New Families No Families The Transformation Of The American Home:

New Families, No Families? Frances K. Goldscheider, Linda J. Waite, 1991-01-01 **The Changing American Family** Scott J South, Stewart Tolnay, 2019-06-26 In this book leading authorities on the family show how families parents and children have been affected by changing patterns of marriage and cohabitation Taking a long historical perspective some authors consider trends such as the decline of multigenerational families and group differences in the relationships between economic opportunity and the timing of marriage But the focus is predominantly on questions of current interest patterns of union formation differences between marriage and cohabitation contact between divorced fathers and their children the division of household labor and the transmission of attitudes and behavior across generations Intended for scholars and advanced students this book offers essential analysis of the changing dimensions of the American family *Handbook of the Sociology of Gender* Janet Saltzman Chafetz, 2006-11-22 During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present Intrapsychic interactional and collective social processes are gendered as are micro meso and macro social structures Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non academic activist thinkers However while incorporating some cross disciplinary material this volume focuses specifically on sociological theories and research concerning gender which are discussed across the full array of social processes structures and institutions As editor I have explicitly tried to shape the contributions to this volume along several lines that reflect my long standing views about sociology in general and gender sociology in particular First I asked authors to include cross national and historical material as much as possible This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective Too often American sociology has been both tempero and ethnocentric Second I have asked authors to be sensitive to within gender differences along class racial ethnic sexual preference and age cohort lines Contemporary Introduction to Sociology Jeffrey C. Alexander, Kenneth Thompson, Laura Desfor Edles, 2016-01-08 The first edition of A Contemporary Introduction to Sociology was the first truly new introductory sociology textbook in decades Written by two leading sociologists at the cutting edge of theory and research the text reflected the idioms and interests of contemporary American life and global social issues The second edition continues to invite students to reflect upon their lives within the context of the combustible leap from modern to postmodern life The authors show how culture is central to understanding many world problems as they challenge readers to confront the risks and potentialities of a postmodern era in which the futures of both the physical and social environment seem uncertain As culture rapidly changes in the 21st century the authors have broadened their analysis to cover

developments in social media and new data on gender and transgender issues **Situating Feminism** Sondra Farganis, 1994-06-07 Feminist theory has undergone continuous evolution since its recognized establishment in 1963 Sondra Farganis's insightful volume revisits feminist philosophy's turbulent beginnings and explores the myriad political and social factors influencing its development during the past three decades The author also considers the interaction between feminism and the greater women's movement discussing not only the commonalities but the differences among women of various cultures and experiences Finally she recounts four of the most controversial women centered court cases of recent years identifying elements of feminist theory and how they affected or were affected by the social and political context in which they occurred Inspiring new directions in critical thought and theoretical advancement *Situating Feminism* will prove an essential resource for students and professionals in the areas of women's and culture studies political science social work communication and psychology Sondra Farganis does not shy away from rigorous arguments or moral issues dealing directly with the relationship of postmodernism and feminism and the concerns that the former undermines the latter She capably moves among writers like Berger and Luckman Freire Habermas and Butler Ultimately the strength of this book is its ability to present a wide range of feminist political and social theories in a coherent fashion while demonstrating its application to actual real life situations Affilia Sondra Farganis has written a concise study on the situation of feminist thought in relation to contemporary social controversies She analyzes the Nussbaum domestic violence and victimization Baby M motherhood and surrogacy Sears employment and affirmative action and Hill Thomas race and sexual harassment cases in a broad theoretical context Farganis outlines major themes and conflicts within feminist thought illustrating how these played out in the resolution of the cases Choice *Perspectives on Ecclesiology and Ethnography* Pete Ward, 2012-03-15 Within the disciplines of religious studies systematic theology and practical theology there exists a divide between empirical and theological analyses of the church Each volume in the cross disciplinary series *Studies in Ecclesiology and Ethnography* attempts to address this gap by exploring the methodological and substantive issues that arise from both theological and empirical studies of the church's practices and social reality *Perspectives on Ecclesiology and Ethnography* the inaugural volume in the series proposes that if theology is to regain its relevance to the church today theologians must utilize ethnographical tools in order to provide more accurate disciplined research that is situated in real contexts Using ethnography in its broadest sense encompassing any form of qualitative research this volume proposes that the church is both theological and social cultural which implies the need for a methodological shift for researchers in theology Contributions from twelve scholar practitioners lead the way forward Contributors Luke Bretherton Paul S Fiddes Nicholas M Healy Mary McClintock Fulkerson Alister E McGrath Richard R Osmer Elizabeth Phillips Christian Scharen John Swinton Pete Ward Clare Watkins John Webster *Marriage and Cohabitation* Arland Thornton, William G. Axinn, Yu Xie, 2008-09-15 In an era when half of marriages end in divorce cohabitation has become more commonplace and those who do get married

