Conforti,2003-01-14 Say New England and you likely conjure up an image in the mind of your listener the snowy woods or stone wall of a Robert Frost poem perhaps or that quintessential icon of the region the idyllic white village Such images remind us that as Joseph Conforti notes a region is not just a territory on the ground It is also a place in the imagination This ambitious work investigates New England as a cultural invention tracing the region s changing identity across more than three centuries Incorporating insights from history literature art material culture and geography it shows how succeeding generations of New Englanders created and broadcast a powerful collective identity for their region through narratives about its past Whether these stories were told in the writings of Frost or Harriet Beecher Stowe enacted in historical pageants or at colonial revival museums or conveyed in the pages of a geography textbook or Yankee magazine New Englanders used them to sustain their identity revising them as needed to respond to the shifting regional landscape A Companion to American Cultural History Karen Halttunen,2014-01-28 A Companion to American Cultural History offers a historiographic overview of the scholarship with special attention to the major studies and debates that have shaped the field and an assessment of where it is currently headed 30 essays explore the history of American culture at all analytic levels Written by scholarly experts well versed in the questions and controversies that have activated interest in this burgeoning field Part of the authoritative Blackwell Companions to American History series Provides both a chronological and thematic approach topics range from British America in the Eighteenth Century to the modern day globalization of American Culture thematic approaches include gender and sexuality and popular culture The Colonists' American Revolution Guy Chet,2019-11-12 A Dissenting Companion to the U S History Textbook Most U S History textbooks track the origins and evolution of American identity They therefore present the American Revolution as the product of a gradual cultural change in English colonists Over time this process of Americanization differentiated and alienated the settlers from their compatriots and their government in Britain This widely taught narrative encourages students to view American independence as a reflection of

emerging American nationhood The Colonists American Revolution introduces readers to a competing narrative which presents the Revolution as a product of the colonists English identity and of English politics This volume helps students recognize that the traditional narrative of the Revolution is an argument not a just the facts account of this period in U S history Written to make history interesting and relevant to students this textbook provides a dissenting interpretation of America s founding the Revolution was not the result of an incremental process of Americanization but rather an immediate reaction to sudden policy changes in London It exposes students to dueling historical narratives of the American Revolution encouraging them to debate and evaluate both narratives on the strength of evidence This stimulating volume Offers an account of the Revolution s chronology causes ends and accomplishments not commonly addressed in traditional textbooks Challenges the conventional narrative of Americanization with one of Anglicization Presents the Atlantic as a bridge rather than a barrier between England and its colonies Discusses the American Revolution as one in a series of British rebellions Uses a dual perspective approach to spark discussions on what it means to study history Exposing students to two different ways of studying history The Colonists American Revolution Preserving English Liberty 1607 1783 is a thought provoking resource for undergraduate and graduate students of early American history as well as historians and interested general readers

English Ethnicity and Race in Early Modern Drama Mary Floyd-Wilson, 2003-02-20 In English Ethnicity and Race in Early Modern Drama first published in 2003 Mary Floyd Wilson outlines what we might call scientific conceptions of racial and ethnic differences in sixteenth and seventeenth century English writing Drawing on classical and contemporary medical texts histories and cosmographies Floyd Wilson demonstrates that Renaissance understandings of racial and ethnic identities contradicted many modern stereotypes concerning difference Southerners Africans in particular were identified as dispassionate cool tempered and wise whereas the more northern English were understood to be unruly impressionable and slow witted Concerned with the unflattering and constraining implications of this classically derived knowledge English writers laboured to reinvent ethnology to their own advantage a labour that paved the way for the invention of more familiar racial ideas Floyd Wilson highlights these English revisionary efforts in her surprising and transformational readings of the period s drama including Marlowe s Tamburlaine Jonson s The Masque of Blackness and Shakespeare s Othello and Cymbeline

Puritan Conquistadors Jorge Cañizares-Esguerra, 2006 The book demonstrates that a wider Pan American perspective can upset the most cherished national narratives of the United States for it maintains that the Puritan colonization of New England was as much a chivalric crusading act of Reconquista against the Devil as was the Spanish conquest

