Shots to the Heart: For the Love of Film Performance Steven Rybin,2022-09-06 *Shots to the Heart* explores how the work of the film actor inspires provokes and refigures our feelings and thoughts about the cinema The book closely considers the art of film performance the combined effect of actors gestures movements and expressions in relation to the viewer s sensitive and creative eye As discrete moments of performative incarnation onscreen slowly accumulate actors also become figures of meaning For many viewers the screen figures which result from performance are simply called characters But in thinking about cinema the words character and characterization signal post experiential abstractions when we quickly

identify characters or summarize characterization after seeing a movie we are leaping over the emotions felt through our loving attention to the bodies flitting through a film Such concepts can never replace a careful regard for what actors onscreen are actually doing moment by moment gesture by gesture Shots to the Heart is finally not too concerned with the narrative machinations within which these gestures are inscribed and even resists the attempt to assemble these descriptions of performance into a full account of the film as a whole What Shots to the Heart does is let little moments of performance live on in writing as they are strung together alongside performative fragments from other films in a kind of alternative cinephilic account of what was felt as actors moved on the screen before us
