New European Left

Patrick Camiller, Perry Anderson

New European Left:

The New European Left K. Hudson, 2012-06-19 Hudson explores the development of communists and other left forces charting their survival and renewal after 1989 She shows how an open and democratic form of socialism has emerged which embraces environmental gender and anti war politics

Israel and the European Left Colin Shindler, 2011-12-22 Why has the European Left become so antagonistic towards Israel To answer this question Colin Shindler looks at the struggle between Marxism Leninism and Zionism from the October Revolution to today Is such antagonism in opposition to the policies of successive Israeli governments Or is it due to a resurgence of anti Semitism The answer is far more complex Shindler argues that the new generation of the European Left was more influenced by the decolonization movement than by wartime experiences which led it to favor the Palestinian cause in the post 1967 period Thus the Israeli drive to settle the West Bank after the Six Day war enhanced an already existing attitude but did not cause it Written by a respected scholar this accessible and balanced work provides a novel account and analytical approach to this important subject Israel and the European Left will interest students in international politics Middle Eastern studies as well as anyone who seeks to understand issues related to today's Left and the Arab Israeli conflict

The European Left Party Luke March, Richard Dunphy, 2019-12-13 With the stability of the European Union under threat and tensions between the national and supranational increasing what will happen to the EU party system For the internationalist European left European integration and the role of transnational parties represent a central contention and concern In May 2004 the European radical left representing parties to the left of social democracy and the Green party family created the transnational European Left Party EL uniting parties like the German Die Linke Italian Rifondazione Comunista and Greek Syriza In 2009 the EL fought the European Parliament elections on the basis of a common manifesto emerging over the last decade as an apparently stable actor at EU level As the first detailed study of the EL this book analyses the role of the party in European politics and the politics of the European radical left What challenges will the EL have to overcome in order for it to become a significant force for the creation of a genuine democratic European polity To what degree has the EL enabled an increase in the electoral or policy influence of the radical left in Europe Written by two of the foremost experts on the European left this book is essential reading to those interested in how the left has fared in post crisis Europe

Europe's Radical Left Luke March, Daniel Keith, 2016-10-20 Although the most pernicious consequences of the crisis have apparently abated the long term political repercussions remain unclear Whereas most attention has focused on the right wing populist parties the rejuvenation of the left is an unwritten story of post crisis politics This volume addresses this story with three principal aims to examine the radical left intellectual response to the crisis i.e. how actors conceptualise the causes of crisis and its consequences to examine the radical left electoral response to the crisis i.e. how the crisis has aided or weakened the electoral success of radical left parties and movements to examine organisational responses i.e. whether the crisis has

resulted in new party structures methods of organising and internal party tendencies The result is a comprehensive compendium drawing on cutting edge research from leading European experts to present the first comparative analysis of how the far left of the political spectrum has responded to the crisis It furthers our understanding both of the dynamics of European party systems and the wider consequences of the Great Recession *Struggling for a Social Europe* Andy Mathers, 2016-04-01 Protests at summit meetings have inspired intense debate over the nature and significance of the anti globalization or anti capitalist movement However the European dimension of this movement is still largely unknown In this insightful book Andy Mathers addresses this deficit by focusing on events that have marked the birth of a European social movement He relates the development of the movement to key matters such as economic employment and welfare state restructuring along neoliberal lines He also challenges ideas about the nature of contemporary collective action and the character of present day social movements Mathers discusses the significance of the movement and its future development through a critical engagement with the work of major writers in European sociology and of academics influential in the wider global movement such as Pierre Bourdieu A postscript brings readers fully up to date with developments in the type of social Europe propagated by the institutions of the EU as well as in the maturation of a social movement to oppose it **The Routledge Handbook of Political Parties** Neil Carter, Daniel Keith, Gyda M. Sindre, Sofia Vasilopoulou, 2023-04-25 The Routledge Handbook of Political Parties provides a systematic and comprehensive overview of the study of political parties provided by leading experts in the field In an era of widespread political disillusionment political parties are often the main targets of citizen dissatisfaction yet they are the key institutions that make democracy work Analysing political parties in unrivalled depth and breath with comparative thematic chapters throughout as well as a dedicated section on political parties and party politics in specific country and regional settings this handbook examines and illuminates the key questions around how parties organise how their ideologies have evolved over time their relationship with society how they differentiate themselves and how they respond to new social economic and political developments The Routledge Handbook of Political Parties is essential reading and an authoritative reference for scholars students researchers and practitioners involved in and actively concerned about research in the study of political parties party systems and party politics *The Radical Left in Europe in the Age of Austerity* Babak Amini, 2017-10-02 The complex trajectory of Europe after the 2008 global financial crisis has led to the catastrophic failure of deep austerity measures that swept across the Union and is reflected in the rise of some radical left parties such as SYRIZA as well as an unfortunate rise in far right and nationalist parties and movements This collection brings together a group of European scholars and activists from various European countries to discuss the recent economic political and electoral changes in respective countries and the current status and future plans of radical left parties and movements This book fills a significant gap within the current literature in the English speaking world on post 2008 Europe featuring a nation based European wide survey of the current activities and plans of

