Outlaw Aesthetics:

Outlaw Aesthetics Fred E. H. Schroeder, 1977-01-01 **Beautiful Boys/Outlaw Bodies** K. Mezur, 2005-11-04 This book is a feminist reading of gender performance and construction of the female role players on the stage of the Kabuki theatre. It is not limited to a theatre arts focus; rather, it is a mapping and close analysis of transformative genders through several historical periods in Japan, the seventeenth through the twentieth centuries.

Robin Hood in Outlaw/ed Spaces Lesley Coote, Valerie Johnson, 2016-11-10 Following in the tradition of recent work by cultural geographers and historians of maps, this collection examines the apparently familiar figure of Robin Hood as he can be located within spaces that are geographical, cultural, and temporal. The volume is divided into two sections: the first features an interrogation of the literary and other textually transmitted spaces to uncover the critical grounds in which the Robin Hood legend has traditionally operated. The essays in Part Two take up issues related to performative and experiential space, demonstrating the reciprocal relationship between page stage and lived experience. Throughout the volume, the contributors contend with, among other things, modern theories of gender, literary detective work, and the ways in which the settings that once advanced court performances now include digital gaming and the enactment of real lives.

Uncommon Sense Craig Leonard, 2022-09-27 An examination of Herbert Marcuse's political claim for the aesthetic dimension, focusing on defamiliarization as a means of developing radical sensibility. In *Uncommon Sense*, Craig Leonard argues for the contemporary relevance of the aesthetic theory of Herbert Marcuse, an original member of the Frankfurt School and icon of the New Left, while also acknowledging his philosophical limits. His account reinvigorates Marcuse for contemporary readers, putting his aesthetic theory into dialogue with antiracist and anti-capitalist activism. Leonard emphasizes several key terms not previously analyzed within Marcuse's aesthetics, including defamiliarization, anti-art, and habit. In particular, he focuses on the centrality of defamiliarization, a subversion of common sense that can be a means to the development of what Marcuse refers to as radical sensibility. Leonard brings forward Marcuse's claim that the aesthetic dimension is political because of its refusal to operate according to the repressive common sense that establishes and maintains relationships dictated by advanced capitalism. For Marcuse, defamiliarization is at the center of the aesthetic dimension, offering the direct means of stimulating its political potential. Leonard expands upon Marcuse's aesthetics by drawing on the work of Sylvia Wynter, going beyond Marcuse's predominantly European and patrilineal intellectual framework while still retaining his aesthetic theory's fundamental characteristics toward a human dimension requiring decolonial, feminist, antiracist, and counterpoetic perspectives.

Speaking Out of Turn Stephanie Sparling Williams, 2021-08-24 *Speaking Out of Turn* is the first monograph dedicated to the forty-year oeuvre of feminist conceptual artist Lorraine O'Grady. Examining O'Grady's use of language, both written and spoken, Stephanie Sparling Williams charts the artist's strategic use of direct address, the dialectic posture her art takes in relationship to its viewers, to trouble the field of vision and claim a voice in the late 1970s through the 1990s.

when her voice was seen as out of turn in the art world Speaking Out of Turn situates O Grady s significant contributions within the history of American conceptualism and performance art while also attending to the work s heightened visibility in the contemporary moment revealing both the marginalization of O Grady in the past and an urgent need to revisit her art in the present

Symbiosis Ray Broadus Browne,Marshall William Fishwick,1988 These essays written by experts in their fields demonstrate how necessary it is in the study of the humanities and social sciences to realize the interdependency of the fields and how rich the resulting study can be **Twentieth-century Popular Culture in Museums and Libraries** Fred E. H. Schroeder,1981 Although libraries and museums for many centuries have taken the lead under one rational or another in recovering storing and displaying various kinds of culture of their periods lately as the gap between elite and popular culture has apparently widened these repositories of artifacts of the present for the future have tended to drift more and more to what many people call the aesthetically pleasing elements of our culture The degree to which our libraries and museums have ignored our culture is terrifying when one scans the documents and artifacts of our time which if history in any wise repeats itself will in the immediate and distant future become valuable indices of our present culture to future generations As Professor Schroeder dramatically states it No doubt about it it is the contemporary popular culture that is the endangered species The essays in this book investigate the reasons for present day neglect of popular culture materials and chart the various routes by which conscientious and insightful librarians and museum directors can correct this disastrous oversight

Daytime Television Game Shows and the Celebration of Merchandise Morris B. Holbrook,1993 Insights into the nature of the consumer society and its ethos of consumption can often emerge from interpreting even the most lowly specimens of popular culture In this spirit a neglected genre that promises to shed light on the culture of consumption appears in the form of the daytime television game shows whose hegemonic message seems to convey and to justify a widespread obeisance to

the mandate of materialism These game shows often present a text that demands a readerly monosemic dominant interpretation as an unabashed celebration of merchandise In particular a close analysis of the longest running game show The Price Is Right suggests that all facets of this program combine to reinforce its central meaning as a ritualistic validation of consumption oriented greed An alternative resistant reading is explored but rejected in part because it rests on an assumption that violates the empirical data and in part because it provides a more convincing analysis of a program like Supermarket Sweep In short the present study concludes that TV game shows in general and The Price Is Right in particular reflect and reinforce the obsession that many modern consumers feel with merchandise valued almost for its own sake beyond any need or even capacity to use it as a kind of disembodied target of misdirected desire
