Outside The Fleet External Requirements For Navy Officers:

Outside the Fleet External Requirements for Naval Officers, 2002 In addition to filling their own ranks the military services must assign people to outside organizations such as the Joint Staff unified commands the Department of State and the White House While external billets require both officer and enlisted personnel the officer billets tend to garner the most attention both because of the cost and because of the management required to ensure that they are filled appropriately i e with officers of the correct experience or capabilities Many in the services believe that these external requirements particularly those in the joint arena are increasing This perception has been fueled in part by the Goldwater Nichols Department of Defense Reorganization Act of 1986 which directed a broad range of organizational and functional changes with an eye to improving the services ability to carry out joint operations This act directed the Secretary of Defense to establish a list of joint duty billets and imposed requirements for who is eligible to serve in such billets The act also requires the services to make joint duty a pre requisite for flag rank The law s goal is the improvement of joint operations largely by ensuring that quality officers serve in joint billets and are not disadvantaged by doing so

The Goldwater-Nichols Act and the Joint Duty Promotion Requirement Michael C. Veneri, 2004 Under the Goldwater Nichols Act of 1986 several changes were instituted by Congress in an effort to reform the U S military Title IV Joint Officer Management of the Act was aimed at reforming the officer development of the services in an effort to eliminate the parochial service dispositions that had previously plagued U S military efforts Title IV instituted policies to provide officers with joint education and joint experience in an effort to develop officers with a multi service or joint perspective In an effort to provide senior officers with joint experience all officers promoted to the rank of brigadier general or rear admiral 07 must have completed a joint duty assignment prior to promotion This dissertation looks specifically at the joint duty promotion requirement instituted under Title IV in an effort to analyze the U S military s ability

to implement a congressional mandate The implementation of the joint duty assignment as a promotion requirement has been a source of concern for both the services and congressional policymakers Strategy Shelved Steven Wills,2021-08-15 As U S strategy shifts once again to focus on great power competition Strategy Shelved provides a valuable analytic look back to the Cold War era by examining the rise and eventual fall of the U S Navy s naval strategy system from the post World War II era to 1994 Steven T Wills draws some important conclusions that have relevance to the ongoing strategic debates of today His analysis focuses on the 1970s and 1980s as a period when U S Navy strategic thought was rebuilt after a period of stagnation during the Vietnam conflict and its high water mark in the form of the 1980s maritime strategy and its attendant six hundred ship navy force structure He traces the collapse of this earlier system by identifying several contributing factors the provisions of the Goldwater Nichols Act of 1986 the aftermath of the First Gulf War of 1991 the early 1990s revolution in military affairs and the changes to the Chief of Naval Operations staff in 1992 following the end of the Cold War All of these conditions served to undermine the existing naval strategy system The Goldwater Nichols Act subordinated the Navy to joint control with disastrous effects on the long serving cohort of uniformed naval strategists The first Gulf War validated Army and Air Force warfare concepts developed in the Cold War but not those of the Navy s maritime strategy The Navy executed its own revolution in military affairs during the Cold War through systems like AEGIS but did not get credit for those efforts Finally the changes in the Navy OPNAV staff in 1992 served to empower the budget arm of OPNAV at the expense of its strategists These measures laid the groundwork for a thirty year strategy of means where service budgets a desire to preserve existing force structure and lack of strategic vision hobbled not only the Navy but also the Joint Force s ability to create meaningful strategy to counter a rising China and a revanchist Russian threat Wills concludes his analysis with an assessment of the return of naval strategy documents in 2007 and 2015 and speculates on the potential for success of current Navy strategies including the latest tri service maritime strategy His research makes extensive use of primary sources oral histories and navy documents to tell the story of how the U S Navy created both successful strategies and how a dedicated group of naval officers were intimately involved in their creation It also explains how the Navy s ability to create strategy and even the process for training strategy writers was seriously damaged in the post Cold War era Selected Rand Abstracts Rand Corporation,2002 Includes publications previously listed in the supplements to the Index of selected publications of the Rand Corporation Oct 1962 Feb 1963 *Regulations for the Government of the Navy of the United States* United States.