radical Left parties and movements in relation to the mounting social political and economic problems in Europe This book contributes to the discussion by presenting a realistic depiction of the existing radical Left forces in Europe This title was previously published as a special issue of Socialism and Democracy **Radical Left Parties in Europe** Luke March,2012-03-12 What has happened to the European radical left after the collapse of the USSR How has it reacted reformed even revived This new volume is one of the first to provide an overview of the main developments in contemporary European radical left parties those defining themselves as to the left of and not merely on the left of social democracy which are now an increasingly visible phenomenon in European party politics Unlike many of the existing studies it focuses on communist and non communist parties addresses their non parliamentary and international activity and takes a pan European perspective focusing on both Eastern and Western Europe March focuses on key contemporary left parties the nature of their radicalism and their ideological and strategic positions and overall addresses their current dynamics and immediate electoral prospects The book argues that radical left parties are still afflicted by existential crises about the nature of socialism and the future of communist parties in particular is under threat The most successful left parties are no longer extremist but present themselves as defending values and policies that social democrats have allegedly abandoned focus on pragmatism rather than ideology and increasingly orientate themselves towards government Providing a significant contribution to existing literature in the field this book will be of interest to students and scholars of comparative politics political parties and radical politics **Italy, Europe, The Left** Vassilis Fouskas,2018-12-20 Published in 1998 Was the Italian Communist Party PCI a typical Social Democratic party in tune with the programmatic principles of the Second International What is the appropriate context within which the strategies of historic compromise and Eurocommunism in the 1970s can be analyzed and understood In what form and to what extent has the process of European integration and the crisis of Keynesianism contributed to the transformation of the party in 1989 91 What caused the collapse of the ruling political class of the First Italian Republic Why did the transformed PCI the PDS Democratic Party of the Left fail to lead the transition to the Second Italian Republic between 1992 and 1996 Is there any link between the party s historical factions and the current divisions in the Italian Left Is it possible to theorize and speculate upon these divisions Italy Europe the Left seeks to answer these questions debating conventional views and examining the extent to which the end of the Cold War has contributed to a redefinition of the Left s identity in Italy and Europe The exemplary methodological framework and the wider European perspective adopted throughout make the book an indispensable reading in the field of Italian and European politics The European left and the financial crisis Michael Holmes,Knut Roder,2019-08-27 This timely collection addresses key questions including How did political parties from the Left respond to the crisis What does the crisis mean for the relationship between the Left and European Integration and what does it mean for socialism as an economic political and social project *The Palgrave Handbook of Radical Left Parties in Europe* Fabien Escalona,Daniel Keith,Luke

