Tim Jon Semmerling

Out Of The Blue A Narrative Of September 11 2001:

9/11: Culture, Catastrophe and the Critique of Singularity Diana Gonçalves, 2016-10-24 Even though much has been said and written about 9 11 the work developed on this subject has mostly explored it as an unparalleled event a turning point in history This book wishes to look instead at how disruptive events promote a network of associations and how people resort to comparison as a means to make sense of the unknown i e to comprehend what seems incomprehensible In order to effectively discuss the complexity of 9 11 this book articulates different fields of knowledge and perspectives such as visual culture media studies performance studies critical theory memory studies and literary studies to shed some light on 9 11 and analyze how the event has impacted on American social and cultural fabric and how the American society has come to terms with such a devastating event A more in depth study of Don DeLillo s *Falling Man* and Jonathan Safran Foer s *Extremely Loud and Incredibly Close* draws attention to the cultural construction of catastrophe and the plethora of cultural products 9 11 has inspired It demonstrates how the event has been integrated into American culture and exemplifies what makes up the 9 11 imaginary

Out of the Blue Kristiaan Versluys, 2009 Since the 9 11 attacks many writers have represented its aftermath with varying degrees of success *Out of the Blue* focuses on narratives that move beyond patriotic clichés and cheap sensationalism and provides new insight into the emotions and ethics of these traumatic events and what it means to depict them

Be Very Afraid Robert Wuthnow, 2010-04-07 Robert Wuthnow has been praised as one of the country s best social scientists by columnist David Brooks who hails his writing as tremendously valuable The New York Times calls him temperate balanced compassionate adding one can t but admire Mr Wuthnow s views A leading authority on

religion he now addresses one of the most profound subjects the end of the world In *Be Very Afraid* Wuthnow examines the human response to existential threats once a matter for theology but now looming before us in multiple forms Nuclear weapons pandemics global warming each threatens to destroy the planet or at least to annihilate our species Freud he notes famously taught that the standard psychological response to an overwhelming danger is denial In fact Wuthnow writes the opposite is true we seek ways of positively meeting the threat of doing something anything even if it s wasteful and time consuming The atomic era that began with the bombing of Hiroshima sparked a flurry of activity ranging from duck and cover drills basement bomb shelters and marches for a nuclear freeze All were arguably ineffectual yet each sprang from an innate desire to take action It would be one thing if our responses were merely pointless Wuthnow observes but they can actually be harmful Both the public and policymakers tend to model reactions to grave threats on how we met previous ones The response to the terrorist attacks of 9 11 for example echoed the Cold War citizens went out to buy duct tape mimicking 1950s era civil defense measures and the administration launched two costly conflicts overseas Offering insight into our responses to everything from *An Inconvenient Truth* to the bird and swine flu epidemics Robert Wuthnow provides a profound new understanding of the human reaction to existential vulnerability [The 9/11 Encyclopedia](#) Stephen E. Atkins,2011-06-02 This work offers a sweeping collection of A Z entries and primary source documents that presents a thorough examination of all the individuals groups and events surrounding the 9 11 terrorist attacks Commemorating the 10th anniversary of the attacks on the World Trade Center and Pentagon The 9 11 Encyclopedia Second Edition offers valuable perspective on this emotionally charged and multidimensional subject This comprehensive two volume encyclopedia details the events leading up to the attacks going back a decade prior to 9 11 and covers all the major players involved It also examines events and discoveries since 2001 that have influenced our understanding of and reactions to the world changing attacks In the second edition dozens of entries have been updated and many new ones added The documents volume has been expanded as well With more than 170 A Z entries dozens of descriptive sidebars and over 55 primary source documents this updated encyclopedia is an essential source for comprehending one of the darkest moments in American history

Evil Arabs in American Popular Film Tim Jon Semmerling, 2009-06-23 2006 Runner up Arab American National Museum Book Awards The evil Arab has become a stock character in American popular films playing the villain opposite American good guys who fight for the American way It s not surprising that this stereotype has entered American popular culture given the real world conflicts between the United States and Middle Eastern countries particularly since the oil embargo of the 1970s and continuing through the Iranian hostage crisis the first and second Gulf Wars and the ongoing struggle against al Qaeda But when one compares the evil Arab of popular culture to real Arab people the stereotype falls apart In this thought provoking book Tim Jon Semmerling further dismantles the evil Arab stereotype by showing how American cultural fears which stem from challenges to our national ideologies and myths have driven us to create the evil Arab Other Semmerling bases his argument on close readings of six films The Exorcist Rollover Black Sunday Three Kings Rules of Engagement and South Park Bigger Longer Uncut as well as CNN s 9 11 documentary America Remembers Looking at their narrative structures and visual tropes he analyzes how the films portray Arabs as threatening to subvert American truths and mythic tales and how the insecurity this engenders causes Americans to project evil character and intentions on Arab peoples landscapes and cultures Semmerling also demonstrates how the evil Arab narrative has even crept into the documentary coverage of 9 11 Overall Semmerling s probing analysis of America s Orientalist fears exposes how the evil Arab of American popular film is actually an illusion that reveals more about Americans than Arabs

