Out Of Harms Way Moving Cape Hatteras Lighthouse:

Out of Harm's Way Mike Booher, Lin Ezell, 2001 The complete inside story of the 1999 move of the Cape Hatteras Lighthouse which was called the move of the century an engineering feat never before equalled Many said the 200 foot high Cape Hatteras Lighthouse would collapse before it reached its final destination more than half a mile inland Some said the historic lighthouse should be preserved in its original position and not be moved at all but something had to save the lighthouse from the encroaching Atlantic In the end the US Park Service engineers and well seasoned movers calculated the risk and without fault successfully moved America's lighthouse This book is filled with the history of the lighthouse and includes colour photographs and diagrams of the historic move The Cape Hatteras Lighthouse Dawson Carr, 2012-09-01 Since 1871 the Cape Hatteras lighthouse has been a welcome sight for sailors entering the treacherous region off North Carolina's Outer Banks known as the Graveyard of the Atlantic At 208 feet high it is the tallest lighthouse in the country and one of the state's most famous landmarks Through the years it has withstood the ravages of both humans and nature weathering numerous violent storms and two wars But perhaps the gravest threat the structure faced in recent history was the erosion of several hundred yards of beach that once stood between it and the ocean As powerful tides and rising sea levels increasingly endangered the lighthouse's future North Carolinians debated fiercely over how best to save it eventually deciding on a controversial plan to move the beacon inland to safety First published by UNC Press in 1991 this book tells the story of the noble lighthouse from its earliest history to the present day In this new edition Dawson Carr details the recent relocation of the treasured landmark For now it seems North Carolinians have succeeded in protecting their lighthouse as it has protected them for over a century **Brilliant Beacons: A History of the American Lighthouse** Eric Jay Dolin, 2016-04-18 What Moby Dick is to whales Brilliant Beacons is to lighthouses a transformative account of a familiar yet mystical subject Laurence Bergreen author of Columbus The Four Voyages In this magnificent compendium New Republic best selling author Eric Jay Dolin presents the definitive history of American lighthouses and in so doing illuminates the history of America itself Entertainment Weekly Treating readers to a memorable cast of characters and fascinating anecdotes New York Review of Books Dolin shows how the story of the nation from a regional backwater colony to global industrial power can be illustrated through its lighthouses from New England to the Gulf of Mexico the Great Lakes the Pacific Coast and all the way to Alaska and Hawaii A Captain and Classic Boat Best Nautical Book of 2016 **Man on the Move** Peter Rowlands, 2009-11-11 Pete Friesen trusted his intuition and employed his skills to create a lifetime filled with extraordinary achievements Born in post revolutionary Russia and raised on the Canadian prairie during the Great Depression Friesen overcame challenging odds and found his way to the pinnacle of engineering success in the United States As noted by Peter Rowlands who was involved in production of Friesen's bio documentary Pete Moving Man Made Mountains Pete Friesen considered life on earth to be an adventure where every challenge and every failure was a learning experience With little

formal education he became an inventor and innovator who moved more than four thousand buildings in his structural moving career Possessing the ability to visualize resolution of complex problems Friesen designed machinery and developed procedures that propelled his chosen profession into the modern age Rowlands chronicles Friesens fascinating life from beginning to end from a turbulent childhood through inventions and innovations to international acclaim creating a fitting memoir and an unforgettable tribute to a man who lived by his credo of hope to never never give up **National Parks**, 2007 The flagship publication of the National Parks Conservation Association National Parks Magazine circ 340 000 fosters an appreciation of the natural and historic treasures found in the national parks educates readers about the need to preserve those resources and illustrates how member contributions drive our organization s park protection efforts National Parks Magazine uses images and language to convey our country s history and natural landscapes from Acadia to Zion from Denali to the Everglades and the 387 other park units in between **Living with Florida's Atlantic Beaches** David M.
