Williams, 2021-01-23 We find ourselves living today in very much a post Christian world Not only does the culture largely reject Christianity s claims we find that long held basic truths that people

have embraced throughout history have been jettisoned the belief in objective morality right and wrong transcend each person's opinions and feelings spiritual reality the world contains more than what we see via our 5 senses that God is real that truth is objective and knowable if something is true my disagreeing with it or finding it unpleasant emotionally doesn't make it false This presents a great difficulty for Christians trying to communicate the Christian message to people today We can take nothing for granted if the message is to make any sense to the hearer We must start with the most basic concepts The question then arises How do we make a start when the bedrock ideas are not only disbelieved but viewed with contempt by so many today C S Lewis thought that he had found a door we could enter to steal past the watchful dragons of the modern person's reason by way of imaginative fiction He sought to re-introduce Christian ideas clothed in mythological garb so that in time after their affections had been stirred the explicit message about Christ might be given a fair hearing He engaged both the heart and the head In this way he pre-evangelized his audience This book examines the grounds both philosophically and theologically upon which he did that It explores Lewis's view of reality and the human imagination surveying his Chronicles of Narnia and The Space Trilogy in particular to demonstrate precisely how he carried out this strategy We can learn from Lewis here as we show both the beauty and the truthfulness of Christianity to people in a way that meets them where they are