March,2023-04-17 This profound and insightful handbook aims to promote critical reflection on the way we conceptualise and study the radical left and to advance research by asking new questions Radical left parties in Europe have been the subjects of significant study in the last decade aided by the demonstrable success of newer parties like the Greek Syriza and Spanish Podemos as well as the persistence of more established actors like the German Die Linke Nevertheless the emergent literature remains patchy and many elements of the party family still poorly understood This handbook brings together a range of leading analysts to provide a definitive compendium one that provides both students and scholars with an informative and easy to use guide to the radical left in Europe Through utilising a common analytical framework to analyse the radical left in 19 European countries within and outside the EU the Palgrave Handbook of Radical Left Parties in Europe provides a wealth of comparable data on a wide number of cases to provide a sound basis for future studies This rigorous comparative framework allied with the unprecedented in depth overview of the development of the European radical left over the past two decades makes this handbook an essential starting place for those interested in all aspects of the radical left as a party family

European Socialism William Smaldone,2019-10-16 This accessible text offers a concise but comprehensive introduction to European socialism which arose in the maelstrom of the industrial and democratic revolutions launched in the eighteenth century Striving for sweeping social economic cultural and political change socialists were a diverse lot However they were united by principles asserting the social and political equality of all people ideas that won the adherence of millions and struck fear in the hearts of their numerous opponents William Smaldone shows how over the course of 200 years socialists successfully promoted the democratization of European society and a more equitable division of wealth At the same time he illustrates how conflicts over the means of achieving their aims divided them into rival socialist and communist currents a rift that undercut the struggle against fascism and helped lay the groundwork for Europe's division during the Cold War Although many predicted the demise of socialism as a potent force after the end of the Cold War the Soviet Union's dissolution and the rise of neo liberal ideology recent developments show that such a judgment was premature The author argues that the growth of new socialist parties across Europe indicates that socialist ideas remain vibrant in the face of capitalism's failure to solve chronic social and economic problems especially following the deep global crisis that began in 2008 Combining an analytical narrative with a selection of primary texts and visual images this book provides undergraduate students with a brief readable history including an overview of how socialist political movements have evolved over time and stressing the rich diversity that has characterized socialism's foundations from its beginning This new edition brings this text up to date and examines the European socialist movement in the face of 21st century challenges It includes a new preface including the 2017 American election updated bibliographies two new chapters and an afterword

Mapping the West European Left Patrick Camiller,Perry Anderson,2020-05-05 Organized as a series of tightly linked comparative assessments Mapping the West European Left provides a guide to the state of the left in Sweden Norway

Denmark Germany Britain France Italy and Spain While all the essays are detailed historical compositions setting recent crises and dilemmas in a longer perspective reaching back into the postwar settlement they articulate original insights into the contemporary political conjuncture Why did Swedish social democracy lose hegemony and direction while its Norwegian counterpart showed unexpected resilience What was the background to the Danish rebellion against Maastricht What are the prospects for the SPD and the Greens in post unification Germany Should the British Labour Party embrace electoral reform What propelled the French Socialist Party from triumph to disaster And why did the Italian left fail to fill the vacuum created by the collapse of the Christian Democrats Behind the questions explored by the contributors to Mapping the West European Left lie deeper issues concerning the future of radical politics in Europe after the repudiation of Keynesianism and the end of communism With the individual country analyses synthesized by the editors in a concise and comprehensive introductory essay this book provides key pointers to the social forces and ideological platforms that offer lines of advance to the left today

The Political Mobilization of the European Left, 1860-1980 Stefano Bartolini, 2000-08-28 In an in depth comparative analysis Stefano Bartolini studies the history of socialism and working class politics in Western Europe While examining the social contexts organizational structures and political developments of thirteen socialist experiences from the 1860s to the 1980s he reconstructs the steps through which social conflict was translated and structured into an opposition as well as how it developed its different organizational and ideological forms and how it managed more or less successfully to mobilize its reference groups politically

The Radical Left Party Family in Western Europe, 1989-2015 Paolo Chiocchetti, 2016-10-04 This book provides an innovative analysis and interpretation of the overall trajectory of the Western European radical left from 1989 to 2015 After the collapse of really existing communism this party family renewed itself and embarked on a recovery path seeking to fill the vacuum of representation of disaffected working class and welfarist constituencies created by the progressive neoliberalisation of European societies The radical left thus emerged as a significant factor of contemporary political life but despite some electoral gains and a few recent breakthroughs SYRIZA in Greece PODEMOS in Spain it altogether failed to embody a credible alternative to neoliberalism and to pave the way for a turn to a different developmental model This book investigates why this was the case combining aggregate 17 countries case study Germany Italy and France and comparative methods It accurately charts the evolution of the nature strength cohesion and influence of the Western European radical left offering new insights in explaining its behaviour success and limits It is essential reading for scholars students and activists interested in the radical left and in contemporary European politics

