Darkness in the Bliss-Out James Kendrick, 2014-05-08 While there has been a significant outpouring of scholarship on Spielberg over the past decade his films are still frequently discussed as being paternalistic escapist and reliant on uncomplicated emotions and complicated special features Even those critics who are favorable toward his work still tend to view it as essentially optimistic reassuring and conservative This book takes an alternate view of the director's work and proposes that his films are significantly darker and more emotionally and ideologically complex than they are routinely given credit for Proceedings of the Annual International Conference of the IEEE Engineering in Medicine and Biology Society IEEE Engineering in Medicine and Biology Society.
