Out Of Control Global Turmoil On The Eve Of The 21st Century:

Out of Control Zbigniew Brzezinski, 2010-11-30 Brzezinski provides a stark and realistic look at the world's economy and moral crisis in a brilliant analysis of today's geopolitical order. If America is to reassert its moral legitimacy, Brzezinski argues, it must address its basic dilemmas, including deepening poverty, inadequate health care and education, a greedy wealthy class opposed to progressive taxation, and the mass media's promotion of sex and violence. In the new world of rival global power clusters, Brzezinski urges a greater role for the United Nations and redistribution of responsibilities within the trilateral nexus of Europe, America, and East Asia. Understanding Europe (The Works of Christopher Dawson) Christopher Dawson, 2009 In a time of remarkable but selective amnesia in the West reflected perhaps most dramatically in the denial of the Christian roots of Europe in the first drafts of the European constitution, *Understanding Europe* is as relevant today as it was on its first appearance in 1952. Christopher Dawson wrote of the uneasiness that characterized twentieth-century Western civilization in the aftermath of two disastrous global conflicts and the attempt to build a new secular civilization on impersonal economic forces. He desired a unified Europe, but one unified by a common Christian religion. Recognizing the emphasis on economic utility and mass productivity in European culture, Dawson argued that a renewed study of Christian faith and culture was essential in order to recover the deeper sense of European unity. In *Understanding Europe*, Dawson expresses a desire for Europe to rediscover and renew its foundational Christian sources in order to recover a deeper sense of integrity. This edition includes an introduction by George Weigel.

Weapons Proliferation and World Order Brad Roberts, 2023-09-29 With the end of the Cold War, the subject of weapons proliferation has acquired new interest and prominence. So too have questions about the nature of the world order that will succeed the structure of the last fifty years. This study explores the connections among these topics. It describes the prevailing conceptual model of nuclear proliferation, evaluates proliferation's changing technical features, considers economic and political factors bearing on its future rate and character, and speculates about proliferation's implications on the post-cold-war world order. It also considers the role of international public policy in meeting proliferation's challenges. Arguing that updated approaches are needed, the analysis emphasizes cooperative over coercive approaches to order. It concludes with an assessment of progress to date in meeting these new challenges, arguing that the new agenda is only slowly coming into focus.

Criminology, Civilisation and the New World Order Wayne Morrison, 2013-10-18 Expertly authored by the co-editor of the best-selling text *Cultural Criminology Unleashed*, this book re-examines criminology in a global context. Wide-ranging and up-to-date, it covers the topics of colonialism and post-colonialism, genocide, state control, the impact of September 11th, and the post-9/11 world. Exploring the relationship between a modern discipline and modernity, it reworks the history and composition of criminology in light of September 11th and the prevalence of genocide in modernity. Analyzing statistics, anthropology, and the everyday assumptions of criminology's history, this text addresses the political and scholarly

grip on the territorial state and the absence of a global criminology Rejecting the prevalent belief that September 11th and the responses it evoked were exceptions that either destroyed or revealed the absence of global legal order the author argues that in fact they confirm the nature of the world order of modernity A compelling and topical volume this is a must read for anyone interested or studying in the areas of criminology and criminal justice

A Global Ethic for Global Politics and Economics Hans Kung, 1998-04-16 As the twentieth century draws to a close and the rush to globalization gathers momentum political and economic considerations are crowding out vital ethical questions about the shape of our future Now Hans Kung one of the world's preeminent Christian theologians explores these issues in a visionary and cautionary look at the coming global society How can the new world order of the twenty first century avoid the horrors of the twentieth Will nations form a real community or continue to aggressively pursue their own interests Will the Machiavellian approaches of the past prevail over idealism and a more humanitarian politics What role can religion play in a world increasingly dominated by transnational corporations Kung tackles these and many

other questions with the insight and moral authority that comes from a lifetime's devotion to the search for justice and human dignity. Arguing against both an amoral realpolitik and an immoral resurgence of laissez faire economics, King defines a comprehensive ethic founded on the bedrock of mutual respect and humane treatment of all beings that would encompass the ecological, legal, technological, and social patterns that are reshaping civilization. If we are going to have a global economy, a global technology, a global media, King argues we must also have a global ethic to which all nations and peoples of the most varied backgrounds and beliefs can commit themselves. The world, he says, is not going to be held together by the Internet. For anyone concerned about the world we are creating, *A Global Ethic for Global Politics and Economics* offers equal measures of informed analysis, compassionate foresight, and wise counsel. **Reinventing Leadership** Barbara Kellerman, 1999-02-11 In a striking departure from past practices, Barbara Kellerman explores the fact that although we persist in viewing political and business leadership separately, the similarities between them far outweigh the differences. Kellerman claims that thinking of government and corporate leaders as a breed apart contributes to the dysfunctional gap between them, and she argues that in order to tackle those political, economic, and social problems that are the most intractable, political and business leaders will have no choice but to work together. **The Mind of Pope Francis** Massimo Borghesi, 2018-10-04 A commonly held impression is that Pope Francis is a compassionate shepherd and determined leader, but that he lacks the intellectual depth of his recent predecessors. Massimo Borghesi's *The Mind of Pope Francis: Jorge Mario Bergoglio's Intellectual Journey* dismantles that image. Borghesi recounts and analyzes for the first time Bergoglio's intellectual formation, exploring the philosophical, theological, and spiritual principles that support the profound vision at the heart of this pope's teaching and ministry. Central to that vision is the church as a *coincidentia oppositorum*, holding together what might seem to be opposing and irreconcilable realities. Among his guiding lights have been the Jesuit saints Ignatius and Peter Faber, philosophers Gaston Fessard, Romano Guardini, and Alberto Methol Ferrer, and theologians Henri de Lubac and Hans Urs von Balthasar. Recognizing how these various strands have come together to shape the mind and heart of Jorge Mario Bergoglio offers essential insights into who he is and the way he is leading the church. Notably, this groundbreaking book is informed by four interviews provided to the author via audio recordings by the pope himself on his own intellectual formation, major portions of which are published here for the first time. **The Twentieth Century's Quest for Closure** Sandra G.
