## **Our War Was Different Marine Combined Action Platoons In Vietnam:**

**Our War was Different** Albert Hemingway, 1994 Shares the experiences and observations of Marines who were part of the CAP or Combined Action Program one of the few successes in Vietnam *The Marines, Counterinsurgency, and Strategic Culture* Jeannie L. Johnson, 2018 The US Marine Corps has traditionally been one of the most innovative branches of the US military but even it has struggled to learn and retain lessons from past counterinsurgency wars Jeannie L. Johnson looks at the clash between strategic culture and organizational learning through the US Marine Corps's long experience with counterinsurgency She first undertakes a fascinating examination of what makes the Marines distinct their identity norms values and perceptual lens To do this Johnson uses an innovative framework for analyzing strategic culture Next she traces the history of the Marines counterinsurgency experience from the expeditionary missions of the early twentieth century through the Vietnam War and finally to the Iraq War She shows that even a service as self-aware and dedicated to innovation as the US Marine Corps is significantly constrained in the lessons learned process by its own internal predispositions Even when internal preferences can be changed ingrained biases endemic to the broader US military culture and American public culture create barriers to learning **U.S. Marines and Irregular Warfare, 1898-2007**, 2008 Product Description Since the tragic events of 9/11 and the consequent advent of the Global War on Terrorism there has been a remarkable surge of interest in counterinsurgency This anthology presents 27 articles on counterinsurgency and irregular warfare particularly highlighting and examining the US Marine Corps roles in conflicts from 1898 through 2007 It also includes an extensive bibliography of works on these conflicts Continuing discussion and study of these subjects is of critical importance to the ongoing efforts of the United States and its allies in the Global War on Terrorism The anthology is divided broadly into two halves the first half presents historical examples of counterinsurgency involving the United States from the Philippines and the Banana Wars up through Vietnam while the second half addresses the nation's contemporary efforts in this regard Articles cover the situations in Iraq Afghanistan and the Horn of Africa The selected bibliography addresses a broad range of subjects on higher end operational strategic level of war considerations on geopolitical context and on a varied array of related topics political theory historical case studies failed states cultural studies and analysis and many others that all provide context or play a role in conducting a counterinsurgency and achieving success in the realm of irregular warfare Colonel Stephen S. Evans USMCR researched and compiled this work as a field historian with the Marine Corps History Division He has experience at various operational levels both joint and multinational in CONUS and overseas and has performed duty with all three MEFs MARFORLANT MARFOREUR and US forces in Korea He has also held a range of positions in administrative and educational roles at Quantico and the Pentagon Colonel Evans holds a doctorate in history from Temple University and has published two historical monographs *Special Warfare*, 2000 **Understanding U.S. Military Conflicts through Primary Sources** James R. Arnold, Roberta Wiener, 2015-11-12 An easily accessible resource

that showcases the links between using documented primary sources and gaining a more nuanced understanding of military history Primary source analysis is a valuable tool that teaches students how historians utilize documents and interpret evidence from the past This four volume reference traces key decisions in U S military history from the Revolutionary War through the 21st century conflicts in Afghanistan and Iraq by examining documents relating to military strategy and national policy judgments by U S military and political leaders A comprehensive introductory essay provides readers with the context necessary to understand the relationship between diplomatic documents military correspondence and other documentation related to events that shaped warfare diplomacy and military strategy Once the stage is set the work covers 14 conflicts that are significant to U S history Treatment of each of the conflicts begins with a historical overview followed by a chronology and approximately 30 primary source documents presented in chronological order Each document is accompanied by a description and annotations and by an analysis that highlights its importance to the event or topic under discussion Designed for secondary school and college students the work will be exceptionally valuable to teachers who will appreciate the ready made lessons that fit directly into core curriculum standards

