Firstly, the novel itself is a complex piece of literature, filled with intricate themes, rich symbolism, and profound social commentary. Twentieth-Century Sentimentalism Jennifer A. Williamson, 2013-12-15 Today s critical establishment assumes that sentimentalism is an eighteenth and nineteenth century literary mode that all but disappeared by the twentieth century In this book Jennifer Williamson argues that sentimentalism is alive and well in the modern era By examining working class literature that adopts the rhetoric of feeling right in order to promote a proletarian or humanist ideology as well as neo slave narratives that wrestle with the legacy of slavery and cultural definitions of African American families she explores the ways contemporary authors engage with familiar sentimental clichés and ideals Williamson covers new ground by examining authors who are not generally read for their sentimental narrative practices considering the proletarian novels of Grace Lumpkin Josephine Johnson and John Steinbeck alongside neo slave narratives written by Margaret Walker Octavia Butler and Toni Morrison Through careful close readings Williamson argues that the appropriation of sentimental modes enables both sympathetic thought and systemic action in the proletarian and neo slave novels under discussion She contrasts appropriations that facilitate such cultural work with those that do not including Kathryn Stockett s novel and film *The Help* The book outlines how sentimentalism remains a viable and important means of promoting social justice while simultaneously recognizing and exploring how sentimentality can further white privilege Sentimentalism is not only alive in the twentieth century It is a flourishing rhetorical practice among a range of twentieth century authors who use sentimental tactics in order to appeal to their readers about a range of social justice issues This book demonstrates that at stake in their appeals is who is inside and outside of the American family and nation

Combating Injustice Jon Falsarella Dawson, 2022-05-04 In *Combating Injustice* Jon Falsarella Dawson approaches American literary naturalism as a means of social criticism exploring the powerful economic arguments and commentaries on labor struggles presented in novels by Frank Norris Jack London and John Steinbeck Making use of extensive archival research Dawson considers many of the original periodical sources that fueled books from *McTeague* to *The Grapes of Wrath* as Norris London and Steinbeck transformed contemporary materials into illustrations of the socioeconomic forces that

shape American life By depicting the operations of powerful individuals and institutions these naturalist writers offered audiences a greater awareness of the plight of labor so that readers might find the inspiration to become agents of change Works such as *The Octopus* *The Iron Heel* *Martin Eden* and *In Dubious Battle* illuminate many of the central economic issues at play in the United States during the late nineteenth and early twentieth centuries including the rise of commodity culture labor disputes involving industrial and agricultural workers widespread poverty extreme inequality and the concentration of resources and land ownership Norris London and Steinbeck highlighted the dangers of these developments by charting their impact on central characters whose fates result from the predatory tactics of corporate monopolies wealthy individuals and large financial establishments Dawson's lucid analysis shows how all three writers drawing on contemporary events accentuated the need for reform and stressed the potential for change by human action Each author took inspiration from notable events in California ranging from the Mussel Slough tragedy of 1880 to the agricultural strikes in the Central Valley during the 1930s presenting the state as a microcosm for conditions throughout the nation during a period of tremendous upheaval

The Angelic Mother and the Predatory Seductress Ashley Craig Lancaster, 2012-06-20 In *The Angelic Mother and the Predatory Seductress* Ashley Craig Lancaster examines how converging political and cultural movements helped to create dualistic images of southern poor white female characters in Depression era literature While other studies address the familial and labor issues that challenged female literary characters during the 1930s Lancaster focuses on how the evolving eugenics movement reinforced the dichotomy of altruistic maternal figures and destructive sexual deviants According to Lancaster these binary stereotypes became a new analogy for hope and despair in America's future and were well utilized by Depression era politicians and authors to stabilize the country's economic decline As a result the complexity of women's lives was often overlooked in favor of stock characters incapable of individuality Lancaster studies a variety of works including those by male authors William Faulkner Erskine Caldwell and John Steinbeck as well as female novelists Mary Heaton Vorse Myra Page Grace Lumpkin and Olive Tilford Dargan She identifies female stereotypes in classics such as *To Kill a Mockingbird* and in the work of later writers Dorothy Allison and Rick Bragg who embrace and share in a poor white background *The Angelic Mother and the Predatory Seductress* reveals that these literary stereotypes continue to influence not only society's perception of poor white southern women but also women's perception of themselves
