Libraries, 1890 **Reform Judaism and Darwin** Daniel Langton, 2019-07-22 Darwin provoked Jewish as well as Christian thinkers so that many felt obliged to establish oppositional alternative synthetic or complimentary models relating Jewish religion to his theory of natural selection This book examines a range of leading nineteenth and early twentieth century American progressive Jewish thinkers with the primary focus being rabbis Kohler Wise Hirsch Krauskopf and Hahn although many others are covered Key themes include the widespread commitment to universal evolutionism that is the application of biological evolutionary theory to other realms e.g. history religion cosmic and the particular fascination with the evolution of ethical systems within human societies bearing in mind mankind's bestial origins and the new challenges for understanding religious authority and revelation It is argued that Reform Jewish discussions about the nature of God have been more profoundly shaped by engagement with evolutionary theory than has been recognized before and that evolutionary thought provides the key framework for understanding Reform Judaism itself The precise nature of Jewish Reform engagement with Christian proponents of theistic evolution are important as are their interest in alternative evolutionists to Darwin such as Spencer and Haeckel Publishers' Circular and General Record of British and Foreign Literature, and Booksellers' Record, 1898
