Paul Reynolds, 2019-12-19 Butrint 6 describes the excavations carried out on the Vrina Plain by the Butrint Foundation
 from 2002-2007 Lying just to the south of the ancient port city of Butrint these excavations have revealed a 1 300 year long
 story of a changing community that began in the 1st century AD one which not only played its part in shaping the city of
 Butrint but also in how the city interacted and at times reacted to the changing political economic and cultural situations
 occurring across the Mediterranean World over this period Volume III discusses the Roman and Late Antique pottery from
 the Vrina Plain excavations This detailed study of the ceramics follows the archaeological sequence recovered from the
 excavations in chronological order and provides a comprehensive and in depth review of the pottery context by context
 offering an important insight into the supply as well as typology of local and imported pottery available to the inhabitants of
 the Vrina Plain during this period This is followed by a discussion on how the pottery trends found on the Vrina Plain relate to
 that of other sites in Butrint both within the town Triconch Palace the Forum and outside Vrina Plain training school villa
 excavations the villa of Diaporit The volume also presents an overview of some of the principal typological developments
 found across Butrint so as to allow the reader to place the Vrina finds in context including a discussion of a number of key
 contexts from the Forum as well as the findings from this section petrology of some of the ceramics *Industrial*
