The Art of Educational Leadership Fenwick W. English, 2007-08-14 English successfully challenges the established educational community to rethink the current state of research on school leadership in the social sciences The inclusion of theory discourse and stories of recognized leaders followed by chapter learning extensions that include key concepts movie recommendations and prompted reflective journaling makes this book a most valuable resource for the educational leadership community H J Bultinck CHOICE The Art of Educational Leadership provides one of the most complete examinations of leadership that I have encountered I admire the way it urges students to think and reflect The format allows individual learners to focus on those materials that best fit their learning style while the numerous presentations of a single topic through the different modalities strengthens the learning This text is a fresh new look at leadership Louise L MacKay East Tennessee State University Fenwick W English returns to themes of leadership he explored in more than 20 earlier books and dozens of presentation to educator audiences He favors re centering educational leadership in the humanities rather than acting on the recommendation of the business literature and he emphasizes the use of films as a way to humanize leadership concepts THE SCHOOL ADMINISTRATOR Excellent cogent analysis of key concepts of leadership are presented in a reader friendly style Saul B Grossman Temple University Moves beyond established notions of leadership to recognize that effective leading is about drama and performance artistry The Art of Educational Leadership Balancing Performance and Accountability stresses the human side of leadership No other text on this topic demonstrates so ably the importance of artistry in leadership in a field that has been lopsidedly dominated by concepts informed by science Presenting the idea that leadership is an art this book Exemplifies a balance between the science and the art of educational leadership The real improvement of practice is rooted in the art of application which is about context and represents the key to leadership practice Connects content material to self discovery Exercises at the end of each chapter include creating a personal reflective journal to engage the reader in and reflect upon theories and practices presented in the book Films are suggested for viewing to illustrate the interaction between context culture decisions and outcomes Portrays multicultural leadership in action Biography boxes throughout the book share how multicultural educational and political leaders who have been recognized as expert practitioners learned the art of leadership in the public arena This is the first book in educational leadership to sketch out a balance between the science and the art of the field The text illustrates how performance and practice represent the art while the delineation of the skills and conceptual models represent the science

A Time For Soldiers: A Civil War Journey Volume 1 James Edwards Jr., 2013-05 Today is May 1 1917 Word has just come to me that several local boys have been drafted to fight the war in Europe This one is called The Great War It s been raging since

August 1914 President Wilson asked the Congress for a declaration of war last month He got it Hundreds of thousands have died already Now many of our own good boys will die War is a chronic condition and stupid I was that young when I first went off to war fifty seven years ago I was twenty one about the same age as these kids I had no idea that I was entering my own personal season in hell when I joined up with a New York volunteer regiment These young men are about to march off to another war another cause Many will die uselessly on torn up battlefields that nobody will remember except the men who fight there I still see those faces in the distance on a hillside at a place called Gettysburg I see myself young but no longer a boy My innocence was a fa ade War is butchery and I experienced it close up I was part of a monster trained to overwhelm and destroy my enemy my brother By the end of the war I was good at it It fit me well I was a seasoned veteran Killing had become second nature Experience being the best teacher I learned well In April 1865 I knew what I was The question had become what was I going to be The thought once occurred to me that maybe I should not have survived the war that war should devour its own and leave the remnant in peace
