From Servants of the Empire to Everyday Heroes Tobias Harper,2020-02-13 In the twentieth century the British Crown appointed around a hundred thousand people military and civilian in Britain and the British Empire to honours and titles For outsiders and sometimes recipients too these jumbles of letters are tantalizingly confusing OM MBE GCVO CH KB or CBE Throughout the century this system expanded to include different kinds of people while also shrinking in its imperial scope with the declining empire Through these dual processes this profoundly hierarchical system underwent a seemingly counter intuitive change it democratized Why and how did the British government change this system And how did its various publics respond to it This study addresses these questions directly by looking at the history of the honours system in the wider context of the major historical changes in Britain and the British Empire in the twentieth century In particular it looks at the evolution of this hierarchical deferential system amidst democratization and decolonization It focuses on the system s largest and most important components the Order of the British Empire the Knight Bachelor and the lower ranks of other Orders By creatively analysing the politics and administration of the system alongside popular responses to it in diaries letters newspapers and memoirs Tobias Harper shows the many different meanings that honours took on for the establishment dissidents and recipients He also shows the ways in which the system succeeded and failed to order and bring together divided societies

Management Consultancy and the British State Antonio E. Weiss,2018-10-26 This book traces the emergence and development of the relationship between management consultancies and the British state It seeks to answer three questions why were management consultants brought into the machinery of the state how has state power been impacted by bringing profit seeking actors into the machinery of the state and how has the nature of management consultancy changed over time The book demonstrates the role consultants played in major developments in the postwar period Specific case studies interrogate how consultancies influenced the policy fields of health service reform and social security benefits This book will redefine debates amongst business historians and historians of the postwar British state about the nature of management consultancy and public sector reform

British Grand Strategy in the Age of American Hegemony William D. James,2024 Employing several historical case studies between 1940 2003 and marshalling a host of primary sources William D James argues that British politicians and officials have thought in grand strategic terms under American hegemony even if they do not realise or admit to this

Dictionary of Labour Biography Keith Gildart,David Howell,2020-01-31 The Dictionary of Labour Biography has an outstanding reputation as a reference work for the study of nineteenth and twentieth century British history Volume XV maintains this standard of original and thorough

scholarship Each entry is written by a specialist drawing on an array of primary and secondary sources The biographical essays engage with recent historiographical developments in the field of labour history The scope of the volume emphasises the ethnic and national diversity of the British labour movement and neglected political traditions *Peter Shore* Kevin Hickson, Harry Taylor, Jasper Miles, 2020-02-13 Peter Shore worked under Hugh Gaitskell serving in successive Labour Cabinets under first Harold Wilson and subsequently James Callaghan He wrote the 1964 1966 and 1970 general election manifestos for the party and stood in both the 1980 and the 1983 party leadership elections He would go on to be known as one of the Labour Party's most important thinkers He had a long political career at the upper levels of the Labour Party and was close to successive leaders Despite this he was also independent minded as evidenced by the 1976 IMF crisis and his long standing opposition to European integration As well as this key debate the authors also address crucial issues within the Labour movement from macroeconomic management to the extent to which the party can be a force for socialism This remarkable new study offers a comprehensive and timely reappraisal of the man and his record examining the context within which he operated his approach and responses to changing social and economic norms his opposition to Britain's membership of what is now the EU and how he was viewed by peers from across the political spectrum Finally it examines the overall impact of Peter Shore on the development of British politics With contributions from leading experts in the fields of political theory and from Shore's own contemporaries this book is an important new assessment of one of Labour's most interesting political thinkers in twentieth century British politics Common Sense Andrew Hood, Tony Benn, 2013-03-31 Do we need a Monarchy Or does it represent everything that is hidebound and stifling about Britain The headlines tell the story every British Institution is in crisis As a nation we have lost our way What we have always been smugly told is false Our constitution is NOT the best in the world nor is our legal system the fairest nor is our society more open nor are we freer than other nations Things taken for granted are now being seriously questioned as people realize how much of our political and economic life is outside our control Ever since Tony Benn changed our constitution by renouncing his peerage he has been developing the case he now outlines His Commonwealth of Britain Bill reproduced in the Text is the first attempt to overthrow the monarchy since Cromwell GUARDIAN He argues for a radical overhaul of our political system sweeping away privilege and unaccounted power and substituting for it a written constitution and democratic citizenship Only by freeing ourselves from our historical shackles including but by no means only the monarchy can we be truly free *Labour's Crisis* Andrew Edwards, 2011-09-30 Many books have focused on the rise of and success of the Labour party in Wales but this one focuses on its decline in an understudied part of Wales **The Wilson Governments 1964-1970 Reconsidered** Glen O'Hara, Helen Parr, 2014-01-02 This book provides a fascinating re assessment of our view of the Wilson governments of 1964 1970 This new text draws on newly available sources across the range of British government and for the first time looks at the whole range of political and state activity This critical appraisal provides a fascinating case study of British government