*United States Marine Reconnaissance in the Vietnam War* Leo J. Daugherty III, 2024-03-29 Tracing the history of U S Marine Force and Battalion Reconnaissance from its formation in 1898 through its operations during the Vietnam War 1963 1971 this book provides insight into Force Recon s selection training and deployment Emphasis on actions with the South Vietnamese ARVN highlights important lessons for today s Special Forces community illustrating the inter service cooperation of Recon operations Firsthand accounts of Marines who served are included along with photographs maps and appendices

Counterinsurgency, Security Forces, and the Identification Problem Jr Magruder, 2017-07-28 This book presents a theory and empirical evidence for how security forces can identify militant suspects during counterinsurgency operations A major oversight on the part of academics and practitioners has been to ignore the critical antecedent issue common to persuasion and coercion counterinsurgency COIN approaches distinguishing friend from foe This book proposes that the behaviour of security forces influences the likelihood of militant identification during a COIN campaign and argues that security forces

must respect civilian safety in order to create a credible commitment to facilitate collaboration with a population This distinction is important as conventional wisdom has wrongly assumed that the presence of security forces confers control over terrain or influence over a population Collaboration between civilian and government actors is the key observable indicator of support in COIN Paradoxically this theory accounts for why and how increased risk to government forces in the short term actually improves civilian security in the long run Counterinsurgency Security Forces and the Identification Problem draws on three case studies the Huk Rebellion in the Philippines post World War II Marines Corps experiences in Vietnam through the Combined Action Program and Special Operations activities in Iraq after 2003 For military practitioners the work illustrates the critical precursor to establishing security during counterinsurgency operations The book also examines the role and limits of modern technology in solving the identification problem This book will be of interest to students of counterinsurgency military history strategic studies US foreign policy and security studies in general U.S.

**Jungle of Snakes** James R. Arnold, 2010-07-06 A former CIA director presents a history of modern warfare that evaluates how the post cold war era has been fraught by such challenges as terrorism insurgency and guerilla tactics in an account that also discusses America s struggles for civilian support and the nation s failure to learn from past mistakes throughout the occupation of Iraq Reprint The Soul of Armies Austin Long, 2016-03-01 For both the United States and United

Kingdom counterinsurgency was a serious component of security policy during the Cold War and along with counterterrorism has been the greatest security challenge after September 11 2001 In The Soul of Armies Austin Long compares and contrasts counterinsurgency operations during the Cold War and in recent years by three organizations the US Army the US Marine Corps and the British Army Long argues that the formative experiences of these three organizations as they professionalized in the nineteenth century has produced distinctive organizational cultures that shape operations Combining archival research on counterinsurgency campaigns in Vietnam and Kenya with the author s personal experience as a civilian advisor to the military in Iraq and Afghanistan The Soul of Armies demonstrates that the US Army has persistently conducted counterinsurgency operations in a very different way from either the US Marine Corps or the British Army These differences in conduct have serious consequences affecting the likelihood of success the potential for civilian casualties and collateral damage and the ability to effectively support host nation governments Long concludes counterinsurgency operations are at best only a partial explanation for success or failure *American Naval Forces in the Vietnam War* Al

Hemingway, 2004-12-15 Describes the experiences of American naval forces during the Vietnam War **Military**

**Decision-Making Processes** Kevin Dougherty, 2013-11-01 President Bill Clinton speaking as might any commander in chief on the eve of his decision to deploy ground troops to Bosnia in 1995 declared he had no responsibility more grave than putting soldiers in harm s way Such a statement suggests that a study of the decision making process associated with the

weighty matters of using force would be enlightening. Indeed, it is. The decision making process is far from standardized nor is it simple. While all individuals associated with important decisions about national security and the lives of America's service members take their responsibilities seriously, the processes by which they reach their conclusions are varied and complicated. The book traces eight traditional and emerging theories or models of decision making by first explaining the components of each model and then by analyzing its practical application through three case studies. Each chapter concludes with a discussion of the utility and explanatory power of the particular model. Instructors considering this book for use in a course may request an examination copy here.

