Examining FCE and CAE Roger Hawkey, 2009-03-19 This volume examines the historical development of the First Certificate in English FCE and the Certificate in Advanced English CAE **Examining Speaking** Lynda Taylor, 2011-08-25 An up to date review of the relevant literature on assessing speaking *Listening in the Language Classroom* John Field, 2009-01-22 This book challenges the orthodox approach to the teaching of second language listening which is based upon the asking and answering of comprehension questions The book's central argument is that a preoccupation with the notion of comprehension has led teachers to focus upon the product of listening in the form of answers to questions ignoring the listening process itself The author provides an informed account of the psychological processes which make up the skill of listening and analyses the characteristics of the speech signal from which listeners have to construct a message Drawing upon this information the book proposes a radical alternative to the comprehension approach and provides for intensive small scale practice in aspects of listening that are perceptually or cognitively demanding for the learner *Listening in the Language Classroom* was winner of the Ben Warren International Trust House Prize in 2008 Exploring Language Frameworks Evelina D. Galaczi, Cyril J.
