**Exiled Intellectuals: Encounters, Conflicts, and Experiences in Transnational Context** Latife Akyüz, Hakan Altun, Eylem Çamuroğlu Çığ, Melehat Kutun, 2024-11-04 Right after the Gezi Resistance a new tendency of authoritarianism rapidly emerged in Turkey and AKP government started targeting anyone it perceives as a threat to its rule especially academics journalists politicians actors directors i.e. the intellectuals who produce oppositional art and critical knowledge criminalizing them as enemies of the state The authoritarian regime has permeated every aspect of economic social cultural and political life institutionalized primarily through the ongoing state of emergency declared in the wake of the July 15 2016 coup attempt one might also consider this as a controlled and manipulated toxic coup This new climate has started to limit the opportunities of production and reproduction for the intellectuals and artists and even holding a dissident stance became a source of risk on its own The Republic of Turkey limited oppressed and punished the means of expression by giving one of the harshest and maybe the most violent reactions of its history against critical thought and opposition The culture of democracy which was almost already non-existent has been completely abolished through the suspension of democracy on the ostensible level This ongoing period is one in which producers of critical knowledge and opposing artists are being faced with immense oppression and penal sanctions One of the outcomes of this process is a kind of new nomadism that we can sketch out as leaving behind And one of the forms of this leaving is voluntary or involuntary exile The majority of those whom we call new exile intellectuals today have relocated generally to Western Europe Great Britain the United States and especially to Germany This new wave of political forced migration which started in the aftermath of the Gezi uprisings and gained momentum following the coup attempt has been defined by the editors of the book as new exile in order to draw a framework

as it has some unique characteristics different from the previous waves The fundamental property of this experience is the simultaneous mobilization of intellectual capital and bi polar opposition This oppositional stance is both against the dominant global order and against German style authoritarianism as well as Turkish style fascism It is bi polar in the context of exile The form of the opposition in question has the ability to take root in the lands it arrives at It does not point towards a single direction forward or backward and a single place the place it was ruptured it is here now and multidirectional This state of new exile bears the efforts of existing critical knowledge and art producers in the heim to which they have relocated as critical knowledge and art producers are opposed to the dominant world system as well as to fascism in Turkey As political subjects of the resistance against authoritarianism they are continuously and collectively fighting against the structural fate of displacement As both subjects and researchers of this current state of new exile it is our primary responsibility to understand and produce knowledge of these intellectuals responses in this new life to monitor the creation processes of the new mechanisms to cope with the challenges and to understand investigate the effects of all these on the transnational social space We have tried to determine the content of this book based on our own experiences as new exiled intellectuals We believe that in this period of new exile we are subjects and witnesses of a historic period due to our individual struggle for existence as well as our modes of organization and solidarity as a group of new exiled intellectuals On one hand we know that while transforming ourselves we pave the way for mutual interaction and the transformation of the structures in which we relate This is precisely why the motivation behind the idea of compiling this book lies not only in academic concerns such as analyzing the process and contributing to the literature on new exile but also in keeping a record of our own stories creating memories of our new exilic lives strategies of existence solidarity and experiences of activism and in sharing them with intellectuals around the globe who face the same fate We believe that this book with academic analyses and personal stories of new exile intellectuals from different professions will also serve as a guide for the steps towards transnational collaborations

**Dixie's Dirty Secret** James Dickerson, 1998 After the landmark Brown v Board of Education ruling in 1954 mandated the desegregation of schools nationwide the legislature in the state of Mississippi created the Mississippi State Sovereignty Commission the basic mission of which was to prevent integration in that state This book is an investigative history of the Commission other government agencies including the FBI and organized crime all of which conspired to break the law in dealing with civil rights and antiwar activists during the 1950s and 1960s The author uncovers new information about the efforts of FBI agents to combat integration and exposes the longest running conspiracy in American history

**BEYOND THE BLUE IKARIAN SEA** John Chrysochoos, Ph.D., 2014-04-10 Aris s innocent early childhood on the beautiful and serene Greek island of Ikaria was painfully interrupted by World War II and the subsequent

Greek Civil War The occupation by the enemy the following famine the flight to Palestine and the subsequent Greek Civil War had a profound effect upon Aris s personality His interest in political educational social and societal issues while in Greece was attributed to those experiences His subsequent travel to North America Canada at first and United States during most of his adult life made him fully aware of aspects of life completely alien to him namely xenophobic anti foreign and jingoistic issues as well as sexism and racism Current political partisanship in both the United States and Greece is affecting life enormously The reminiscence of the blue sea surrounding that faraway island provided Aris always with peace of mind in dealing with such complex societal issues in his life
