Lesbians in East Asia Diana Khor, Saori Kamano, 2013-01-11 Discover the courageous vibrant similarities and differences of lesbians in East Asia How are same sex relationships similar or different in the cultures of East Asia Lesbians in East Asia Diversity Identities and Resistance is a unique examination of research and vital issues involving lesbians and lesbianism in East Asia using perspectives by academics and activists who typically are rarely published in English Contributing experts from Hong Kong mainland China Japan and Korea discuss a variety of topics including solidarity and conflicts between lesbians and feminists identities and identity politics lesbian lives and families and representation in mainstream culture Asia because of its inherent language and cultural differences from Western society is a location of a vast unrealized fount of knowledge about same sex relationships and the societies in which they interact Lesbians in East Asia Diversity Identities and Resistance begins to fill this gap in knowledge going beyond East West divisions by gathering in one volume studies in Asia lesbian queer studies of both the West and Asia The text s emphasis is on points of connection and cooperation across the cultures within Asia and between this region and other areas of the world Diverse viewpoints and research on lesbians in China Hong Kong South Korea and Japan are presented showing issues and concerns that may be different and often are very similar to regions beyond those borders Topics in Lesbians in East Asia Diversity Identities and Resistance include lesbian rights and feminism in Korea emotional damage suffered in family work and school contexts including self denial analysis of Internet exchanges in China highlighting those feeling that they should maintain a low profile and others showing disdain toward the lesbian lifestyle gender inequality and discrimination and their effects on self sufficiency the effects of expectations of marriage or remaining single on economics legal standpoints and in school ignorance and intolerance in Korean and Japanese societies identity politics conflicts of ideas between lesbians and feminists and much more Lesbians in East Asia Diversity Identities and Resistance is important illuminating reading for academics and students in women s studies gender studies queer sexuality studies East Asian studies and activists in feminist movements

Sex, Feminism and Lesbian Desire in Women's Magazines Kate Farhall, 2020-09-14 This book examines evolving pop culture representations of sex and relationships from the 1970s onwards to demonstrate parallels between the strength of the feminist movement and positive portrayals of women s sexuality In charting changes in the sex and relationship content of women s magazines over time this analysis reveals that despite surface level changes in sexual and relationship content the underlying paradigm of hetero monogamy remains unchanged Despite a seemingly more diverse empowered and liberated sexuality for women in contemporary magazines in reality such feminist rhetoric masks an enduring model of sexuality which rests on women s sexual and emotional maintenance of male partners and their own self objectification and self surveillance Where substantive changes can be identified they rise and fall in tandem with feminism By demonstrating this empirical relationship between cultural products and feminist organising the book validates an assumption that has

rarely been tested that a feminist social milieu improves cultural narratives about sexuality for women Sex Feminism and Lesbian Desire builds on ground breaking feminist texts such as Susan Faludi's Backlash to present an empirically focused comprehensive study interrogating changes in content over the lifetime of women's magazines By charting the representation of sex and relationships in two women's magazines Cosmopolitan and Cleo since the 1970s through an analysis of over 6 500 magazine pages and 1 500 articles this timely work interrogates and ultimately complicates the apparent linear progression of feminism This book is suitable for researchers and students in women's and gender studies queer studies LGBT studies media studies cultural studies and sociology **The Lesbian Revolution** Sheila

Jeffreys,2018-09-03 The Lesbian Revolution argues that lesbian feminists were a vital force in the Women's Liberation Movement WLM They did not just play a fundamental role in the important changes wrought by second wave feminism but created a powerful revolution in lesbian theory culture and practice Yet this lesbian revolution is undocumented The book shows that lesbian feminists were founders of feminist institutions such as resources for women survivors of men's violence including refuges and rape crisis centres and that they were central to campaigns against this violence They created a feminist squatting movement theatre groups bands art and poetry and conducted campaigns for lesbian rights They also created a profound and challenging analysis of sexuality which has disappeared from the historical record They analysed heterosexuality as a political institution arguing that lesbianism was a political choice for feminists and indeed a form of resistance in itself Using interviews with prominent lesbian feminists from the time of the WLM and informed by the author's personal experience this book aims to challenge the way the work and ideas of lesbian feminists have been eclipsed and to document the lesbian revolution The book will be of key interest to scholars and students of women's history the history of feminism the politics of sexuality women's studies gender studies lesbian and gay studies queer studies and cultural studies as well as to the lay reader interested in the WLM and feminism more generally Lesbian Sources Linda
