The Politics to Come Arthur Bradley, Paul Fletcher, 2010-02-18 The Politics to Come brings together an international collection of thinkers to consider the meaning of liberal democratic modernity at a moment when its future has never been less certain It examines the explosive threats the liberal order confronts today financial meltdown religious extremism environmental catastrophe Yet it also seeks to place these singularly modern crises within a much longer history For the contributors to this collection it is the ancient religious tradition called the messianic that provides the critical lens through which modernity may be interrogated In its ongoing struggles with the messianic liberal modernity confronts the promise and threat of a radically new Politics to Come So what are the Politics to Come How do they manifest themselves throughout history Why does the possibility of a messianic judgement continue to haunt the western political imaginary This collection offers a series of political philosophical and theological perspectives from which the future of liberal modernity if it has one can be imagined

The Metaphysics of Night Matthew Del Nevo, 2017-09-08 The Metaphysics of Night acknowledges a post secular philosophy one that puts philosophy into serious dialogue with religion rather than considering religion a thing of the past Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based He argues for a shift of emphasis in culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture

Head Cases Elaine Miller, 2014-02-25 While philosophy and psychoanalysis privilege language and conceptual distinctions and mistrust the image the philosopher and psychoanalyst Julia Kristeva recognizes the power of art and the imagination to unblock important sources of meaning She also appreciates the process through which creative acts counteract and transform feelings of violence and depression Reviewing Kristeva's corpus Elaine P Miller considers the intellectual's aesthetic idea and thought specular in their capacity to reshape depressive thought on both the individual and cultural level She revisits Kristeva's reading of Walter Benjamin with reference to melancholic art and the imagination's allegorical structure her analysis of Byzantine iconoclasm in relation to Freud's psychoanalytic theory of negation and Hegel

s dialectical negativity her understanding of Proust as an exemplary practitioner of sublimation her rereading of Kant and Arendt in terms of art as an intentional lingering with foreignness and her argument that forgiveness is both a philosophical and psychoanalytic method of transcending a stuck existence Focusing on specific artworks that illustrate Kristeva's ideas from ancient Greek tragedy to early photography contemporary installation art and film Miller positions creative acts as a form of spiritual inoculation against the violence of our society and its discouragement of thought and reflection

Julia Kristeva Sara Beardsworth,2004-09-09 A comprehensive examination of Kristeva s work from the seventies to the nineties **Kristeva, Psychoanalysis and Culture** Sylvie Gambaudo,2016-12-05 Examining Julia Kristeva s contention that contemporary Western society is witnessing a crisis of subjectivity due to the failure of the paternal function Gambaudo places Kristeva s thesis within the context of Freudian psychoanalytic thought and shows how Kristeva defends her position against a cultural climate privileging scientific and cognitive answers to aesthetic concerns Gambaudo argues that while Kristeva s position might be construed as defensive and a reactive clinging on to paternal modes of organisation of subjectivity it also offers a unique and visionary analysis of subjectivity that rescues the paternal project from its decline Eschewing a traditional emphasis on Kristeva s feminism this book s primary interest is located at the intersection between psychoanalysis and culture specifically analysing the superseding of Oedipus by narcissistic organisation **Philosophy**
