalist anti planning and migration as planning issues with pleas for evolutionary change in spatial policy and process dynamics Finally a group of chapters explores the flailing as territorial governances tried to plot the rise of creative cities 4 0 era industry and services and in the built form the role of starchitects in city renewal In the last part attention is devoted to territorial innovation knowledge recombination sustainable mobility and finally green entrepreneurship as necessary elements of a post coronavirus climate change mitigation and sustainable mobility set of survival strategies The chapters in this book were originally published in the journal European Planning Studies

*Regulating Hate Speech Created by Generative AI* Jay Liebowitz, 2024-08-02 Regulating Hate Speech Created by Generative AI explores the new hybrid space of Human Machine Interaction HMI in which hate speech is represented and computed through algorithms and AI generative systems The book is exploratory because there are still many problem solving challenges to be faced It is also innovative because it is not assuming that solutions lie only in technological advancements but on a broader scale In this sense large language models can and are being considered from a holistic view i e from the different dimensions and layers of regulatory and legal governance Highlights of the book include Generative AI and social engines of hate An introduction to generative Artificial Intelligence application trends and ethics The mechanics and validation of generative AI outcomes An evaluation of Generative AI for hate speech detection Best practices and key considerations for AI regulation Using GenAI capabilities for early detection of threats in the digital environment This book is a hard look at ways to regulate generative AI to reduce online hate and secure justice in a digital environment Featuring research and offering practical guidelines the book examines guidelines for regulating generative AI models so they do not contribute to online hate disinformation and imagery
