Our Shadowed Present Modernism Postmodernism And History:

Our Shadowed Present J. C. D. Clark, 2004 This important and stimulating volume seeks to defend the value of historical understanding in the face of social scientific and especially postmodernist criticisms of historical method and the usefulness of history for understanding the present Clark argues that modernism and postmodernism can both be explained historically that we cannot emancipate ourselves from the past that historical identities are deeply rooted and that the interplay of ideas in the public arena frequently disguises these truths but does not abolish them Our Shadowed Present J. C. D. Clark, 2003 At a time of the widespread rejection of history by politicians and intellectuals Jonathan Clark's new book is a landmark defence of continuity a key account of how public morality civic involvement and our sense of tradition depend on what historians write Our Shadowed World Dominic Kirkham, 2019-08-08 Civilization is often equated with the story of human advancement and progress Yet it is also the story of human oppression exploitation war and empire In our own time modern global civilization has brought us to the brink of planetary destruction By offering an understanding of our past this book aims to provide a stimulus to considering a different future Our Shadowed World considers how we have been brought to this point It describes how the fragmented and conflicted state of humanity has progressed from the earliest city states to the devastation of world war and holocaust how civilization has brought its own form of savagery What beliefs have underlain and motivated human action How have humans tried to understand their world Driven by the relentless quest for power by greed and by extreme beliefs the human enterprise today has placed the very idea of civilization under threat the subject of radical questioning Despite a new ecological awareness dedicated to saving the planet from civilization's carelessness and a preoccupation with the nature of apocalyptic thinking a question mark looms over the very survival of humanity in its present state a question mark that now overshadows the world **Radical voices, radical ways** Laurent Currelly, Nigel Smith, 2016-10-30 This collection of essays studies the expression and diffusion of radical ideas in Britain from the period of the English Revolution in the mid seventeenth century to the Romantic Revolution in the early nineteenth century The essays included in the volume explore the modes of articulation and dissemination of radical ideas in the period by focusing on actors radical voices and a variety of written texts and cultural practices radical ways ranging from fiction correspondence pamphlets and newspapers to petitions presented to Parliament and toasts raised in public They analyse the way these media interacted with their political religious social and literary context This volume provides an interdisciplinary outlook on the study of early modern radicalism with contributions from literary scholars and historians and uses case studies as insights into the global picture of radical ideas It will be of interest to students of seventeenth and eighteenth century literature and history *The Execution of Admiral John Byng as a Microhistory of Eighteenth-Century Britain* Joseph J. Krulder, 2021-04-26 According to Voltaire's *Candide* Admiral John Byng's 1757 execution went forward to encourage the others Of course the story is more complicated This microhistorical account upon a macro event presents an updated revisionist and detailed

account of a dark chapter in British naval history Asking what was Britain like the moment Byng returned to Portsmouth after the Battle of Minorca 1756 not only returns a glimpse of mid eighteenth century Britain but provides a deeper understanding of how a wartime admiral the son of a peer of some wealth a once colonial governor and sitting member of parliament came to be scapegoated and then executed for the failings of others This manuscript presents a cultural social and political dive into Britain at the beginning of the Seven Years War Part 1 focuses on ballad newspaper and prize culture Part 2 makes a turn towards the social where religion morality rioting and disease play into the Byng saga Admiral Byng's record during the 1755 Channel Campaign is explored as is the Mediterranean context of the Seven Years War troubles elsewhere in the empire and then the politics behind Byng's trial and execution [Superpower Struggles J.](#)

Redwood,2005-03-22 Since the war in Iraq of 2003 relations between the USA and the EU have been strained and the UK has been increasingly regarded as the US Government's only dependable ally In this new book John Redwood examines the growing conflicts between an EU flexing its muscles against the USA and the dominance of the US global economy and military machine He points to the phenomenal rise of China to say that whilst eyes are fixed on the EU superstate experiment the real events that will shape the world in the next 50 years are unfolding on the other side of the globe To maintain a position of influence in the world he writes that the UK must renegotiate with the EU and keep open its links to Asia and the USA the true battle for supremacy will not be between the EU and the USA but between Asia and the USA and it is already underway **Patriotism and Public Spirit** Ian Crowe,2012-08-22 Patriotism and Public Spirit is an innovative study of the formative influences shaping the early writings of the Irish English statesman Edmund Burke and an early case study of the relationship between the business of bookselling and the politics of criticism and persuasion Through a radical reassessment of the impact of Burke's Irishness and of his relationship with the London based publisher Robert Dodsley the book argues that Burke saw Patriotism as the best way to combine public spirit with the reinforcement of civil order and to combat the use of coded partisan thinking to achieve the dominance of one section of the population over another No other study has drawn so extensively on the literary and commercial network through which Burke's first writings were published to help explain them By linking contemporary reinterpretations of the work of Patriot sympathizers and writers such as Alexander Pope and Lord Bolingbroke with generally neglected trends in religious and literary criticism in the Republic of Letters this book provides new ways of understanding Burke's early publications The results call into question fundamental assumptions about the course of Enlightenment thought and challenge currently dominant post colonialist and Irish nationalist interpretations of the early Burke [National Pasts in Europe and East Asia](#) Peter Wallace Preston,2010 With the rise of industrial capitalism in Europe and the related imposition of colonial rule in much of East Asia both Europe and East Asia have intertwined histories that continue to shape their political thinking and political decision making The contemporary interactions of the two regions now once again major trading partners will both depend upon and facilitate deeper

