Ashplant, Gerry Smyth, 2001-03-20 History is an invention in the present as much as a representation and interpretation of the past This has opened up innovative approaches to the research and writing of history and it is the two ideas central to this theme that culture is historically conditioned and history culturally conditioned that this book explores Both theoretical and practical in its approach this volume explains the development of cultural history and its impact on current teaching Part One examines the ways in which conceptions of historical meaning have been challenged via developments in a range of disciplines including literary and linguistic theory history sociology anthropology media and cultural studies Part Two looks at four case studies drawn from America and Britain the Vietnam Veterans Memorial the music of the Beatles the social documentary of George Orwell and the political polemics of nineteenth century British radical women Transformation in Seventeenth-century China Chun-shu Chang, Shelley Hsueh-lun Chang, 1998 Describes the social and cultural transformation of seventeenth century China through the life and work of Li Yu Narration and Explanation The Theory and Practice of History Leopold von Ranke, 2010-11-01 Leopold von Ranke who was born in ,2021-11-15 1795 is considered to be one of the founders of the modern practice of writing history. This collection of his writings edited and introduced by Georg G Iggers was first published in 1973 and remains the leading collection of Ranke's writings in the English language Now updated with the needs of current students in mind this edition includes previously untranslated materials by the young Ranke focusing particularly on the relationship between history and religion together with his inaugural lecture of 1836 On the Relation and Difference between History and Politics Including pieces on historical science and on the relationship between history and philosophy as well as country specific histories this book is essential reading for all students of historiography Civilization and the Human Subject John Mandalios, 1999-09-08 Recent debates have highlighted the importance of the self to a better understanding of the nature of culture and its relation to power In his new book John Mandalios incorporates the current postmodern debate on these issues with a deeper philosophical exploration of identity and cultural formation and the dynamics of social power underlying them He takes up identity formation within an analysis of the historical social political religious and psychoanalytical dimensions of civilized life that can be traced back to the classical world Questions ordinarily associated with the postmodern condition otherness fragmentation power the situated self disciplinary practices and multiplicity are related to the problematic of human subjectivity and how civilized modes of conduct of the self cannot simply be explained by national cultural traditions Mandalios argues that self identity is not reducible to the effects of globalization or power or any one single collective identity representation. The self is enveloped within a complex which requires a civilization analytic perspective into the world and the inner life Constructing the Past Jacques Le Goff, Pierre Nora, 1985-11-29 This book presents a selection of ten significant contributions of essays to French

Europe during turbulent times The Plain and Noble Garb of Truth Eileen K. Cheng, 2008 American historians of the early national period argues Eileen Ka May Cheng grappled with objectivity professionalism and other modern issues to a greater degree than their successors in later generations acknowledge Her extensive readings of antebellum historians show that by the 1820s a small but influential group of practitioners had begun to develop many of the doctrines and concerns that undergird contemporary historical practice The Plain and Noble Garb of Truth challenges the entrenched notion that America's first generations of historians were romantics or propagandists for a struggling young nation Cheng engages with the works of well known early national historians like George Bancroft William Prescott and David Ramsay such lesser known figures as Jared Sparks and Lorenzo Sabine and leading political and intellectual elites of the day including Francis Bowen and Charles Francis Adams She shows that their work which focused on the American Revolution was often nuanced and surprisingly sympathetic in its treatment of American Indians and loyalists She also demonstrates how the rise of the novel contributed to the emergence of history as an autonomous discipline arguing that paradoxically early national historians at once described truth in opposition to the novel and were influenced by the novel in their understanding of truth Modern historians should recognize that the discipline of history is itself a product of history says Cheng By taking seriously a group of too often dismissed historians she challenges contemporary historians to examine some ahistorical aspects of the way they An Introduction to the Philosophy of History Michael Stanford, 1998-02-04 This book understand their own discipline uncovers the wealth of philosophical problems that history presents and encourages further thought on how these issues grow out of historical questions In Defence of History Richard J. Evans, 2012-11-01 A lucid muscular and often sly reflection on the worth and purpose of historical scholarship by the award winning author of The Third Reich Trilogy Kirkus In this volume the renowned historian Richard I Evans offers a fervent and deeply insightful defense of his craft and its importance to civilization At a time when fact and historical truth are under unprecedented assault Evans shows us why history is necessary Taking us into the historians workshop he offers a firsthand look at how good history gets written In staunch opposition to the wilder claims of postmodern historians Evans thoroughly dismantles the notion that a realistic grasp of history is impossible to attain He then goes on to explain the deadly political dangers of losing a historical perspective on the way we live our lives In the tradition of E H Carr s What Is History and G R Elton s The Practice of History Evans In Defense of History delivers a model of lucid and intelligent historiographical analysis The Guardian UK Story as History - History as Story Samuel Byrskog, 2022-03-16 Please note that this title is only available to customers in the USA Canada and Mexico NO salesrights for Rest of World Samuel Byrskog employs models from the interdisciplinary field of oral history as presented by Paul Thompson coupled with insights from cultural anthropology in order to examine the interaction between the present and the past as the gospel tradition evolved The ancient Greek and Roman historians with their use of eyewitness testimony as sources to the past and as central elements in interpretive and narrativizing processes of the present