are doing so at an older age So why do people marry when they do And why do some couples choose to cohabit A team of expert family sociologists examines these timely questions in *Marriage and Cohabitation* the result of their research over the last decade on the issue of union formation Situating their argument in the context of the Western world's 500 year history of marriage the authors reveal what factors encourage marriage and cohabitation in a contemporary society where the end of adolescence is no longer signaled by entry into the marital home While some people still choose to marry young others elect to cohabit with varying degrees of commitment or intentions of eventual marriage The authors' controversial findings suggest that family history religious affiliation values projected education lifetime earnings and career aspirations all tip the scales in favor of either cohabitation or marriage This book lends new insight into young adult relationship patterns and will be of interest to sociologists historians and demographers alike

The Changing Transition to Adulthood Francis Goldscheider, Calvin Goldscheider, 1999-06-14 This book places changes in leaving and returning home in the context of the major events of 20th century America The authors examine the reasons children ultimately leave home to live on their own and how the pattern has changed throughout the 20th century Using data from the National Survey of Families and Households Goldscheider and Goldscheider have constructed these patterns for when children leave home and what the most important criteria for doing so are to different groups in America including men women Blacks Hispanics Whites and different religious groups and social classes

Handbook of the Life Course Jeylan T. Mortimer, Michael J. Shanahan, 2007-12-14 This comprehensive handbook provides an overview of key theoretical perspectives concepts and methodological approaches that while applied to diverse phenomena are united in their general approach to the study of lives across age phases In surveying the wide terrain of life course studies with dual emphases on theory and empirical research this important reference work presents probative concepts and methods and identifies promising avenues for future research

Encyclopedia of Women and Gender, *Reading History Sideways* Arland Thornton, 2013-09-27 European and American scholars from the eighteenth through the mid twentieth centuries thought that all societies passed through the same developmental stages from primitive to advanced Implicit in this developmental paradigm one that has affected generations of thought on societal development was the assumption that one could read history sideways That is one could see what the earlier stages of a modern Western society looked like by examining contemporaneous so called primitive societies in other parts of the world In *Reading History Sideways* leading family scholar Arland Thornton demonstrates how this approach though long since discredited has permeated Western ideas and values about the family Further its domination of social science for centuries caused the misinterpretation of Western trends in family structure marriage fertility and parent child relations Revisiting the developmental fallacy Thornton here traces its central role in changes in the Western world from marriage to gender roles to adolescent sexuality Through public policies

aid programs and colonialism it continues to reshape families in non Western societies as well *Continuity and Change in Family Relations* Rand D. Conger, Frederick O. Lorenz, K.A.S. Wickrama, 2004-04-12 The chapters in this volume were developed as a follow up to the Summer Institute entitled Continuity and Change Family Structure and Process conducted by the second Family Research Consortium The goal of this book is to provide readers with a greater understanding of both the conceptual issues involved in the study of continuity and change in families and also some of the methodological approaches that have been developed for investigating families over time *Place, Identity and Everyday Life in a Globalizing World* Harvey Perkins, David C. Thorns, 2017-09-16 How do our everyday environments inform our activities routines and encounters In what way has globalization affected the sites in which we work relax and interact Is there still a place for local identity in a globalized age This book examines the ways in which we use local spaces and global processes to shape our identities Showing how enhanced tourism communication developments and increased diversity have effected the way we live every day the text also explains how individuals communities and cities react to such globalizing forces on a local level Each chapter unravels complex connections between place identity and global processes and carefully outlines what core theory can tell us about key contemporary debates including surveillance environmental change and sustainability Taking examples from urban and rural life shopping malls and virtual worlds the book encourages us to look at our immediate surroundings in a sociological light Highlighting the interdependence of space and society in a rapidly changing world this text is essential reading for those studying place and identity in Sociology Cultural Studies Geography Urban Studies and Rural Studies

