Managing Knowledge Steven Albert, Keith Bradley, 1997-10-02

Managing Knowledge reverses the status quo argument that organisational change is driven by the specific demands of large companies Instead of viewing firms as the catalysts for gradual change Albert and Bradley argue that expert professionals have fuelled a break away from the traditional organisational structure to an organisational structure at the heart of which is an agent and or an agency system The authors draw our attention to the growing phenomenon of atypical work manifested in workforce flexibility mobility the feminisation of professional employment and technological changes They focus upon a group of knowledge based employees experts who increasingly have influence over work and wealth creation Case studies are developed from companies including AT and T the Hollywood film industry London accounting firms and specialised agencies such as Labforce and Knowledge Net

One Day I'll Work for Myself: The Dream and Delusion That Conquered America Benjamin C.

Waterhouse,2024-01-16 From side hustlers to start ups freelancers to small business owners Americans have a special affinity for people who make it on their own But the dream has a dark side One day I ll work for myself Perhaps you ve heard some version of that phrase from friends colleagues family members perhaps you ve said it yourself If so you re not alone The