Creatures of Empire Virginia DeJohn Anderson, 2006 Book Review **Empires of God** Linda Gregerson, Susan Juster, 2013-02-11 Religion and empire were inseparable forces in the early modern Atlantic world Religious passions and conflicts drove much of the expansionist energy of post Reformation Europe providing both a rationale and a practical mode of organizing the dispersal and resettlement of hundreds of thousands of people from the Old World to the New World Exhortations to conquer new peoples were the lingua franca of Western imperialism and men like the mystically inclined Christopher Columbus were genuinely inspired to risk their lives and their fortunes to bring the gospel to the Americas And in the thousands of religious refugees seeking asylum from the vicious wars of religion that tore the continent apart in the sixteenth and seventeenth centuries these visionary explorers found a ready pool of migrants English Puritans and Quakers French Huguenots German Moravians Scots Irish Presbyterians equally willing to risk life and limb for a chance to worship God in their own way Focusing on the formative period of European exploration settlement and conquest in the Americas from roughly 1500 to 1760 *Empires of God* brings together historians and literary scholars of the English French and Spanish Americas around a common set of questions How did religious communities and beliefs create empires and how did imperial structures transform New World religions How did Europeans and Native Americans make sense of each other's spiritual systems and what acts of linguistic and cultural transition did this entail What was the role of violence in New World religious encounters Together the essays collected here demonstrate the power of religious ideas and narratives to create kingdoms both imagined and real **Animalia Americana** Colleen Glenney Boggs, 2013-01-08 Consulting a diverse archive of literary texts Colleen Glenney Boggs places animal representation at the center of the making of the liberal American subject From the bestiality trials of the seventeenth century Plymouth Plantation to the emergence of sentimental pet culture in the nineteenth Boggs traces a history of human animal sexuality in America one shaped by sexualized animal bodies and affective pet relations Boggs concentrates on the formative and disruptive presence of animals in the writings of Frederick Douglass Edgar Allan Poe and Emily Dickinson Engaging with the critical theories of Michel Foucault Giorgio Agamben Judith Butler Donna Haraway and others she argues that animals are critical to the ways in which Americans enact their humanity and regulate subjects in the biopolitical state Biopower or a politics that extends its reach to life thrives on the strategic ambivalence between who is considered human and what is judged as animal It generates a space of indeterminacy where animal representations intervene to define and challenge the parameters of subjectivity The renegotiation of the species line produces a tension that is never fully regulated Therefore as both figures of radical alterity and the embodiment of biopolitics animals are simultaneously exceptional and exemplary to the biopolitical state An original contribution to animal studies American studies critical race theory and posthumanist inquiry Boggs thrillingly reinterprets a long and highly contentious human animal history *Making Nature Sacred* John Gatta, 2004-10-14 This book argues that the religious import of American environmental literature has yet to be fully recognized or understood *Making Nature Sacred* explores how the

quest for natural revelation has been pursued through successive phases of American literary and intellectual history

The Making of the Nations and Cultures of the New World Gérard Bouchard, 2008 Between the sixteenth and nineteenth centuries the Americas Australia and New Zealand emerged as nations Through conquest and violent appropriation European immigrants settled these lands and soon developed a sense of belonging most potently expressed in identity memory and the belief in utopias Many of these new collectivities or founding nations succeeded in breaking their colonial links to achieve political and cultural emancipation from their European mother country The Making of the Nations and Cultures of the New World explores the question of how a culture a collective imaginary is born G rard Bouchard compares the historical itineraries of New World collectivities which were driven by a dream of freedom and sovereignty and finds major differences as well as striking commonalities in their formation and evolution He also considers the myths and discursive strategies devised by the elites to unite and mobilize very diversified populations The first English translation of *Gen se des nations et cultures du Nouveau Monde* winner of a Governor General s Literary Award in 2000 this acclaimed book provides important insights for contemporary nations in crisis Creolization Charles Stewart, 2016-07-01 Social scientists have used the term Creolization to evoke cultural fusion and the emergence of new cultures across the globe However the term has been under theorized and tends to be used as a simple synonym for mixture or hybridity In this volume by contrast renowned scholars give the term historical and theoretical specificity by examining the very different domains and circumstances in which the process takes place Elucidating the concept in this way not only uncovers a remarkable history it also re opens the term for new theoretical use It illuminates an ill understood idea explores how the term has operated and signified in different disciplines times and places and indicates new areas of study for a dynamic and fascinating process **The First Thanksgiving** Nathaniel Philbrick, 2013-11-12 The real story of the First Thanksgiving from the New York Times bestselling author Nathaniel Philbrick One of America s most acclaimed historians takes on the nation s First Thanksgiving telling us the true story behind the tale we think we know so well In this selection from the New York Times bestseller *Mayflower* Nathaniel Philbrick recounts in riveting detail the truth about relations between Plymouth Colony and the British crown and between the colonists and Native American tribes shining a light on the courage communities and conflicts that shaped one of our country s most celebrated national holidays *In the Way of Nature* Robert Boschman, 2009-04-01 Exploring the connections between nature and culture this volume discusses the works of three female American poets Anne Bradstreet 1612 1672 Elizabeth Bishop 1911 1979 and Amy Clampitt 1920 1994 Though only Bradstreet was born outside North America each poet is shown to grapple with the ways that European civilization was transformed on the new continent The author s analysis highlights the interconnected themes of travel geography cartography and wildness **Improper Bostonians** History Project (Boston, Mass.), 1998 Surprising fun and magnificently illustrated with two hundred images *Improper Bostonians* is the first book to depict Boston s three centuries of gay and
