How should Germany commemorate the mass murder of Jews once committed in its name? In 1997, James E. Young was invited to join a German commission appointed to find an appropriate design for a national memorial in Berlin to the European Jews killed in World War II. As the only foreigner and only Jew on the panel, Young gained a unique perspective on Germany's fraught efforts to memorialize the Holocaust. In this book, he tells for the first time the inside story of Germany's national Holocaust memorial and his own role in it. In exploring Germany's memorial crisis, Young also asks the more general question of how a generation of contemporary artists can remember an event like the Holocaust which it never knew directly. Young examines the works of a number of vanguard artists in America and Europe, including Art Spiegelman, Shimon Attie, David Levinthal, and Rachel Whiteread, all born after the Holocaust but indelibly shaped by its memory as passed down through

memoirs film photographs and museums In the context of the moral and aesthetic questions raised by these avant garde projects Young offers fascinating insights into the controversy surrounding Berlin s newly opened Jewish museum designed by Daniel Libeskind as well as Germany s soon to be built national Holocaust memorial designed by Peter Eisenman Illustrated with striking images in color and black and white At Memory s Edge is the first book in any language to chronicle these projects and to show how we remember the Holocaust in the after images of its history Feminist Theatrical Revisions of Classic Works Sharon Friedman,2014-01-10 Re visioning the classics often in a subversive mode has evolved into its own theatrical genre in recent years and many of these productions have been informed by feminist theory and practice This book examines recent adaptations of classic texts produced since 1980 influenced by a range of feminisms and illustrates the significance of historical moment cultural ideology dramaturgical practice and theatrical venue for shaping an adaptation Essays are arranged according to the period and genre of the source text re visioned classical theater and myth e g Antigone Metamorphoses Shakespeare and seventeenth century theater e g King Lear The Rover nineteenth and twentieth century narratives and reflections e g The Scarlet Letter Jane Eyre A Room of One s Own and modern drama e g A Doll House A Streetcar Named Desire Playing with Purpose Mary M Gergen,Kenneth J Gergen,2012-04-30 Mary M and Kenneth J Gergen make a strong case for enriching the social sciences through performative work establishing a framework for performative research and including many of their own performance works *Interfaces* Sidonie Smith,Julia Watson,2002 Charts the ways that woman artists have represented themselves and their life stories **Ottomiller's Index to Plays in Collections** John Henry Ottomiller,Denise L. Jeffrey Ringer,1994 In many arenas the debate is raging over the nature of sexual orientation Queer Words Queer Images addresses this debate but with a difference arguing that homosexuality has become an issue precisely because of the way in which we discuss debate and communicate about the concept and experience of homosexuality The debate over homosexuality is fundamentally an issue of communication as we can see by the recent controversy over gays in the military This controversy termed by one gay man as the annoying habit of heterosexual men to overestimate their own attractiveness has been debated in communication

sensitive terms such as morale and discipline The twenty chapters address such subjects as gay political language homosexuality and AIDS on prime time television the politics of male homosexuality in young adult fiction the identification of female athleticism with lesbianism the politics of identity in the works of Edmund White and coming out strategies This is must reading for students of communication practices and theory and for everyone interested in human sexuality

Creating the Self in the Contemporary American Theatre Robert J. Andreach, 1998 Exploring the theatre from the 1960s to the present Robert J Andreach shows the various ways in which the contemporary American theatre creates a personal theatrical and national self Andreach argues that the contemporary American theatre creates multiple selves that reflect and give voice to the many communities within our multicultural society These selves are fragmented and enclaved however which makes necessary a counter movement that seeks through interaction among the various parts to heal the divisions within between and among them Book Jacket