understandings of their respective sets of national pasts This book compares national pasts as well as the current processes of change taking place in Europe and East Asia including the dynamics of the European Union in Europe and the re emergence of the historical centre of China in East Asia It argues that as the change unfolds in the economic social and political fields the various national pasts embedded with the polities of the two regions will also need to be revisited and reworked This book makes an invaluable contribution to research on comparative politics as well as studies on South East Asia and Europe

Medieval Foundations of International Relations William Bain, 2016-07-15 The purpose of this volume is to explore the medieval inheritance of modern international relations Recent years have seen a flourishing of work on the history of international political thought but the bulk of this has focused on the early modern and modern periods leaving continuities with the medieval world largely ignored The medieval is often used as a synonym for the barbaric and obsolete yet this picture does not match that found in relevant work in the history of political thought The book thus offers a chance to correct this misconception of the evolution of Western international thought highlighting that the history of international thought should be regarded as an important dimension of thinking about the international and one that should not be consigned to history departments Questions addressed include what is the medieval influence on modern conception of rights law and community how have medieval ideas shaped modern conceptions of self determination consent and legitimacy are there medieval answers to modern questions is the modern world still working its way through the Middle Ages to what extent is the modern outlook genuinely secular is there a theology of international relations what are the implications of continuity for predominant historical narrative of the emergence and expansion of international society Medieval and modern are certainly different however this collection of essays proceeds from the conviction that the modern world was not built on a new plot with new building materials Instead it was constructed out of the rubble that is the raw materials of the Middle Ages This will be of great interest to students and scholars of IR IR theory and political theory

What Might Have Been? Andrew Roberts, 2010-08-26 A dozen star historians on what might have happened at history s turning points if the dice had fallen differently Stimulating provocative and playful Literary Review Throughout history great and terrible events have often hinged upon luck Andrew Roberts has asked a team of twelve leading historians and biographers what might have happened if major world events had gone differently Each concentrating in the area in which they are a leading authority historians as distinguished as Antonia Fraser Gunpowder Plot Norman Stone Sarajevo 1914 and Anne Somerset the Spanish Armada consider What if Robert Cowley demonstrates how nearly Britain won the American war of independence Following her acclaimed GEORGIANA Amanda Foreman muses on Lincoln s Northern States of America and Lord Palmerston s Great Britain going to war as they so nearly did in 1861 Whether it s Stalin fleeing Moscow in 1941 Simon Sebag Montefiore or Napoleon not being forced to retreat from it in 1812 Adam Zamoyski the events covered here are important world changing ones

Relocating England Peter Wallace Preston, 2004 Relocating England considers the

implications of the rise of the European Union for the ways in which people in the UK think of themselves as political actors The book considers whether the elite ideas of Britain Britishness might be breaking down thereby opening up the possibility of a broadly based re animation of the ideas of England Englishness Such a political cultural project would imply great changes within the UK democratisation Europeanisation and modernisation It is a threat to the elite but it is an opportunity for the ordinary English The book follows in the footsteps of those scholars who have criticised the conservatism of the UK political establishment their obsession with the special relationship with the USA and their blithe disregard of the benefits of the mainland model of progressive social market democracy *The Founding of the Dutch Republic* James Tracy,2008-01-24 James D Tracy offers a major re evaluation of the Dutch Revolt and its role in the creation of a new Republic He draws extensively on State records to illuminate the dominant influence of provincial towns in formulating a coherent strategy for the war

