The New Cambridge Bibliography of English Literature: Volume 1, 600-1660 George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *American Studies in Europe, Volume 1* Sigmund Skard, 2017-01-30 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press s distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas An Outline of American State Literature Elsie Dershem, 1921 **Catalog of Copyright Entries. Landa, 2015-12-08 This is the first of two volumes which will make available in convenient form the annual bibliographies of 18th century scholarship published for the past 25 years in the Philological Quarterly Volume 1 includes the years 1926 1938 By means of lithography the original issues are exactly reproduced with retention of all critical annotations Originally published in 1950 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Journal of the National Education Association** National Education Association of the United States, 1923 **Today's Education** National Education Association of the United States, 1923 *Journal of the National Education Association*, 1923 Nineteenth-century Scottish Rhetoric Winifred Bryan Horner, 1993 Winifred Bryan Horner argues that an understanding of the changes that occurred in the content of nineteenth century courses in logic rhetoric and belles lettres taught in Scottish universities provides important critical insight into the development of the twentieth century American composition course as well as courses in English literature and critical theory Because of the inaccessibility of primary materials documenting the changes in courses taught at Scottish universities the impression remains that the nineteenth century represents a break with the traditional school curriculum rather than a logical transition to a new focus of study Horner has discovered that the notes of students who attended these classes meticulously transcribed records of the

lectures that professors dictated in lieu of printed texts provide reliable documentation of the content of courses taught during the period Using these records Horner traces the evolution of current traditional composition developed in the United States in the first part of the twentieth century from courses taught in nineteenth century northern Scottish universities She locates the beginning of courses in English literature and belletristic composition in the southern schools particularly Edinburgh Horner s study opens new vistas for the study of the evolution of university curricula especially the never before acknowledged influence of belletristic rhetoric on the development of the North American composition course