Routledge Handbook of European Elections Donatella M. Viola, 2015-08-14 The Routledge Handbook of European Elections explores the multifaceted dimension of the European Parliament's EP electoral contests across the European Community and European Union since 1979 After setting a general empirical and theoretical framework this collaborative project presents original contributions from leading experts from virtually all the corners of the European Union Each case

study adheres to a common template that makes it easy to compare data methodology and outcomes Every country chapter includes a brief geopolitical profile and historical background of the Member State a glance at the national political landscape a short account of the main political parties including their attitude toward the European Union a section on public opinion and European integration a summary of electoral systems an overview of all EP and national elections an in depth analysis of the 2009 EP electoral race an overall theoretical interpretation of European elections A comparative chapter closes the Handbook followed by an Epilogue focussing on the 2014 EP contest with a detailed analysis of the newly elected European Assembly in terms of political group and gender composition The volume aims to enhance readers understanding of the European Parliament and revive their interest in the European integration process By providing a wide range of national and European facts and figures this investigation represents a comprehensive reference guide to scholars practitioners and students of the European Parliament European elections political parties European Union and comparative politics

Populist Radical Left Parties in Western Europe Marco Damiani, 2020-01-30 This book provides a comparative analysis and a systemic categorization of the Populist Radical Left Parties PRLPs in Western Europe Institutional and socio economic aspects have transformed the political culture of many modern democracies leading to the creation of radical left wing parties who by combining a strongly populist political offer with the historical demands of the traditional left wing are capable of electoral success This book analyzes a range of different Populist Radical Left Parties PRLPs in Western Europe through in depth case studies The author uses statutes internal documents programs election results membership data and international political literature combined with interviews with executives and national secretaries to describe and interpret the main features of PRLPs their paths of formation and political transformation This volume will appeal to scholars and students of political science and political sociology media studies and anyone interested in trying to better understand European populism and the distinctions among its different forms *The Third Way and beyond* Sarah Hale, Will

Leggett, Luke Martell, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license This collection brings together expert contributions to dissect the key political concept of the Third Way in theory and practice assessing its development and legacy and suggesting criticisms and alternatives **Radical Left**

Parties in Government Yiannos Katsourides, 2016-09-22 This book provides a comparative analysis of how two radical left parties achieved government participation and their subsequent political experiences In the face of the most severe and most prolonged crisis in the history of capitalism it would be expected for radical left parties to seize the opportunity to promote their political agenda Although reality has often confounded prognosis two particular radical left parties the Greek SYRIZA and the Cypriot AKEL were elected to the highest government office The author uses these two examples to engage with the broader question of what to expect when left wing radicals achieve governance This question is now of particular importance given the emergence of radical leftists in other parts of Europe including Corbyn in the UK and Podemos in Spain

Contesting Capitalism? Richard Dunphy, 2004 Keynes was an elitist and pro capitalist economist whom the left should embrace with caution But his analysis provides a concreteness missing from Marx and engages with critical issues of the modern world that Marx could not have foreseen This book argues that a critical Marxist engagement can simultaneously increase the power of Keynes s insight and enrich Marxism Dunn explores Keynes s work in the context of the extraordinary times in which he lived his philosophy and his politics By offering a detailed overview of his critique of mainstream economics and General Theory Dunn argues that Keynes provides an enduringly valuable critique of orthodoxy and develops a Marxist appropriation of Keynes s insights The book considers the prospects of returning to Keynes critically reviewing the practices that have come to be known as Keynesianism and the limits of the theoretical traditions that have made claim to his legacy

Uncover the mysteries within is enigmatic creation, Embark on a Mystery with **New European Left** . This downloadable ebook, shrouded in suspense, is available in a PDF format (Download in PDF: *).