serve as the basis for unraveling culture specific patterns of oral history and thus for conceptualizing similar aspects during the development of the gospel tradition Eyewitness testimonies played a central but varying role in early Christianity They were transmitted in the matrix of discipleship where verbal and behavioral traditions were passed on through acts of mimesis The folkloristic notion of re oralization explains how oral accounts regularly interacted with written texts indicating a vivid and engaged relationship to the past as well as the semantic significance of oral communication and performance Factual truth was essential but inseparable from interpreted truth during the course of investigation transmission and composition The gospel tradition developed through a subtle interaction between the unique historic events of the past and the various circumstances of the present The narrative and historical dimensions of a text cannot be separated because the semantic codes of a text are often located in the culture and not in the text itself. The gospels are therefore the synthesis of history and story intertwining the horizons of the past and of the present in their own right What Happened to History? Willie Thompson, 2000-11-20 A study of US imperialism that argues America's leaders have chosen to go to war for influence and power ever since the declaration of independence The Social Science Encyclopedia Adam Kuper, 2003-12-16 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on the key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society The British Marxist Historians Harvey J. Kaye, 2022-09-30 The British Marxist Historians remains the first and most complete study of the founders of one of the most influential contemporary academic traditions in history and social theory. In this classic text Kaye looks at Maurice Dobb and the debate on the transition to capitalism Rodney Hilton on feudalism and the English peasantry Christopher Hill on the English Revolution Eric Hobsbawm on workers peasants and world history and E P Thompson on the making of the English working class Kaye compares their perspective on history with other approaches such as that of the French Annales school and concludes with a discussion of the British Marxist historians contribution to the formation of a democratic historical consciousness The British Marxist Historians is an indispensable book for anyone interested in the intellectual history of the late twentieth century Folds of Past, Present and Future Sarah Van Ruyskensvelde, Geert Thyssen, Frederik Herman, Angelo Van Gorp, Pieter Verstraete, 2021-09-07 This volume brings together

important theoretical and methodological issues currently being debated in the field of history of education The contributions shed insightful and critical light on the historiography of education on issues of de colonization on the historical development of the educational sciences and on the potentiality attached to the use of new and challenging source material Miliukov and the Quest for a Liberal Russia, 1880-1918 Melissa Kirschke Stockdale, 1996 Paul N Miliukov was one of the most formidable intellectual and political forces of Russia's late imperial period A historian of international reputation Miliukov eventually became the principal theoretician and leader of Russian liberalism He helped found the country's first liberal political party led the party s faction in the Duma and edited an influential liberal daily In 1917 Miliukov took the lead in organizing the first Provisional Government Working tirelessly for a liberal order committed to social reform as well as political liberties and the rule of law Miliukov also strove to reconcile liberalism and nationalism championing the rights of national minorities while trying to promote the cohesion of the increasingly fragile empire Melissa Kirschke Stockdale s biography of Miliukov s life in Russia is the most comprehensive available in any language Drawing on his enormous published oeuvre and the five thousand folders of his personal archives in Moscow many never before available to Western scholars Stockdale examines Miliukov s contributions to Russian historiography liberal thought and nationality relations teases out the connections between his historical writing and his political practice and assesses his career in both a European and a Russian context In so doing she illuminates the dilemmas involved in constructing a workable liberalism in an illiberal climate dilemmas with a startling contemporary relevance
