Out Of The Shadows Women Resistance And Politics In South America:

Out of the Shadows Josephine Fisher,1993 2 Uruguay Hard Labour **Out of the Shadows** Jo Fisher,1993 Since the early 1970s women across South America have been uniting to confront the brutality and repression of military rule In *Out of the Shadows* author Jo Fisher interviews women in Argentina Chile Uruguay and Paraguay to show how they have moved into the vacuum left by the military's destruction of the male dominated left Chapters describe how women have organised in communal kitchens in Chile's shantytowns as trade unionists in Uruguay peace activists in Paraguay mothers of the disappeared and self help groups in Argentina as grassroots feminists in Chile ending the isolation of home life While built around the traditional female concerns such as providing food and care for their families the new women's movements have developed a grassroots feminism that is strikingly different from the middle class feminism of the city centres and have had a seismic impact on gender consciousness throughout the region **Women and Politics in Latin America** Nikki

Craske,2013-06-24 This book provides a comprehensive view of women's political participation in Latin America Focusing on the latter half of the twentieth century it examines five different arenas of action and debate political institutions workplaces social movements revolutions and feminisms **Out of the Shadows** Josephine Fisher,1993 **Radical Women in Latin**

America Victoria González-Rivera,Karen Kampwirth,2010-11-01 The rationale stated for studying radical women of Latin America is first to throw light on the development of dictatorship and authoritarianism second to transcend the stereotype of inherently violent men and inherently peaceful women and finally to demonstrate that there is no automatic sisterhood among women even of the same class and ethnicity Brief chronologies of three countries each in Central and South America open the two sections The contributors are historians and political scientists primarily from the US Annotation copyrighted by Book News Inc Portland OR *Rereading Women in Latin America and the Caribbean* Jennifer Abbassi,Sheryl L.

Lutjens,2002-03-26 This indispensable text reader provides a broad ranging and thoughtfully organized feminist introduction to the ongoing controversies of development in Latin America and the Caribbean Designed for use in a variety of college courses the volume collects an influential group of essays first published in *Latin American Perspectives* a theoretical and scholarly journal focused on the political economy of capitalism imperialism and socialism in the Americas The reader is organized into thematic sections that focus on work politics and culture and each section includes substantive introductions that identify key issues trends and debates in the scholarly literature on women and gender in the region Demonstrating the rich and multidisciplinary nature of Latin American studies this collection of timely empirical studies promotes critical thinking about women's place and power about theory and research strategies and about contemporary economic political and social conditions in Latin America and the Caribbean Valuable as both a supplementary or primary text *Rereading Women* makes a convincing claim for a materialist feminist analysis It convincingly shows why women have become an increasingly important subject of research acknowledges their gains and struggles over time and explores the contributions

that feminist theory has made toward the recognition of gender as a relevant indeed essential category for analyzing the political economy of development *Engendering Transitions* Georgina Waylen, 2007-05-24 Using empirical material from eight case studies in East Central Europe and Latin America as well as South Africa this book explores the gendered constraints and opportunities provided by processes of democratization **The Oxford Handbook of Feminist Theology** Mary McClintock Fulkerson, Sheila Briggs, 2012 This volume highlights the relevance of globalization and the insights of gender studies and religious studies for feminist theology It focuses on the changing global contexts for the field and its movement towards new models of theology distinct from the forms of traditional Christian systematic theology and of secular feminism **The Politics of Motherhood** Jadwiga E. Pieper Mooney, 2009-12-06 With the 2006 election of Michelle Bachelet as the first female president and women claiming fifty percent of her cabinet seats the political influence of Chilean women has taken a major step forward Despite a seemingly liberal political climate Chile has a murky history on women s rights and progress has been slow tenuous and in many cases non existent Chronicling an era of unprecedented modernization and political transformation Jadwiga E Pieper Mooney examines the negotiations over women s rights and the politics of gender in Chile throughout the twentieth century Centering her study on motherhood Pieper Mooney explores dramatic changes in health policy population paradigms and understandings of human rights and reveals that motherhood is hardly a private matter defined only by individual women or couples Instead it is intimately tied to public policies and political competitions on nation state and international levels The increased legitimacy of women s demands for rights both locally and globally has led to some improvements in gender equity Yet feminists in contemporary Chile continue to face strong opposition from neoconservatism in the Catholic Church and a mixture of public apathy and legal wrangling over reproductive rights and health **Gender in Latin America** Sylvia H. Chant, Nikki Craske, 2003 A comprehensive state of the art review of gender in one of the world s most diverse and dynamic regions The authors draw on a wide range of sources including their own field research to explore changes and continuities in gender roles relations and identities during the late twentieth century into the twenty first Debunking traditional universalizing stereotypes diversity in gender is highlighted in relation to the cross cutting influences of age class sexuality ethnicity rural urban residence and migrant status

Geographies of New Femininities Nina Laurie, Claire Dywer, Sarah L. Holloway, Fiona Smith, 2014-06-03 *Geographies of New Femininities* examines the emergence of contemporary constructions of femininity in a global context It asks whether these femininities are new and suggests that current celebrations of diversity in the lived experience and performance of women s identities are largely Euro centric Through four in depth case studies *Geographies of New Femininities* illustrates how constructions of femininities across the world reflect gender inequalities embedded within global local geographies of social and economic change The analysis brings together key themes in geography and feminist studies showing how globalisation and the fracturing of identities are influencing research on gender Throughout the book the authors explore

spaces of opportunity and oppression for women and highlight the geographies associated with the negotiation of gender identities Geographies of New Femininities moves between empirical and theoretical debate using first hand accounts to work through methodological issues relating to gender and geography It is deliberately written in an accessible style to encourage students to engage with up to date research on gender
