New International Economic Order Mangat Ram Aggarwal, 1987 *Globalisation and Interdependence in the International Political Economy* R. J. Barry Jones, 2013-11-07 Globalisation and Interdependence in the International Political Economy addresses central developments within the contemporary international system The notions of interdependence and globalisation that have accompanied the political discourse of a new world disorder are replete with definitional ambiguities theoretical difficulties and empirical complexities Barry Jones offers a critical review and analysis of these concepts their significance and place within the wider debates of international political economy He argues that contemporary conditions are complex with regionalising tendencies cross cutting those of increasing globalisation and national impulses surviving even in the face of powerful internationalising forces Future developments it is concluded may also be far more uncertain and turbulent than is widely anticipated Written by a leading authority this volume is an effective and compelling introduction to the complex study of international political economy **World Bank and Economic Development of India** L. Ambrose, 1995-08-24 Development was achieved in the West by capitalism and industrialization before liberal democracy was introduced as a viable form of government Africa is grappling with the problems of underdevelopment Yet the West insists on liberal democracy for Africa a form of government which has no economic and social foundations in Africa The West now faults the African people for not being able to establish and sustain democratic institutions Ambrose an African development practitioner who recently returning from the continent after three intense years of fact finding research and consultation argues that the solution to Africa s problems does not lie in externally imposed liberal institutions shored up by top down bureaucracy that most often is ignorant unresponsive or outright hostile to the needs of the impoverished majority Her investigations lead her to believe that the solution for Africa lies in a collective approach based on empowerment of the masses and economic reforms *Special Bibliography Series* United States Air Force Academy. Library, 1988 **Grand Strategies of the Left** Van Jackson, 2023-11-02 This book maps the constellation of left progressive foreign policy thought and conceptualizes grand strategy as worldmaking **Special Bibliography Series**, 1957 *The Indian Journal of Agricultural Economics*, 1987 Vols include Proceedings of the conference of the Indian Society of Agricultural Economics *The New International Economic Order* Paul Stubbs, 2025-09-05 The New International Economic Order NIEO was an attempt underpinned by the agency of the Global South to articulate global economic and social rights consequent upon political rights gained through processes of decolonisation The New International Economic Order Lives and Afterlives situates the NIEO within the interregnum of the 1970s addressing its core features intellectual antecedents contradictions absences and afterlives Particular attention is paid to the role of the Non Aligned Movement NAM

The Economic Government of the World Martin Daunton, 2023-11-14 Foreign Affairs Best Books of the Year 2023 An epic history of the people and institutions that have built the global economy since the Great Depression In this vivid landmark history the distinguished economic historian Martin Daunton pulls back the curtain on the institutions and individuals who have created and managed the global economy over the last ninety years revealing how and why one economic order breaks down and another is built During the Great Depression trade and currency warfare led to the rise of economic nationalism a retreat from globalization that culminated in war From World War II came a new liberal economic order Squarely reflecting the interests of the West in the Cold War liberalism faced collapse in the 1970s and was succeeded by neoliberalism financialization and hyper globalization Now as leading nations are tackling the fallout from Covid 19 and threats of inflation food insecurity and climate change Daunton calls for a return to a more just and equitable form of globalization Western imperial powers have overwhelmingly determined the structures of world economic government often advancing their own self interests and leading to ruinous resource extraction debt poverty and political and social instability in the Global South He argues that while our current economic system is built upon the politics of and between the world's biggest economies a future of global recovery and the reduction of economic inequality requires the development of multilateral institutions Dramatic and revelatory The Economic Government of the World offers a powerful analysis of the origins of our current global crises and a path toward a fairer international order
