

OUT-OF-THE-BODY EXPERIENCES

Celia Green

"This extensive and systematic study of "out-of-the-body" experiences undoubtedly forms, as Professor Price observes in his Foreword, "a notable contribution to psychical research". But I would add that it also deserves the close attention of psychologists generally . . . It seems to me an admirable piece of work. I particularly liked the classification of cases, and I found the style refreshingly clear and readable."

Professor Sir Cyril Burt

"The present volume is the first in which contemporary instances are collected, collated and studied . . . the results are extraordinarily interesting, stimulating and well worth examining by the reader".

Times Literary Supplement

"With this rich lode of material at her disposal Miss Green has been able to make an exciting advance in the clarification of her subject."
