Naturally Curious Mary Holland,2018-04-01 Are you ready for a glimpse into the dark subterranean world of the star nosed mole A barred owl s late winter call to take on new meaning The life cycle of the eastern newt to suddenly seem complex beautiful and intricately bound to mysterious underwater landscapes and damp forest floors *Naturalist* and

environmental educator Mary Holland's visually astounding book *Naturally Curious* promises a walk in the woods or a field or wetland will never be the same. With boundless enthusiasm and a lifetime's worth of natural history knowledge, Holland escorts you through the New England seasons month by month in sun, rain, and snow along roadsides and riverbanks, above burrows and under treetop nesting sites. Beginning with March and its early stirrings of life awakening after a long cold winter and ending in February as survival becomes the sole focus of all plants and creatures great and small, Holland provides hundreds of fascinating Nature Notes. These bite-size nuggets of fact-based information detail a species' actions in a particular month, whether courting, breeding, singing, burrowing, migrating, or caching food, for example. In addition, you'll find pertinent lists of the amphibians, reptiles, birds, mammals, insects, and arachnids and plants and fungi you might expect to see or hear from as the weeks go by. But that's not all. Each month culminates in specially chosen essays where Holland gets up close and personal with New England plant and animal life and some of their more intriguing typicalities and peculiarities, illustrating their impact on the region and those who share it. Throughout the many exciting and varied worlds of the Northeast explode upon the page in an unmatched visual display of full-color photographs. From the minutiae of the migration of the tiny snow flea on a warm winter's day to the massive wallowing practices of the bull moose in rut, this is the region and its inhabitants like you've never seen them before. By deftly melding the practical field guide we all need with the kind of book we all want to sit back and read, Holland does New England and those who live in it, visit it, and love it an immense service. Adults and children alike are sure to be fascinated by the natural world in this book, in their backyard and even further afield. *Naturally Curious* is truly an into-this-world experience.
