**Our Sacred Honor** William John Bennett,1997 It is time to profit from their advice *America the Strong* William J. Bennett,John T. E. Cribb,2015-09-22 We live in a culture that often dismisses and ridicules conservative values By the time liberal professors the news media and Hollywood get through with them many young Americans are convinced conservative means extremist and intolerant It s a distortion that endangers America s future Bill Bennett and coauthor John Cribb explain what conservatism really means using five fundamental principles summarized by the word FLINT Free enterprise Limited government Individual liberty National defense and Traditional values America the Strong shows the next generation how these principles have made the United States a great nation and why they are worth preserving It answers more than one hundred questions from Do conservatives hate the government to What s wrong with having an open border to Why can t rich people pay all the taxes Discover a strong clear conservative vision of America for the next generation Proceedings of ... National Convention of the American Legion American Legion. National Convention,2001 *The Power of the Herd* Linda Kohanov,2015-07-20 Linda Kohanov is beloved for her groundbreaking articulation of the way of the horse an experiential wisdom known to riders for centuries but little studied or adapted to off horse use Now Kohanov takes those horse inspired insights on the nonverbal elements of exceptional communication and leadership into the realms of our workplaces and relationships Here we explore the benefits of nonpredatory power in developing assertiveness fostering creativity dealing with conflict and heightening mind body awareness In A Brief History of Power the first part of this far reaching book Kohanov profiles cultural innovators who employed extraordinary nonverbal leadership skills to change history usually on horseback Winston Churchill George Washington Alexander the Great and Siddhartha Gautama the Buddha among others She also draws on the behavior of mature horse herds as well as the herding cultures of Africa and Mongolia to debunk theories of dominance hierarchies challenge ingrained notions of survival of the fittest and demonstrate the power of a consensual leadership in which governing roles are fluid Kohanov then adapts these lessons into twelve powerful guiding principles we can all incorporate into our work and personal lives Eloquent and provocative this is horse sense for everyone who seeks to thrive in the herds we all run in our communities careers families and friendships **America's Choice** Tad R. Callister,2022-10-05 BLESSED IS THE NATION WHOSE GOD IS THE LORD Psalms 33 12 America imperfect as it may be is still the shining light on the hill to all the world But it is now at a crossroad Will we choose to be a nation under God or without God America s Choice examines the overwhelming evidence of God s hand in the destiny of America the divine calling of the Founding Fathers their understanding that the Constitution is dependent upon a moral people that morality requires religion and that religion s purpose is to seek God s will Accordingly America s Choice explores God s will on critical moral matters such as the role of religion in the public sector abortion zero population growth and capitalism vs socialism It proposes the ultimate solution to our country s ills namely a return to faith and family In so doing this book challenges those

revisionist historians judicial activists and secularists who would transform us from a nation under God to a nation without God In essence this book gives us cause to reaffirm our faith in America In the 20 years I have lived in the United States I have seen a shift in the way people think and talk about this country My reading of the situation is this nothing is more essential to the United States than asking Why does this country exist To what end was it created And then reading original sources of its founding to discover the breathtaking answers Answers that are brilliantly illustrated by Tad Callister in America's Choice Greg McKeown New York Times Bestselling Author of ESSENTIALISM and EFFORTLESS America-A Purpose-Driven Nation Philip Michael Pantana (Sr.),2007-11 Pantana focuses on 95 essential themes of conservatism and presents a plan for reversing the current secular trends in force today Christian **American Tax Resisters** Romain D. Huret,2014-04-15 American Tax Resisters gives a history of the anti tax movement that for the past 150 years has pursued limited taxes on wealth and battled efforts to secure social justice through income redistribution It explains how a once marginal ideology became mainstream elevating individual entrepreneurialism over sacrifice and solidarity **Our Country's Founders** William J. Bennett,2001-06 A book of advice from our nation's founders on how to be a good citizen and a worthy member of civil society Thomas Paine and the Promise of America Harvey J. Kaye,2007-04-15 This acclaimed biography provides the most comprehensive assessment yet of the Founding Father's controversial reputation Joseph J Ellis The New York Times Book Review After leaving London for Philadelphia in 1774 Thomas Paine became one of the most influential political writers of the modern world and the greatest radical of a radical age Through writings like Common Sense he not only turned America's colonial rebellion into a revolutionary war but as Harvey J Kaye demonstrates articulated an American identity charged with exceptional purpose and promise Thomas Paine and the Promise of America fiercely traces the revolutionary spirit that runs through American history and demonstrates how that spirit is rooted in Paine's legacy With passion and wit Kaye shows how Paine turned Americans into radicals and how we have remained radicals ever since **Heart of the Nation** John M. Bridgeland,2012-12-19 From the bunker below the White House on 9/11 to villages in Africa the author shares his own experiences inside and outside of government to spark more Americans to volunteer to meet urgent needs **The Constitutional Convention of 1787** John R. Vile,2005-06-24 The first encyclopedic treatment of the personalities politics and events involved in drafting the U S Constitution This comprehensive treatment of all the personalities philosophies debates and compromises involved in drafting the U S Constitution is the first encyclopedic work on the subject compiling information into an easily accessible A Z format Biographies of all 55 delegates analysis of the competing political viewpoints procedural and substantive disputes along with a host of other details are all presented here Both the detail and the scholarship in this book are unmatched in any other work the encyclopedic presentation simply does not exist elsewhere Civil liberties the scope of authority of the three branches of government and other constitutional matters are increasingly at the forefront of public discussion Scholars citizens interested in self education and reference librarians