in action in this key period of British History This book was previously published as a special issue of the leading journal Contemporary British History It is an excellent resource for students of governance foreign policy economics and social policy Economic Policy Jim Tomlinson,2004 Documentary focusing on the legendary Goodwood Motor Circuit a high speed track which started out as the perimeter of an RAF base during World War II The programme covers Goodwood s history from its creation through to the present day **Television Policies of the Labour Party 1951-2001** Des Freedman,2004-08-02 Des Freedman explores Labour s divided response to the development of commercial television in the 1950s and assesses the impact of Wilson s governments on television in the 1960s His key argument is that Labour has always been a vigorous but ultimately unreliable advocate of television *Egalitarian Thought and Labour Politics* Nick Ellison,2002-11-01 In *Egalitarian Thought and Labour Politics* Nick Ellison argues that the concept of equality is the cornerstone of the British socialist tradition He examines the alternative understandings of equality which have divided the labour party since 1930 and traces the origins of the current shift away from concern for social and economic equality to an increasing emphasis on liberty and individual entitlement *Egalitarian Thought and Labour Politics* is also concerned with contemporary attitudes within the Labour party discussing the importance of the concept to debates about citizenship and market socialism **Europe Contested** Harold James,2019-10-29 *Europe Contested* analyses the failures and achievements of an astonishing era of economic advance and political chaos from the First World War up to the present day Beginning with the Great War the book goes on to examine connections between the self destruction of liberal democracy market economics and the international political and security framework in the interwar period It then considers the mass politics that surrounded the glorification of new style leaders Lenin Stalin Mussolini and Hitler before moving on to explore the ways in which the interwar legacy was superseded post 1945 James examines the deceptive appearance of stability brought by a new convergence in European politics that focused around the market and the principle of liberal democracy and demonstrates how the impact of globalization and openness to migration and to destabilizing financial capital flows has eroded traditional politics and ended the stable left right polarization at the core of the postwar order This new edition has been thoroughly updated throughout demonstrating also how an era of crisis is challenging Europe and its values Supported by boxed case studies illustrations chronologies and an annotated bibliography and focusing on Europe as a whole it is the perfect introduction for students of Modern European History Confronting Sukarno J. Subritzky,2000-06-22 *Confronting Sukarno* examines the regional and international implications of the Malaysian Indonesian Confrontation a crisis more popularly known as Konfrontasi By doing so fundamental themes concerning the Asian Cold War are discussed In particular the concern of western policy makers with an increasingly belligerent communist China the importance of Konfrontasi to the war in Vietnam and the British role east of Suez are all examined in detail Being a work of international history the book draws extensively from recently de classified documents in the United States Britain Australia and New Zealand **The Blair**

Supremacy Lewis Minkin, 2014-06-16 Lewis Minkin has immense experience of the Labour Party and has acted as adviser to two major internal reviews of the internal party organisation. As the author of two widely acclaimed and original studies on the Labour Party, *The Labour Party Conference* and *The Contentious Alliance*, he possesses an unrivalled grasp of the subtleties and nuances of Labour's internal relationships. *The Blair Supremacy* is groundbreaking in its investigation of the processes, methods, character and politics of party management during a period when Blair strengthened his own position as he and his allies and managers drove the party through a ferment of new developments under the name New Labour. For this book, Minkin has been able to draw on a wealth of sources unavailable to other scholars. What is uncovered here is revealing and at times startling. It includes an extensive covert internal organisation, a culture which facilitated manipulation and what can be described as a rolling coup. These developments are rigorously and critically examined with a strong focus on three fundamental questions: How were these changes achieved? Was it as it was often represented, a complete supremacy? Why did it end so badly with Blair being forced in effect to step down? The study challenges many misconceptions and sheds new light on the Blair legacy and on the intense controversies surrounding him. It also adds greatly to our understanding of some acute contemporary problems in British political life. *British Policy in Aden and the Protectorates 1955-67* Spencer

Mawby, 2006-05-18 This book provides the first detailed account of the confrontation which took place between Britain and Nasser in the Colony of Aden and the surrounding states prior to British withdrawal in 1967. European Union

Enlargement JURGEN ELVERT, Wolfram Kaiser, 2004-08-02 *European Union Enlargement* provides a comparative analysis of the post-war European policies of those states that joined the European Union between 1973 and 1995. The volume draws upon new empirical research in order to investigate the policies that these newcomer states have had towards Europe since 1945, with an emphasis on their experience of membership and its possible Europeanising effect. A final comparative chapter draws the national European policies of the newcomers together and outlines what they have brought to the EU. The book also tests integration theories against the available evidence, demonstrating their limited explanatory value and the economic, political and cultural specificity of different national paths towards EU integration.