**Grunts** John C. McManus, 2010-08-03 A superb book, an American equivalent to John Keegan's *The Face of Battle*. I sincerely believe that *Grunts* is destined to be a classic. Dave Grossman, Author of *On Killing* and *On Combat*. From the acclaimed author of *The Dead* and *Those About to Die* comes a sweeping narrative of six decades of combat and an eye-opening account of the evolution of the American infantry. From the beaches of Normandy and the South Pacific Islands to the deserts of the Middle East, the American soldier has been the most indispensable and most overlooked factor in wartime victory. In *Grunts*, renowned historian John C. McManus examines ten critical battles from Hitler's massive assault on U.S. soldiers at the Battle of the Bulge to counterinsurgency combat in Iraq, where the skills and courage of American troops proved the crucial difference between victory and defeat. Based on years of research and interviews with veterans, this powerful history reveals the ugly face of war in a way few books have and demonstrates the fundamental and too often forgotten importance of the human element in serving and protecting the nation.

**The Combined Action Platoons** Michael Peterson, 1989-06-26 This is the first comprehensive history for the academic reader of the Combined Action Program (CAP) in Vietnam. Created as a response by the U.S. Marines to what was known as the other war in Vietnam, the CAP Program was comprised of platoons, each combining a fourteen-man Marine rifle squad, a Navy corpsman, and a platoon of South Vietnamese militia. These CAP units were unique to the war. Their function was to capture and hold rather than to search and destroy. While the main forces of the Army and Marines all too often waged war on the Vietnamese hamlets, the CAP Marines waged war from the hamlets. Their intent was to keep the hamlet intact. The uniqueness of the CAP Program justifies this study not only from an historical and political perspective but also sociologically. The CAP Marines were among the few Americans who lived with the Vietnamese in their own setting for long periods of time, developing community projects and civic action programs. The 1980s has brought about a resurgence of valuable research, the declassification of official documentation, and most important, an emotional distance from the trauma of defeat. The author takes full advantage of these conditions to present a thorough and comprehensive history and civic program analysis. Many critics of the Vietnam War now agree that the tactics of the Combined Action Program were among the most promising of the war. The CAP Marines fought a deadly and personal war with the Viet Cong and the North Vietnamese Army. In this volume, the author achieves his twofold objective. He not only provides a valuable historical account of the Program but also analyzes the civic action and

community development projects undertaken by the CAP Marines His study is done with an eye to the future as U S counterinsurgency has again found expression in other Third World conflicts Vietnam Spencer C. Tucker,2002-11-01 A comprehensive overview of warfare in Vietnamese history from the early efforts to free themselves from Chinese control through the Indo China and Vietnam Wars the Vietnamese invasion of Cambodia up to the Sino Vietnamese War in 1979 Concentrating on the Vietnam War the author explores the conflict from the Vietnamese perspective demonstrating how for many Vietnamese the war was merely one of a long series of struggles against foreign domination Encompassing socio political economic diplomatic and cultural issues this text provides an introduction to Vietnam s military history and will be of interest to students of 20th century American and Asian history *Proceedings of the United States Naval Institute* United States Naval Institute,1994 Supplement to Vietnam 1964-1973 Elwood L. White,2005 This bibliography is a supplement to the Special Bibliography Series Number 80 compiled in 1990 to support the 14th Military History Symposium It is primarily intended as a listing of scholarly works completed since 1990 on the Vietnam War although some works prior to that date are included The bibliography is selected from the holdings on that war housed in the McDermott library United States Air Force Academy and includes books journal articles government publications and technical reports Newspaper articles works of fiction collections of poetry and most personal narratives are not included The Clark Special Collections Branch of the library has extensive primary source materials and artifacts focused on American POW experiences in Southeast Asia Those items are also excluded from this bibliography since they are limited to in house use only Individuals wanting information about that collection should contact the Special Collections Curator and Academy Archivist