faced with questions about the Constitution will find in this book all they require to answer their needs **Proceedings of**  
**... National Convention of the American Legion** American Legion. Annual National Convention, 2001 *Financial*  
*Statement and Audit of the American Legion* American Legion. National Convention, 2000 **America's Destiny: Choosing**  
**God's Will or Ours (A Historical & Latter-day Saint Perspective)** Tad R. Callister, 2023-07-10 America's Destiny sets  
 forth compelling evidence of America's divine origin and destiny that it was a nation founded upon divine providence not  
 coincidence as testified repeatedly by the Founding Fathers respected historians and statesmen This revised edition also  
 adds numerous scriptures and statements from prophets of God attesting to this truth With that perspective America's  
 Destiny asks the question that should be on all of our minds What is the greatest challenge facing our nation today and how  
 should we confront it in a way that pleases God The economy national security immigration gun control poverty racism crime  
 national pandemics climate change While each of these is a valid concern and deserves attention none of them strikes at the  
 heart of our greatest challenge namely finding a way to build stronger homes and bring about a return to family God and  
 moral values To put our prime focus on challenges other than these is to strike at the leaves not the root of the problem It is  
 now our choice and America's choice to place our trust in the wisdom of God or the wisdom of the world to be a nation under  
 God or without God If we become a nation under God then we become eligible to receive the promise Blessed is the nation  
 whose God is the Lord Psalm 33:12 **Revolution** Michael L. Brown, 2020-10-06 A revolution of repentance by the power of  
 the Holy Spirit is needed in the church to bring renewal to a hurting nation After reading Revolution you will understand  
 what a biblical revolution looks like and how to implement it starting within your own heart and going outward from there  
 This book is not a call to the violent overthrow of the government nor is it a call to take up arms nor is it a call to political  
 activism in and of itself It is a call to something far more extreme a call to live out the gospel with all its radical claims a call  
 for the people of God to impact this generation with the prophetic message of repentance a call to spark the most sweeping  
 counterculture movement in our nation's history a call to take back the moral high ground that has been stolen from under  
 our feet a call to follow Jesus by life or by death Revolution answers such questions as What is the role of the Christian and  
 the church during these tumultuous times How are we to respond to the racial upheaval happening in our nation What is the  
 church's role in healing the divide in our fractured divided country Dr Brown turns up the volume in this call to God's  
 remnant people to pray repent and act according to the teachings of Jesus who is calling us to holy revolution *Through*  
*Our Enemies' Eyes* Michael Scheuer, 2006 This seminal work on modern terrorism is the one book to read in order to truly  
 understand the reasons why radical Muslims such as Osama bin Laden and his followers have declared war on America and  
 the West In order to win the war against terrorism argues Michael Scheuer former head of the CIA's Bin Laden Unit we must  
 first stop dismissing militant Muslims as extremists or religious fanatics Formulating a successful military strategy requires  
 that we see the enemy as they perceive themselves highly trained and motivated soldiers who believe their cause is righteous

This revised paperback edition provides a more extensive study of Osama bin Laden and the sources of his thought Scheuer has added a good deal of bin Laden s words focusing on those issues that have been most misunderstood or ignored and therefore are most in need of exposition These include bin Laden s personality his early years as a nonviolent Saudi dissident and reformer the causes motivating al Qaeda and its allies especially their perception that U S foreign policy threatens Islam s survival bin Laden s long history of interest in and support for the Palestinian cause against Israel his evolutionary growth as an Islamic hero and leader between 1996 and 2001 and the profound impact the Afghan Soviet War had and continues to have on bin Laden al Qaeda and worldwide Sunni Islamic militancy Only by understanding these words can the West appreciate the threat it faces and formulate a strategy to defeat it
