Out Of Assa Heart Of The Congo Medical Adventures In Central Africa:

Out of Assa Glenn W. Geelhoed, 2000 This is a true story about Dr Geelhoed's medical volunteerism in a small village in The Democratic Republic of the Congo It is a journalistic account of his most recent visit to Assa during the summer of 1998 The book is a rich portrait of the people and problems of a small impoverished village in the Congo Ravaged by continuing civil war persistent poverty and disease and neglected by all but plunderers the resilient people of Assa manage to survive doing more with less Their spirit proves to him and to you that there is more than beasts birds and bush in the Congo there is Heart in the Darkness

THE FREE CHURCH MONTHLY Various, 1884 **Popular Mechanics**, 1944-11 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it's practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle

Mission to Heal Glenn Geelhoed, 2014-01-07 Teaching and healing in a remote and precarious land Some might ask why Dr Glenn Geelhoed has the right to make wrenching life and death decisions about the impoverished people he treats Simply where he travels there is no one else to make them This is especially true in the Central African Republic where the so called government provides no security and no infrastructure Mission to Heal is the story of several weeks in the CAR teaching healing and learning This is a tale of Western and indigenous caregivers operating side by side on the fringes of surgical civilization Day by day Glenn and his teams operate without electricity with limited supplies often with only local anesthesia Their patients are stoic and the supporting caregivers are resourceful and generous in the extreme Many believe that the Zande and Mbororo people in this region very near the most remote point on the African continent are beyond help Yet Glenn tells a different story sometimes tragic but frequently funny and often hopeful Despite the backdrop of marauding invaders refugee camps and a deep history of geopolitical instability Glenn works with the local people to develop a sustainable healthcare program work he has been doing around the world for more than forty years The feats of his caregiving teams and the indigenous communities in which they work reveal a crucial lesson for our time humility perseverance and resilience can be effective weapons against some of the world's greatest problems