Conceptualizing and Measuring Father Involvement Randal D. Day, Michael E. Lamb, 2003-10-03 After decades of focusing on the mother's role in parenting family studies researchers have turned their attention to the role of the father in parenting and family development The results shed new light on childhood development and question conventional wisdom by showing that beyond providing the more traditional economic support of the family fathers do indeed matter when it comes to raising a child Stemming from a series of workshops and publications sponsored by the Family and Child Well Being Network under the federal fatherhood initiative of the National Institute of Child Health and Development this comprehensive volume focuses on ways of measuring the efficacy of father involvement in different scenarios using different methods of assessment and different populations In the process new research strategies and new parental paradigms have been formulated to include paternal involvement Moreover this volume contains articles from a variety of influences while addressing the task of finding the missing pieces of the fatherhood construct that would work for new age as well as traditional and minority fathers The scope of this discussion offers topics of interest to basic researchers as well as public policy analysts Discourses on Gender and Sexual Inequality Marla Kohlman, Dana Balsink Krieg, 2017-10-06 This edited collection examines the significance of Sandra L Bem's research for current debates on gender and gender roles in the social sciences with contributions that question how the institution of gender has been and remains deeply contested **Israeli**

Society in the Twenty-First Century Calvin Goldscheider, 2015-06-02 A data based analysis of social life and social problems in contemporary Israel that draws a vivid portrait of a dynamic and rapidly changing society Family, Law, and Community Margaret F. Brinig, 2010-05-15 In the wake of vast social and economic changes the nuclear family has lost its dominance both as an ideal and in practice Some welcome this shift while others see civilization itself in peril but few move beyond ideology to develop a nuanced understanding of how families function in society In this provocative book Margaret F Brinig draws on research from a variety of disciplines to offer a distinctive study of family dynamics and social policy Concentrating on legal reform Brinig examines a range of subjects including cohabitation custody grandparent visitation and domestic violence She concludes that conventional legal reforms and the social programs they engender ignore social capital the trust and support given to families by a community Traditional families generate much more social capital than nontraditional ones Brinig concludes which leads to clear rewards for the children Firmly grounded in empirical research Family Law and Community argues that family policy can only be effective if it is guided by an understanding of the importance of social capital and the advantages held by families that accrue it The Jewish People Policy Planning Institute Planning Assessment, 2004-2005 Sergio Della Pergola, Jewish People Policy Planning Institute, 2005 This volume comprises three main parts The first includes five broad overviews of the current status of Jewish affairs The second part includes six chapters each of which reviews the main recent trends and policy issues relevant to Jewish life in six world regions which articulate contemporary Jewish life North America Latin America Europe and the European Union the Former Soviet Union Asia Africa and the Pacific and Israel The third part introduces an overview of the goals and tasks accomplished by the main Jewish institutions and organizations worldwide in the definition and defense of Jewish interests **The Case for Marriage** Linda Waite, Maggie Gallagher, 2002-03-05 A groundbreaking look at marriage one of the most basic and universal of all human institutions which reveals the emotional physical economic and sexual benefits that marriage brings to individuals and society as a whole The Case for Marriage is a critically important intervention in the national debate about the future of family Based on the authoritative research of family sociologist Linda J Waite journalist Maggie Gallagher and a number of other scholars this book's findings dramatically contradict the anti marriage myths that have become the common sense of most Americans Today a broad consensus holds that marriage is a bad deal for women that divorce is better for children when parents are unhappy and that marriage is essentially a private choice not a public institution Waite and Gallagher flatly contradict these assumptions arguing instead that by a broad range of indices marriage is actually better for you than being single or divorced physically materially and spiritually They contend that married people live longer have better health earn more money accumulate more wealth feel more fulfillment in their lives enjoy more satisfying sexual relationships and have happier and more successful children than those who remain single cohabit or get divorced The Case for Marriage combines clearheaded analysis penetrating cultural criticism and practical advice for strengthening the

institution of marriage and provides clear essential guidelines for reestablishing marriage as the foundation for a healthy and happy society A compelling defense of a sacred union The Case for Marriage is well written and well argued empirically rigorous and learned practical and commonsensical William J Bennett author of The Book of Virtues Makes the absolutely critical point that marriage has been misrepresented and misunderstood The Wall Street Journal www.broadwaybooks.com
