### **The Oxford Handbook of Technology and Music Education**

S. Alex Ruthmann, Roger Mantie, 2017-07-06

Few aspects of daily existence are untouched by technology. Learning and teaching music are no exceptions and arguably have been impacted as much or more than other areas of life. Digital technologies have come to affect music learning and teaching in profound ways influencing how we create, listen, share, consume, interact and conceptualize musical practices and the musical experience. For a discipline as entrenched in tradition as music education, this has brought forth myriad views on what does and should constitute music learning and teaching. To tease out and elucidate some of the salient problems, interests and issues, *The Oxford Handbook of Technology and Music Education* critically situates technology in relation to music education from a variety of perspectives: historical, philosophical, socio-cultural, pedagogical, musical, economic, policy, organized around four broad themes: Emergence and Evolution, Locations and Contexts, Social and Cultural Issues, Experiencing, Expressing, Learning and Teaching, and Competence, Credentialing and Professional Development. Chapters from a highly diverse group of junior and senior scholars provide analyses of technology and music education through intersections of gender, theoretical perspective, geographical distribution and relationship to the field. *The Oxford Handbook of Technology and Music Education's* dedication to diversity and forward-facing discussion promotes contrasting perspectives and conversational voices rather than reinforce traditional narratives and prevailing discourses.

### **The Power of Music**

Roger Kennedy, 2020-07-31

Emotion is an integral aspect of musical experience; music has the power to take us on an emotional and intellectual journey transforming the listener along the way. The aim of this book is to examine the nature of this journey using a variety of perspectives. No one discipline can do justice to music's complexity if one is to have a sense of the whole musical experience even if one has to break up the whole experience into various elements for the purposes of clarification. The issues raised have some relationship to psychoanalytic understanding and listening as, after all, psychoanalysis is a listening discipline; its bedrock is listening to the patient's communications. While of course there are significant differences between understanding of and listening to a musical performance and a patient in a consulting room, the book explores common ground. Evidence from neuroscience indicates that music acts on a number of different brain sites and that the brain is likely to be hard-wired for musical perception and appreciation and this offers some kind of neurological substrate for musical experiences or a parallel mode of explanation for music's multiple effects on individuals and groups. After various excursions into early mother-baby experiences, evolutionary speculations and neuroscientific findings, the book's main emphasis is that it is the intensity of the artistic vision which is responsible for music's power. That intense vision invites the viewer or the listener into the orbit of the work, engaging us to respond to the particular vision in an essentially intersubjective relationship between the work and the observer or listener.

This is the area of what we might call the human soul Music can be described as having soul when it hits the emotional core of the listener And of course there is soul music whose basic rhythms reach deep into the body to create a powerful feeling of aliveness One can truly say that music of all the arts is most able to give shape to the elusive human subject or soul

**Contemporary Music** Mr Max Paddison, Ms Irène Deliège, 2013-01-28 This collection of essays and interviews addresses important theoretical philosophical and creative issues in Western art music at the end of the twentieth and the beginning of the twenty first centuries Edited by Max Paddison and Irène Deliège the book offers a wide range of international perspectives from prominent musicologists philosophers and composers including Cécile Delieu Pascal Decroupet Richard Toop Rudolf Frisius Alastair Williams Herman Sabbe François Nicolas Marc Jimenez Anne Boissière Max Paddison Hugues Dufourt Jonathan Harvey and new interviews with Pierre Boulez Brian Ferneyhough Helmut Lachenmann and Wolfgang Rihm Part I is mainly theoretical in emphasis Issues addressed include the historical rationalization of music and technology new approaches to the theorization of atonal harmony in the wake of Spectralism debates on the new complexity the heterogeneity pluralism and stylistic omnivorousness that characterizes music in our time and the characterization of twentieth century and contemporary music as a search for lost harmony The orientation of Part II is mainly philosophical examining concepts of totality and inclusivity in new music raising questions as to what might be expected from an autonomous contemporary musical logic and considering the problem of the survival of the avant garde in the context of postmodernist relativism As well as analytic philosophy and cognitive psychology critical theory features prominently with theories of social mediation in music new perspectives on the concept of musical material in Adorno's late aesthetic theory and a call for an aesthetics of risk in contemporary art as a means to reassert the essential role of criticism of judgment and of evaluation as necessary conditions to bring about a real public debate on the art of today Part III offers creative perspectives with new essays and interviews from important contemporary composers who have made highly significant interventions in the debates around music today both through their compositions and through their writings on music The contributions from Pierre Boulez Brian Ferneyhough Helmut Lachenmann Wolfgang Rihm and Jonathan Harvey and also the opening essay of the volume by the French spectralist composer and philosopher Hugues Dufourt address issues of chance control freedom intuition ambiguity technology time and meaning in contemporary music A concluding essay by Alastair Williams on advanced contemporary music and the Austro-German tradition post 1968 provides a postlude to the book while the whole collection is prefaced by an extended introductory chapter by Max Paddison which provides a context of ideas and traces many of the issues discussed back to Adorno's seminal notion of *une musique informelle*

**The Holland Sisters** Eugene G. Rochow, Eduard Krahé, 2012-12-06 It is said that behind every successful man there stands a devoted and capable woman The three famous chemists Perkin Kipping and their collaborator Lapworth married three sisters Mina Lily and Kathleen Holland The three Holland sisters kept their husbands in close and very productive collaboration throughout their

lives thereby greatly increasing their scientific output They functioned as a productive scientific family However the life and work of the men is thoroughly documented but little is known about their wives Professor Eugene G Rochow a world renowned scientist wrote this biographical historical novel with the help of a grandson Dr Brian Kipping Professor Rochow did not intend to write a bare bones biography He took care to make the book factually accurate Wherever there are no facts he has not hesitated to flesh out the account with imagination and actual experience of others in order to make the text more readable

**How to Enjoy Opera** John Snelson, 2016-04-29 From Glyndebourne to the King's Head in the flesh and streamed online opera is reaching a broader audience than ever before With over 400 years of history and a beguiling mix of musical motifs costumes storytelling and song opera has fascinated and enthralled audiences for centuries However it can also cast the impression of an intimidating high art form inaccessible to the uninitiated How to Enjoy Opera is an engaging illuminating primer which will demystify the world of opera John Snelson who has worked at London's world famous Royal Opera House in Covent Garden for over 15 years gives his expert insight into how to absorb an opera and understand its inner workings Aimed at newcomers to the art form as well as long time fans this book will help the reader to absorb and understand any opera with examples drawn from more than 45 composers and just over 100 operas included There are references to some of the most famous of all opera moments sometimes from less familiar perspectives but also to lesser known works This book decodes many of the elements that opera composers and librettists put into their operas that give enjoyment to audiences in the hope that readers can gain greater enjoyment from their future viewing and listening too
