Jordan, Michael T. Nietzel, Robert Walker, TK Logan, 2004-07-23 This training manual synthesizes the clinical and research literature on victims offenders and child witnesses and uses the empirical evidence to provide generalist clinicians with manageable concrete guidance for providing care in these cases Each chapter begins with a summary of the issues to be covered and an outline of the specific topics to be discussed and ends with a recap and list of questions for practitioners in training The authors offer expertise in forensic psychology victimization and substance abuse they discuss the clinical legal and ethical complexities that violence against women brings to the mental health practice environment **African Americans and Criminal Justice** Delores D. contemporary times Providing coverage of law and criminal justice practices from the precolonial period including the introduction of African slaves up to practices in modern day America this encyclopedia presents a frank and comprehensive view of how Americans of African descent have come to be viewed as synonymous with criminality This book represents an essential learning resource for all American citizens regardless of race or age Behind Closed Doors Murray Murray Arnold Straus,Richard J. Gelles,Suzanne K. Steinmetz, Behind Closed Doors is grounded in the unprecedented national survey of the extent patterns and causes of violence in the American family Based on a study of over 2 000 families the authors provide landmark insights into this phenomenon of violence and what causes Americans to inflict it on their family members The authors explore the relationship between spousal abuse and child abuse as well as abuse between siblings violence by children against their parents and the causes and effects of verbal abuse Taken together their analysis provides a vivid picture of how violence is woven into the fabric of family life and why the hallmark of family life is both love and violence This is a comprehensive highly readable account of interest to both the professional and the layperson on an important topic which concerns the social well being of us all **Partner Violence** Jana L. Jasinski,Linda Meyer Williams,David Finkelhor,1998-02-12 Twenty years of accumulated knowledge and research into violence towards partners are synthesized in this landmark book Topics examined include marital rape effects of partner violence on children partner violence among same sex couples and partner violence in ethnic minority families A final chapter examines issues of prevention and treatment and provides empirically based recommendations for future research and practice Confronting Chronic Neglect Institute of Medicine,Board on Children, Youth, and Families,Committee on the Training Needs of Health Professionals to Respond to Family Violence,2002-05-04 As many as 20 to 25 percent of American adults or one in every four people have been victimized by witnesses of or perpetrators of family violence in their lifetimes Family violence affects more people than cancer yet it s an issue that receives far less attention Surprisingly many assume that health professionals are deliberately turning a blind eye to this traumatic social problem The fact is very little is being done to educate health professionals about family violence Health professionals are often the first to encounter victims of abuse and neglect and therefore they play a critical role in ensuring that victims as well as perpetrators get the help they need Yet despite their critical role studies continue to describe a lack of education for health professionals about how to identify and treat family violence And those that have been trained often say that despite their education they feel ill equipped or lack support from by their employers to deal with a family violence victim sometimes resulting in a failure to screen for abuse during a clinical encounter Equally problematic the few curricula in existence often lack systematic and rigorous evaluation This makes it difficult to say whether or not the existing curricula even works Confronting Chronic Neglect offers recommendations such as creating education and research centers that would help raise awareness of the problem on all levels In addition it recommends ways to involve health care professionals in taking some responsibility for responding to this difficult and

devastating issue Perhaps even more importantly Confronting Chronic Neglect encourages society as a whole to share responsibility Health professionals alone cannot solve this complex problem Responding to victims of family violence and ultimately preventing its occurrence is a societal responsibility Interpersonal Violence in the African-American Community Robert L. Hampton, Thomas P. Gullotta, 2010-04-21 This book provides a solid foundation for understanding violence within the African American community from the perspective of African Americans It challenges existing stereotypes of African Americans and offers concrete advice on approaches that are or might be effective with African American populations The content is driven by real world evidence based practices based on sound scientific foundations **The Better Angels of Our Nature** Steven Pinker, 2012-09-25 Faced with the ceaseless stream of news about war crime and terrorism one could easily think this is the most violent age ever seen Yet as bestselling author Pinker shows in this startling and engaging new work just the opposite is true *Family Violence in a Cultural Perspective* Kathleen Malley-Morrison, Denise Hines, 2003-09-15 The writing style is engaging and the stories are compelling Rather than presenting facts and statistics the authors invite the reader to actively participate in current debates in the family violence research *Family Violence in a Cultural Perspective* provides a new interesting approach Carolyn M West University of Washington Tacoma A major achievement in compilation and review beautifully written This book accomplishes a necessary and admirable goal of bringing a widely dispersed body of knowledge together Jean Giles Sims Texas Christian University What is maltreatment How do definitions causes consequences and efforts to combat problems vary across the major ethnic groups within the United States *Family Violence in a Cultural Perspective* Defining Understanding and Combating Abuse provides a thought provoking and informative discussion of cross cultural issues in family violence in the United States The book focuses on family violence from four major ethnic populations of the United States Native American Indian African American Hispanic Latino and Asian American Authors Kathleen Malley Morrison and Denise A Hines examine violence in these communities and take an ecological approach to its incidences correlations and consequences The information and cases in *Family Violence in a Cultural Perspective* are organized within a cognitive affective ecological framework allowing readers to consider the many causes of family violence The book looks at the different types of family violence including child spousal and elder abuse and addresses the broader historical and environmental forces contributing to violence within different communities Features and Benefits Real family case studies and Personal Reflections boxes from members of various ethnic communities covered in the book stimulate class discussion Each chapter contains frequent mini summaries of the material presented and thought questions that help readers reflect upon the difficult issues being addressed The book includes tables summarizing research on the rate of family violence within major ethnic groups and key terms are highlighted within the text Each chapter opens with provocative quotes or examples and closes with a summary section *Family Violence in a Cultural Perspective* is designed for undergraduate and graduate students taking family violence courses in Family

Not To People Like Us Susan Weitzman, 2008-08-01 This important book brings the ignored population of abused upper income women to light revealing for the first time the depth and severity of upscale abuse How is it possible for a highly educated woman with a career and resources of her own to stay in a marriage with an abusive husband How can a man be considered a pillar of his community run a successful business and regularly give his wife a black eye That we can even ask these startling questions proves how convinced we are that domestic abuse is restricted to the lower classes In Not to People Like Us psychotherapist Susan Weitzman dramatically challenges this assumption It is the first book to explore a previously overlooked population of emotionally and physically battered wives the upper educated and upper income women who rarely report abuse and remain trapped by their own silence Weitzman draws on an in depth study to document the shocking nature and incidence of abuse among the wives of professors physicians and CEOs many of them professionals and executives themselves With keen insight and profound sensitivity she reveals the unique path taken by the upscale wife the early warning signs the dilemmas and decisions the dangerous desire to cover up and maintain appearances The first book to condemn the legal and social service system for failing to recognize domestic violence among upper income families Not to People Like Us offers crucial information to help women find their way out of abusive relationships and toward safety and independence

The Primordial Violence Murray A. Straus, Emily M.
