touch through the kinds of bodies and minds that rhetorical history and theory have tended to exclude In resistance to a rhetorical tradition focused on shaping able bodies and neurotypical minds Shannon Walters explores how people with various disabilities psychological cognitive and physical employ touch to establish themselves as communicators and to connect with disabled and nondisabled audiences In doing so she argues for a theory of rhetoric that understands and values touch as rhetorical Essential to her argument is a redefinition of key concepts and terms the rhetorical situation rhetorical identification and the appeals of ethos character pathos emotion and logos logic or message By connecting Empedoclean and sophistic theories to Aristotelian rhetoric and Burkean approaches Walters s methods mobilize a wide range of key figures in rhetorical history and theory in response to the context of disability Using Empedocles tactile approach to logos Walters shows how the iterative writing processes of people with psychological disabilities shape crucial spaces for identification based on touch in online and real life spaces Mobilizing the touch based properties of the rhetorical practice of m tis Walters demonstrates how rhetors with autism approach the crafting of ethos in generative and embodied ways Rereading the rhetorical practice of kairos in relation to the proximity between bodies Walters demonstrates how writers with physical disabilities move beyond approaches of pathos based on pity and inspiration The volume also includes a classroom based exploration of the discourses and assumptions regarding bodies in relation to haptic or touch based technologies Because the sense of touch is the most persistent of the senses Walters argues that in contexts of disability and in situations in which people with and without disabilities interact touch can be a particularly vital instrument for creating meaning connection and partial identification She contends that a rhetoric thus reshaped stretches contemporary rhetoric and composition studies to respond to the contributions of disabled rhetors and transforms the traditional rhetorical appeals and canons Ultimately Walters argues a rhetoric of touch allows for a richer understanding of the communication processes of a wide range of rhetors who use embodied strategies

Pickers and Poets Craig E. Clifford, Craig Hillis, 2016-12-24 Many books and essays have addressed the broad sweep of Texas music its multicultural aspects its wide array and blending of musical genres its historical transformations and its love hate relationship with Nashville and other established music business centers This book however focuses on an essential thread in this tapestry the Texas singer songwriters to whom the contributors refer as ruthlessly poetic All songs require good lyrics but for these songwriters the poetic quality and substance of the lyrics are front and center Obvious candidates for this category would include Townes Van Zandt Michael Martin Murphey Guy Clark Steve Fromholz Terry Allen Kris Kristofferson Vince Bell and David Rodriguez In a sense what these songwriters were doing in small intimate live music venues like the Jester Lounge in Houston the Chequered Flag in Austin and the Rubaiyat in Dallas was similar to what Bob Dylan was doing in Greenwich Village In the language of the times these were folksingers Unlike Dylan however these were folksingers writing songs about their own people and their own origins and singing in their own vernacular This music like most great poetry is profoundly rooted That rootedness in fact is reflected in the book s emphasis on place and the powerful ways it shaped and continues to shape the poetry and music of Texas singer songwriters From the coffeehouses and folk clubs where many of the founders got their start to the Texas flavored festivals and concerts that nurtured both their fame and the rise of a new generation the indelible stamp of origins is inseparable from the work of these troubadour poets

of national grand strategies *Post Independence Voices in South Asian Writings* Malashri Lal, Alamgir Hashmi, Victor J. Ramraj, 2001 *Richard M. Billow's Selected Papers on Psychoanalysis and Group Process* Tzachi Slonim, 2021-05-05 This comprehensive volume presents Richard M Billow's unique contributions to the theory and technique of psychotherapy along with summaries and explications by the volume's editor Tzachi Slonim. Through their behavior therapists define the clinical culture, how relationships are to be regarded and the depth to which narratives and exchanges may be considered. Known for his integration of Bion's metapsychology with contemporary psychoanalysis, Billow extends our understanding of relational to include the emotional relationships people have with individual and collective ideas and the behaviors attached to these ideas. Doing our work, the title of the last section involves the therapist's whole being including cognitions, dreams, words, deeds, and very presence, mental and somatic. Drawing on Lacan, Billow suggests that therapeutic work ought to include a willingness to penetrate other minds with provocative, controversial ideas. His clinical vignettes portray a masterly clinician in action, describing his evolving feelings, thoughts, and assessments. Billow's intimate knowledge of Bionian theory coupled with his down-to-earth demeanour and clear writing allows him to explicate and expand upon Bion's important contributions in a manner accessible to the novice and expert therapist alike. With one eye on therapeutic process and the other on each participant, including the therapist himself, Billow invites each of us to change our minds. Cumulated Index to the Books, 1999
