Our Responsibility To One Another A Vision Of Human Progress For The Third Millenium:

The Millennium Development Goals and Human Rights Malcolm Langford,Andy Sumner,Alicia Ely

Yamin,2013-09-16 The Millennium Development Goals MDGs have generated tremendous discussion in global policy and academic circles On the one hand they have been hailed as the most important initiative ever in international development On the other hand they have been described as a great betrayal of human rights and universal values that has contributed to a depoliticization of development With contributions from scholars from the fields of economics law politics medicine and architecture this volume sets out to disentangle this debate in both theory and practice It critically examines the trajectory of the MDGs the role of human rights in theory and practice and what criteria might guide the framing of the post 2015 development agenda The book is essential reading for anyone interested in global agreements on poverty and development

Peace on Earth Edwin Jones,2016-05-27 This book posits that it is not possible for a civilization to maintain a human and humane culture without the assistance of religion Religion can be misused or abused into having a negative effect but an authentic religion when properly managed is the only effective source of durable common and humane values throughout society Religion s assertion of the existence of God who alone provides the transcendent power is the only logical basis for asserting and maintaining common values for all people going far above and beyond the indiscriminate and multifarious opinions of diverse and imperfect human beings Some people can maintain certain values derived from their own consciences but human history and psychoanalysis shows that the majority of people cannot sustain a whole culture or civilization from a purely utilitarian and materialistic basis Human nature is imperfect and needs the help of a transcendent power to support its spiritual needs in a humane society and to create a culture or civilization that lasts The Mirage of Dignity on the

Highways of Human 'Progress' Lukman Harees,2012-01-16 The Modern Man is hypocritically boasting of unprecedented material progress in a world where inter alia millions daily go to bed hungry die or get killed through unwanted wars and preventable causes live in inhumane conditions vulnerable being exploited with ever widening inequality and might still ruling over right in international relations even in the post UDHR era an indictment on the collective conscience of mankind Besides the flame of materialism has been devouring time tested moral values causing chaos within the basic unit in society the family and relegating Man and his dignity to the level of animals and even manipulating his identity Therefore questions arise Is Moral law fading are political economic systems and institutions like UN failing in realizing the lofty goal of affording due dignity basic rights and social justice humanity deserves Can the bystanders be mere onlookers anymore This book seeks to dispassionately survey the yawning gap between the rhetoric and the ground reality in bringing about dignity and social justice for humanity from bystanders perspective in the light of these questions and underlines the imperative need for moral progress to go hand in hand to make Man assume his due role as the trustee on earth It also exhorts bystanders to close ranks as human dignity champions rights defenders identity protectors against onslaughts from power hungry politicians