Presidential Unrealities Sebastian M. Herrmann,2014-06-12 This book analyzes and historicizes an important and

popular motif in contemporary US political discourse the notion that politics has become increasingly unreal At the turn of the millennium the simulated quality of politics in general and of the US presidency in particular has become a major object of concern across a broad range of venues and media publications in media studies and political science newspaper editorials novels films and TV shows alike worry over how much or how little we can actually know about the reality of the US president when all our knowledge is based on carefully staged media representations Rather than adding another voice to this concern Presidential Unrealities investigates the cultural work such discussions do Charting their histories and their cultural resonances the book argues that debating presidential unreality provides a crucial vocabulary by way of which the US public negotiates the postmodernization of American culture and society

Recovering 9/11 in New York Robert Fanuzzi, Michael Wolfe, 2014-04-23 This collection of essays offers a rich variety of approaches to how people and institutions in greater New York have sought to find meaning in the 9 11 attacks on the World Trade Center now a decade on The views and practices documented here join memory recovery and rebuilding together to form a vital new chapter in New York's metropolitan history Contributors contest the dominant nationalist narrative about 9 11 to generate a more local and socially engaged form of scholarship that connects directly with the experiences of people who lived or came to work in New York that fateful day and the years that followed In doing so these essays give academics and clinical professionals an opportunity to reflect upon and work with the people of a community in this case metropolitan New York as essential partners and even the main protagonists in creating new paradigms to capture the significance of these events and their aftermath The collection is comprised of sixteen essays by experts drawn from a wide range of scholarly and professional fields They investigate how people across the New York metropolitan region initially responded to and have since remembered the events of September 11th as they rippled out into the city the surrounding metropolitan region and the nation at large They engage directly with the emotional and psychological aftermath of the attacks approaching the questions of healing and teaching from a variety of institutional professional and non professional perspectives The volume concludes with a selection of essays that grapple with the challenge of Representing 9 11 Contributors to this section evaluate contemporary novels and films that have risked engagement with deep narrative traditions to translate the recent memory of public events into resonant stories and imaginative language Readers are invited to consider how all these responses in literature memorials media representations and the words and actions of diverse individuals still contribute to the complex yet inescapable challenge of making meaning of 9 11

The City Since 9/11 Keith Wilhite, 2016-03-04 Charting the intersection of aesthetic representation and the material conditions of urban space The City Since 9 11 posits that the contemporary metropolis provides a significant context for reassessing theoretical concerns related to narrative identity home and personal precarity In the years since the September 11 attacks writers and filmmakers have explored urban spaces as contested sites shaped by the prevailing discourses of neoliberalism homeland security and the war on terror but also haunted by an absence

in the landscape that registers loss and prefigures future menace In works of literature film and television the city emerges as a paradoxical space of permanence and vulnerability and a convergence point for anxieties about globalization structural inequality and apocalyptic violence Building on previous scholarship addressing trauma and the spectacle of terror the contributors also draw upon works of philosophy urban studies and postmodern geography to theorize how literary and visual representations expose the persistent conflicts that arise as cities rebuild in the shadow of past ruins Their essays advance new lines of argument that clarify art s role in contemporary debates about spatial practices gentrification cosmopolitanism memory and history nostalgia the uncanny and the abject postmodern virtuality the politics of realism and the economic and social life of cities The book offers fresh readings of familiar post 9 11 novels such as Jonathan Safran Foer s *Extremely Loud & Incredibly Close* but it also considers works by Teju Cole Joseph O Neill Silver Krieger Colum McCann Ronald Sukenick Jonathan Lethem Thomas Pynchon Colson Whitehead Paul Auster William Gibson Amitav Ghosh and Katherine Boo In addition *The City Since 9 11* includes essays on the films *Children of Men* *Hugo* and the adaptation of *Extremely Loud & Incredibly Close* chapters on the television series *The Bridge* *The Killing* and *The Wire* and an analysis of Michael Arad s *Reflecting Absence* and the 9 11 Memorial
