Joseph P. Farrell

New Germany The Old Nazis:

The Nazi Hydra in America Glen Yeadon, 2008 This book exposes how US plutocrats launched Hitler then recouped Nazi assets to lay the post war foundations of a modern police state Fascists won WWII because they ran both sides Lays bare the tenacious roots of US fascism from robber baron days to Reichstag fire to the WTC atrocity and Homeland Security with a blow by blow account of the fascist take over of America s media **Old Nazis, the New Right, and the Republican Party** Russ Bellant, 1991 A provocative sometimes chilling expose of domestic fascist networks which include Nazi collaborators within the Republican Party The Third Way Joseph P. Farrell, 2020-07-04 Pursuing his investigations of high financial fraud international banking hidden systems of finance black budgets and breakaway civilizations author and researcher Joseph P Farrell continues his examination of the post war Nazi International an extra territorial state without borders or capitals a network of terrorists drug runners and people in the very heights of financial power willing to commit financial fraud in amounts totaling trillions of dollars Breakaway civilizations black budgets secret technology occult rituals international terrorism giant corporate cartels patent law and the hijacking of nature it s all in this book where Farrell explores what he calls the business model of the post war Axis elite It is Farrell at his best uncovering the gargantuan financial fraud and hidden technology of the breakaway civilization *The Radical Right in Germany* Lee Mcgowan, 2014-09-25 The Radical Right has represented a major element in German politics and society throughout the history of the united country i e since the 1870s though the understandable concentration on the Third Reich 1933 45 has tended to distort the wider picture This book explores the history of the radical right through the full span of Germany s life as a nation thus putting the Third Reich in its natural context and also emphasising that the attitudes and policies of the radical right did not begin with Hitler s pursuit of power in the 1920s or end with his death in the ruins of Berlin Private Pictures Janina Struk, 2020-09-14 Snapshots taken by American soldiers of Iraqi prisoners stripped naked humiliated and tortured shocked the world in 2004 and more have followed from the conflict in Afghanistan but whether the public have been horrified by the soldiers conduct or the fact they have taken pictures has not been clear In fact as this remarkable book reveals and relates soldiers have taken photographs of war and its atrocities for more than 100 years But their pictures are private intended mainly for the soldiers themselves as mementoes or as attempts to make sense of the chaos brutality and boredom of war They can be gruesome or sociable shocking or mundane and they are seldom regarded as serious contributions to a visual culture of war which since 1939 has been dominated by professional war photography But with the 21st century shift to simple digital photography transmission by the internet available to all and a new citizen journalism soldiers pictures are acquiring a new resonance Private Pictures traces this unacknowledged genre of photography from the origins of popular photography in the Boer War through to the present day it discusses how the images have been used and it asks what effect might the wider appreciation of soldiers pictures have on the popular perception of war **The Rise of the**

Israeli Right Colin Shindler,2015-08-06 This book traces the history of the Israeli Right since its inception and its struggle to gain power It looks at the political ideas that are its bedrock and how it has been the dominant force in Israeli politics for nearly four decades

West German Industry and the Challenge of the Nazi Past S. Jonathan Wiesen,2004-02-01 In this groundbreaking study S Jonathan Wiesen explores how West German business leaders remade and marketed their public image in the aftermath of World War II and the Holocaust He challenges assumptions that West Germans and industrialists in particular were silent about the recent past during the years of denazification and reconstruction revealing how German business leaders attempted to absolve themselves of responsibility for Nazi crimes while recasting themselves as socially and culturally engaged public figures Through case studies of individual firms such as Siemens and Krupp Wiesen depicts corporate publicity as a telling example of postwar selective memory

The Beast Reawakens Martin A. Lee,2013-10-23 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company

Photographing the Holocaust Janina Struk,2020-09-03 Atrocities committed by the Nazis during the Holocaust were photographed more intensely than any before In the time since the images were taken they have been subjected to a perplexing variety of treatments variously ignored suppressed distorted and above all exploited for propaganda purposes With the use of many photographs including some never before seen this book traces the history of this process and asks whether the images can be true representations of the events they were depicting Yet their provenance Janina Struk argues has been less important than the uses to which a wide range of political interests has put them from the desperate attempts of the war time underground to provide hard evidence of the death camps to the memorial museums of Europe the US and Israel today

Peacebuilding and Ex-Combatants Johanna Söderström,2014-12-17 The book examines how ex combatants in post war and peacebuilding settings engage in politics as seen in the case of Liberia The political mobilization of former combatants after war is often perceived as a threat ultimately undermining the security and stability of the state This book questions this simplified view and argues that understanding the political voice of former combatants is imperative Their post war role is not black and white they are not just bad or good citizens but rather engage in multiple political roles spoilers victims disengaged beneficiaries as well as motivated and active citizens By looking at the political attitudes and values of former combatants and their understanding of how politics functions the book sheds new light on the political reintegration of ex combatants It argues that political reintegration needs to be given serious attention at the micro level but also needs to be scrutinized in two ways first through the level of political involvement which reflects the extent and width of the ex combatants voice Second in order to make sense of political reintegration we also need to uncover what values and norms inform their political involvement The content of their political voice is captured through a comparison with democratic ideals Based on interviews with over 100 Liberian ex combatants the book highlights that their relationship with politics overall should be characterized as an expression of a politics of affection This book will be of much

Winkle, 2013-04-15 The Nazi Germany Sourcebook is an exciting new collection of documents on the origins rise course and consequences of National Socialism the Third Reich the Second World War and the Holocaust Packed full of both official and private papers from the perspectives of perpetrators and victims these sources offer a revealing insight into why Nazism came into being its extraordinary popularity in the 1930s how it affected the lives of people and what it means to us today

This carefully edited series of 148 documents drawn from 1850 to 2000 covers the pre history and aftermath of Nazism the ideological roots of Nazism and the First World War the Weimar Republic the consolidation of Nazi power Hitler s motives aims and preparation for war the Second World War the Holocaust the Cold War and recent historical debates The Nazi Germany Sourcebook focuses on key areas of study helping students to understand and critically evaluate this extraordinary historical episode

U.S. Army Intelligence in Germany, 1944-1949 Thomas Boghardt,2023-11-06 The American military occupation of Germany lasted five years During this time Germany made great strides along the road from fascism to democracy Europe became the fulcrum of the Cold War and the United States emerged as a global superpower This book corrects numerous misunderstandings and fills many gaps in our knowledge about the occupation

Nazis in the New World Aaron Gillette,2025-05-27 In Nazis in the New World Aaron Gillette presents vivid narratives and personal accounts to reveal the unknown history of Nazi German exchange students sent to America in the 1930s Gillette argues that Nazism was an abject failure in the United States that antisemitism was on the decline that German espionage in America was a disaster for the Reich and that FDR and J Edgar Hoover brilliantly manipulated Nazi blunders to propel America into the war against Hitler and empower the FBI Meanwhile numerous German exchange students in the United States were transformed from Nazis into fiercely patriotic Americans

Social Democracy in the Making Gary Dorrien,2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world s leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti imperial internationalism
