Dotawo Vincent W.J. van Gerven Oei, 2014-06-23 Dotawo A Journal of Nubian Studies offers a platform in which the old meets the new in which archaeological papyrological and philological research into Meroitic Old Nubian Coptic Greek and Arabic sources confront current investigations in modern anthropology and ethnography Nilo Saharan linguistics and critical and theoretical approaches present in post colonial and African studies Dotawo gives a common home to the past

present and future of one of the richest areas of research in African studies. It offers a crossroads where papyrus can meet internet scribes, meet critical thinkers and the promises of growing nations meet the accomplishments of old kingdoms. The third volume of Dotawo, guest edited by Marc Maillot, is dedicated to Know Hows and Techniques in Ancient Sudan. This collection of articles is the result of a workshop held at Lille University on September 5 and 6, 2013, which brought together several Sudanese archaeology scholars from architecture to iron production through pottery and textile industry. Organized by Fa za Drici Marie Evina and Romain David with the support of Charles de Gaulle Lille 3 University and the laboratoire de recherche Halma Ipel UMR 8164 Centre national de recherche scientifique CNRS, this workshop was presided over by Vincent Rondot, present Director of the Egyptian Antiquities Department of the Louvre Museum and former Director of Section française de la direction des antiquités du Soudan SFDAS. The idea of an academic publication of this workshop in Dotawo was presented by Marc Maillot SFDAS in September 2014 during the 13th International Conference for Nubian Studies. The project was warmly welcomed by the editorial committee and gave birth to a fruitful SFDAS Dotawo cooperation that started a year ago.

The Oxford Handbook of Egyptology Ian Shaw, Elizabeth Bloxam, 2020. The Oxford Handbook of Egyptology offers a comprehensive survey of the entire study of ancient Egypt from prehistory through to the end of the Roman period. Transcending conventional boundaries between archaeological and ancient textual analysis and bringing together 63 chapters that range widely across the various archaeological, philological and cultural sub-disciplines authored by recognized experts in their respective fields, it highlights the extent to which the discipline has diversified and stresses the need for it to seek multidisciplinary methods and broader collaborations if it is to remain contemporary and relevant. Authoritative yet accessible, it is an invaluable resource for scholars, students and general readers alike. *The Phoebe A. Hearst Expedition to Deir el-Ballas* Victoria Jensen, 2025-03-24. This lavishly illustrated book presents the unpublished excavations of the Hearst Expedition 1900-1901 at Deir el-Ballas and thus makes a major contribution to the study of the material culture of the early New Kingdom. The site played a major role in the birth of the New Kingdom as a royal campaign headquarters during the wars to expel the Hyksos. For several generations afterwards, a non-elite population lived in the shadow of the abandoned palace in this provincial town. Drawing on meticulous archival research to reconstruct the tomb assemblages, this book reveals the community's funerary practices and considers the cultural memory the residents held of their town's illustrious past.