The Interpretation of Samuel Johnson J. Clark,H. Erskine-Hill,2012-06-12 A major academic controversy has raged in recent years over the analysis of the political and religious commitments of Samuel Johnson the most commanding of the commanding heights of eighteenth century English letters This book one of a trilogy from Palgrave brings that debate to a decisive conclusion retrieving the historic Johnson Thomas Paine J. C. D. Clark,2018-03-16 Thomas Paine 1737 1809 was England s greatest revolutionary no other reformer was as actively involved in events of the scale of the American and French Revolutions and none wrote such best selling texts with the impact of Common Sense and Rights of Man No one else combined the roles of activist and theorist or did so in the age of revolutions fundamental as it was to the emergence of the modern world But his fame meant that he was taken up and reinterpreted for current use by successive later commentators and politicians so that the historic Paine was too often obscured by the usable Paine J C D Clark explains Paine against a revised background of early and mid eighteenth century England He argues that Paine knew and learned less about events in America and France than was once thought He de attributes a number of publications and passages hitherto assumed to have been Paine s own and detaches him from a number of causes including anti slavery women s emancipation and class action with which he was once associated Paine s formerly obvious association with the early origin and long term triumph of natural rights republicanism and democracy needs to be rethought As a result Professor Clark offers a picture of radical and reforming movements as more indebted to the initiatives of large numbers of men and women in fast evolving situations than to the writings of a few individuals who framed lasting and eventually triumphant political discourses Social Conflict in the Age of Justinian Peter N. Bell,2013-04-04 Social Conflict in the Age of Justinian explores a range of often violent conflicts across the whole empire during AD 527 565 These conflicts were reflected at the ideological level and lead to intense persecution of intellectuals and Pagans as an ever more robust Christian ideological hegemony was established Ireland Paul Bew,2007-08-16 The modern Irish question is defined by many as a case of a great and supposedly liberal nation supposedly mistreating a smaller one This text embodies a new approach to this issue analysing key issues from religious

discrimination and famine to the passions of both nationalism and unionism **Italian Fascism and the Female Body**

Gigliola Gori, 2012-12-06 This is the first text to examine women and sport in Italy during the period 1861-1945 To qualify and quantify the impact of fascism on Italian Women's sport the author first of all examines the pre-fascist period in terms of female physical culture The text then describes how during the fascist era women moved strictly within a framework designed by medicine and eugenics religious and traditional education The country aspired to emancipation as promised by the fascist revolution but emancipation was hard to advance under the fascist regime because of male hegemonic trends in the country This book shows how the engagement of women in some sporting activity did promote and support some gender emancipation The conclusion of the book demonstrates how in the post-war period women found it hard to advance further on for a number of reasons **Religion, Reform and Modernity in the Eighteenth Century** Robert G. Ingram, 2007 A

new interpretation of English history and religion in the eighteenth century The eighteenth century has long divided critical opinion Some contend that it witnessed the birth of the modern world while others counter that England remained an ancient regime confessional state This book takes issue with both positions arguing that the former overstate the newness of the age and largely misdiagnose the causes of change while the latter rightly point to the persistence of more traditional modes of thought and behaviour but downplay the era's fundamental uncertainty and misplace the reasons for and the timeline of its passage The overwhelming catalyst for change is here seen to be war rather than long-term social and economic changes Archbishop Thomas Secker 1693-1768 the Cranmer or Laud of his age and the hitherto neglected church reforms he spearheaded form the particular focus of the book this is the first full archivally based study of a crucial but frequently ignored figure ROBERT G INGRAM is Assistant Professor at the Department of History Ohio University *The Turn to Transcendence* Glenn W. Olsen, 2012-07-30 Phenomenal A must read for us who desire to topple the dictatorship of relativism

and culture of death and replace it with the only alternative The Imaginative Conservative Especially concerned with the public nature of religion historian Glenn W Olsen author of *Christian Marriage A Historical Study* and *On the Road to Emmaus* The Catholic Dialogue with American and Modernity sets forth an exhaustively researched and persuasive account of how religion has been reshaped in the modern period The Turn to Transcendence traces both the loss of transcendence and attempts to recover it while making its own proposals Neither reactionary nor modernist it questions how under conditions of modern life some form of the sacred and some form of the secular might both flourish at the same time But it also provides a warning that a religion unable to maintain itself with its own overt architecture language and calendars against an enveloping secular culture is destined for oblivion Glenn Olsen's book could hardly be more pivotal or insightful Confronting the growing amnesia regarding culture's religious origin and transcendent purpose Olsen proves both a masterful cartographer of modernity and a visionary of a culture that encourages and enables us to seek beyond ourselves Carl A Anderson Supreme Knight of the Knights of Columbus A brilliant book It rests on an amazing amount of scholarship

that is wide ranging in history literature art science music theology and philosophy James Hitchcock professor of history St Louis University From Castle Rackrent to Castle Dracula Paul E. H. Davis, 2011 Paul E H Davis and the Irish Land Question In his challenging new book Paul E H Davis offers an entirely new critique of how novelists in nineteenth century Ireland had to act both as writers and historians in their attempts to find a solution to what became the Irish Land Question Challenging the widely held nationalist view that Irish novelists of this period had little or nothing to offer Davis slots these castaway novelists into a new identifiable category the agrarian novelists The book is divided into three parts Part One considers novelists writing between the Union and the Famine Maria Edgeworth Gerald Griffin John and Michael Banim and William Carleton Part Two looks at how the agrarian novel emigrates with reference to the novels of Charles Kickham and to the Irish novels of Anthony Trollope Part Three considers how some agrarian novelists specifically Thomas Moore and Bram Stoker felt the solution lay not in the real world but in the world of fantasy An exceptional book on why the agrarian novelists deserve to be valued for their unique perception of Ireland in the nineteenth century
